## Introduction .............................................. 1

## Overview About Living Organ Donation ........................ 5
  I. Problem of Organ Shortage .................................................. 5
    1) Possibilities to Serve the Problem of Organ Shortage ............... 5
    2) Impact of Living Organ Donation .............................................. 7
  II. Basic Facts About Living Organ Donation .......................... 9
    1) Delimitation of Living Organ Donation and Post-Mortem Organ
       Donation .................................................................................. 9
    2) Historical Overview ................................................................. 10
    3) Possible Organs for Living Organ Donation ............................... 11
  III. Terminology ....................................................... 14

## Comparative Analysis of European Transplant Laws Regarding
Living Organ Donation ........................................... 15
  I. Comparison of Laws ......................................................... 15
    1) Reasons for a Comparison of Laws ............................................ 16
    2) Procedure of the Comparison .................................................. 17
    3) Relevant National Sources of Law Included in the Comparison ....... 20
    4) European and International Level ............................................. 21
  II. The Issues of Living Organ Donation in Need of Regulation .......... 24
    1) Concept of Informed Consent .................................................. 24
    2) Requirements with Regard to Informed Consent .......................... 31
    3) Suitability of the Transplantation ............................................ 67
    4) Minors and Mentally Incapacitated Adults .................................. 78
    5) Restrictions on Living Organ Donation by Competent Adults ........ 89
    6) Subsidiarity .............................................................................. 112
    7) Procedural Issues .................................................................... 125
    8) Social Security Regulations for Donors ..................................... 140
  III. Summary .......................................................... 145
Analysis of the Normative Arguments That Dominate the Policy Arena About Necessity and Legitimacy of Legal Restrictions in Living Donor Transplantation

I. Definition of the Problem ........................................ 147
II. Arguments Serving to Restrict Living Organ Donation ........... 148
   1) The Harm-Argument .................................. 149
   2) Lack of Voluntariness .................................. 165
   3) The Social Pressure Argument .......................... 173
   4) Organ Trade ........................................... 176
   5) Justice and Equality .................................... 178
   6) Special Groups of Potential Donors ....................... 182
   7) Arguments Against Specific Methods and Programmes to Increase
      Living Organ Donation ................................ 183
   8) Procedures .............................................. 198
III. Summary ...................................................... 199

Actions of the European Union So Far .......................... 201
I. Survey by the European Commission in 2003 ............... 201
II. Communication from the Commission to the European Parliament
    and the Council – Organ Donation and Transplantation:
    Policy Actions at EU Level .................................. 202
   1) Content of the Communication from the Commission to the
      European Parliament and the Council – Organ Donation
      and Transplantation: Policy Actions at EU Level ........... 202
   2) Content of the Commission Staff Working Document, Accompanying
      Document to the Communication from the Commission
      to the European Parliament and the Council, Organ Donation
      and Transplantation: Policy Actions at EU Level, Impact
      Assessment ................................................. 204
   3) Consequences of the Communication from the Commission
      and the Commission Staff Working Document, Accompanying
      Document to the Communication .......................... 205
III. Resolutions from the European Parliament .................... 215
   1) European Parliament Resolution of 22 April 2008 on Organ
      Donation and Transplantation: Policy Actions at EU Level
      (2007/2210 (INI)) ........................................... 215
   2) European Parliament Resolution of 19 May 2010 on the
      Commission Communication: Action Plan on Organ Donation
      Between Member States (2009/2104(INI)) .................. 216
IV. Summary .................................................... 218
Possibilities of Harmonisation .......................................................... 219
  I. European Union as Subject to Harmonise Legislation Regarding
     Living Organ Donation ............................................................... 220
       1) WHO .......................................................... 220
       2) Council of Europe ...................................................... 220
       3) European Union ......................................................... 222
  II. General Competences of the European Union to Make Law ......... 222
       1) General Principles ...................................................... 223
       2) Types of Competences ................................................ 225
       3) Types of Legal Acts of the European Union ....................... 227
  III. Competences in the Field of Living Organ Donation ............... 231
       1) Art. 168 Treaty on the Functioning of the European Union .... 231
       2) Art. 114 Treaty on the Functioning of the European Union .... 241
       3) Art. 9 Treaty on the Functioning of the European Union ....... 242
       4) Charter of Fundamental Rights of the European Union ........ 242
       5) Treaty of Lisbon ......................................................... 245
       6) Result .................................................................. 247
  IV. Soft Law ........................................................................... 248
       1) Soft Law in General ...................................................... 248
       2) Soft Law for Living Organ Donation .................................. 263
  V. Result ............................................................................ 267

Best Practise Proposal for Living Organ Donation in the
European Union ........................................................................... 269
  I. Introduction: Procedure and Method ....................................... 269
  II. Establishment of a Best Practise Proposal for Living Organ Donation
      in the European Union ........................................................... 271
       1) Informed Consent .......................................................... 272
       2) Suitability of the Transplantation .................................... 278
       3) Minors and Mentally Incapacitated Adults ....................... 279
       4) Restrictions on Living Organ Donation by Competent Adults ... 281
       5) Subsidiarity ................................................................. 286
       6) Procedural Issues .......................................................... 287
       7) Social Security Regulations for Donors ............................. 294
  III. Result ............................................................................ 296

Summary ..................................................................................... 297
