Preprojective Algebras, Singularity Categories and Orthogonal Decompositions	1
Claire Amiot	
1 Introduction	1
1.1 Notation	3
2 d -Representation Infinite Algebras and Preprojective Algebras	3
3 The Singularity Category of a Gorenstein Algebra	4
4 Orlov's Orthogonal Decomposition	6
5 Examples	10
References	11
(Contravariant) Koszul Duality for DG Algebras	13
Luchezar L. Avramov	
1 Introduction	13
2 Cup Products and Cap Products	14
2.1 Notation	15
2.2 Cup products	15
2.3 Cap Products	16
2.4 Opposite Cup Products	17
2.5 Opposite Cap Products	17
2.6 Morphisms	18
2.7 Adjunction	18
3 Twisted Tensor Products	20
3.1 Notation	20
3.2 Twisted Tensor Products	20
3.3 Associativity	21
3.4 Adjointness	21
3.5 Naturality	21
4 Acyclic Twisting Maps	23
4.1 Notation	23
4.2 Comparison Maps	24

4.3	Acyclicity	24
4.4	Bar Construction	24
4.5	Cobar Construction	25
4.6	(Co)augmentations	25
4.7	Natural Resolutions	27
4.8	Naturality	27
5	Duals of DG Coalgebras	27
5.1	Notation	28
5.2	Duality	28
5.3	Actions on Tensor Products	28
6	Duals of Twisting Maps	30
6.1	Notation	30
6.2	Duality	30
6.3	Actions on Duals	30
7	Moore Duality	33
7.1	Notation	33
7.2	Semifree Resolutions	33
7.3	Derived Category of DG Modules	33
7.4	Subcategories	34
8	Composition Products	36
8.1	Notation	36
8.2	Morphisms	36
8.3	Formal DG Algebras	37
8.4	Derived Homomorphism Functors	37
8.5	Naturality	38
8.6	Controlled Resolutions	39
9	Koszul Duality	39
9.1	Augmented Models	40
9.2	Homomorphisms of Comodules	41
10	Koszul Algebras	43
10.1	Notation	43
10.2	Two-Homogeneity	44
10.3	Quadratic Dual	44
10.4	Priddy Construction	44
10.5	Koszul Construction	46
11	Golod DG Algebras	46
11.1	Trivial Massey Operations	46
11.2	Trivial Extensions	47
Appendix A	Complexes	50
A.1	Complexes	50
A.2	Homomorphisms	51
A.3	Tensor Products	51
A.4	Dual Complexes	51
Appendix B	DG Modules	52
B.1	DG Algebras	53

B.2	Augmentations	53
B.3	Tensor Algebras	53
B.4	Left DG Modules	54
B.5	Right DG Modules	54
B.6	Semifree DG Modules	54
B.7	Left DG Bimodules	55
B.8	Twisters	55
Appendix C	DG Comodules	56
C.1	DG Coalgebras	56
C.2	Coaugmentations	56
C.3	Tensor Coalgebras	57
C.4	Left DG Comodules	57
C.5	Right DG Comodules	57
