Contents

Part I Introduction and Scientific Principles

1 From Hemoglobin Based Oxygen Carrier to Oxygen Therapeutics, Blood Substitutes, Nanomedicine and Artificial Cells ................................... 3
   Thomas Ming Swi Chang

2 From the Atmosphere to the Mitochondrion: The Oxygen Cascade ....................... 27
   George P. Biro

3 Biochemistry of Hemoglobin .................................................. 55
   Andrea Mozzarelli, Stefano Bruno and Luca Ronda

4 The Role of Blood and Plasma Viscosity in Restoring Oxygen Delivery Capacity ......................... 75
   Amy G. Tsai, Judith Martini, Beatriz Y. Salazar Vázquez, Pedro Cabrales, Seetharama A. Acharya and Marcos Intaglietta

Part II Hemorrhagic Shock and Current Treatments

5 Pathophysiology of Hemorrhagic Shock and Resuscitation ............... 97
   Fredric M. Pieracci and Walter L. Biffl

6 Allogeneic Blood Transfusion for Surgical and Traumatic Hemorrhage ..................... 117
   Mercy Kuriyan and Jeffrey L. Carson

7 Pre-Hospital Fluid Resuscitation in Civilian and Military Populations ............. 127
   Robert M. Van Haren, Chad M. Thorson, Col Lorne H. Blackbourne and Kenneth G. Proctor
Part III  Current Issues of HBOCs and Regulatory Framework

8 NIH/FDA/DOD Interagency Working Group on Oxygen Therapeutics ........................................ 141
Phyllis Mitchell, Richard Weiskopf, Warren M. Zapol
and Oxygen Therapeutics Working Group

9 Regulatory Framework for Hemoglobin-Based Oxygen Carrier Trials ........................................ 149
Basil Golding

Part IV  Approaches to HBOCs

10 HBOCs from Chemical Modification of Hb .......................................................... 159
Ronald Kluger and Francine E. Lui

11 Design of Nonhypertensive Conjugated Hemoglobins as Novel Resuscitation Fluids .................. 185
Seetharama A. Acharya, Marcos Intaglietta, Amy G. Tsai and Fantao Meng

12 Cellular-Type Hemoglobin-Based Oxygen Carriers to Mimic the Red Blood Cell Structure .............. 235
Hiromi Sakai

13 Recombinant Octameric Hemoglobins as Resuscitation Fluids in a Murine Model of Traumatic Brain Injury Plus Hemorrhagic Shock .............................................................. 249
Xianren Wu, Nancy T. Ho, Tong-Jian Shen, Vincent Vagni, David K. Shellington, Keri Janesko-Feldman, Tsuey Chyi S. Tam, Ming F. Tam, Patrick M. Kochanek, Chien Ho and Virgil Simplaceanu

14 Liposome-Encapsulated Hemoglobin as an Artificial Oxygen Carrier: Technological Features, Manufacturing and Issues for Practical Application ..................................................... 273
Shinichi Kaneda, Takanobu Ishizuka, Hiroshi Goto and Hiroaki Kasukawa

15 Zero-Link Hemoglobin (OxyVita®): Impact of Molecular Design Characteristics on Pre-clinical Studies ................................................................. 283
John P. Harrington and Hanna Wollocko

Part VI Preclinical Evaluations of HBOCs

26 Pre-clinical Evaluation of Hemoglobin Based Oxygen Carriers: Animal Models and Biomarkers
   Paul W. Buehler and Felice D’Agnillo
   .......................................................... 457

27 The Hemoglobin-Based Oxygen Carrier, HBOC-201, as a Resuscitation Fluid for Traumatic Hemorrhagic Shock:
   The Naval Medical Research Center Experience
   Charles Auker, Paula Moon-Massat, Anke Scultetus, Richard McCarron and Daniel Freilich
   .......................................................... 475

28 Cellular-Type Hemoglobin-Based Oxygen Carrier as a Resuscitative Fluid for Hemorrhagic Shock: Acute
   and Long-Term Safety Evaluation Using Beagle Dogs
   Tatsuhiko Ikeda, Hirohisa Horinouchi, Yoraro Izumi, Hiromi Sakai and Koichi Kobayashi
   .......................................................... 501

Part VII HBOC Clinical Trials

29 Key Adverse Events in Recent HBOC Phase III Clinical Trials and Their Causal Relationship to Test HBOC’s
   Colin F. Mackenzie
   .......................................................... 527

30 Some Critical Comments on the Major HBOC Clinical Trials
   George P. Biro
   .......................................................... 543

31 Compassionate Use Cases Treated with Hemoglobin-Based Oxygen Carriers
   Paula Moon-Massat and Daniel Freilich
   .......................................................... 563

Part VIII HBOC-Mediated Adverse Effects

32 Acellular Hemoglobin-Based Oxygen Carrier Mediated Blood Pressure Elevation and Vasoconstriction: A Review
   of Proposed Mechanisms and Contributing Factors
   Hae Won Kim
   .......................................................... 587

33 HBOCs and Cardiac Integrity
   T. N. Estep
   .......................................................... 621
34 Effects of Hemoglobin-Based Oxygen Carriers on Blood Coagulation ............................................. 647
Jonathan S. Jahr, Molly Chung, Afsaneh Anvarhosseini
and Hae Won Kim

35 Redox Activity of Cell-Free Hemoglobin: Implications for Vascular Oxidative Stress and Endothelial Dysfunction .... 665
Felice D’Agnillo

36 HBOC Interferences with Routine Clinical Laboratory Tests .... 683
Younes Smani

37 Vasoconstriction, Hypertension and Oxidative Toxicity are Regulated by Polymerized Hemoglobin Size ................. 693
Brian M. Belcik and Andre F. Palmer

38 Acellular Hemoglobin-Based Oxygen Carrier Induced Vasoactivity: A Brief Review of Potential Pharmacologic Remedies .......................................................... 713
Hae Won Kim, Chi-Ming Hai and A. Gerson Greenburg

Part IX A Call for Collaborative Research and Development

Hae Won Kim, Jonathan S Jahr, Andrea Mozzarelli
and Hiromi Sakai
Hemoglobin-Based Oxygen Carriers as Red Cell Substitutes and Oxygen Therapeutics
Kim, H.W.; Greenburg, A.G. (Eds.)
2013, XXIII, 746 p. 130 illus., 77 illus. in color., Hardcover
ISBN: 978-3-642-40716-1
