Part I  Fundamentals of LIBS

1  Laser–Matter Interaction in LIBS Experiments  .... 3
   Andrea Marco Malvezzi
   1.1  Introduction  ...... 3
   1.2  Laser Interaction with Gases  ........ 6
      1.2.1  Multiphoton Ionization  .. 7
      1.2.2  Cascade Ionization  ...... 10
   1.3  Laser Interaction with Solid Materials from Milliseconds
to Nanoseconds  ........ 14
      1.3.1  Heating and Melting  .... 15
      1.3.2  Vaporization  ........ 18
   1.4  Laser Interaction with Solid Materials:
       Ultrashort Laser Pulses  .... 24
   1.5  Conclusions  ........ 27
   References  ........ 28

2  Physical Processes in Optical Emission Spectroscopy  .... 31
   Mario Capitelli, Gianpiero Colonna, Giuliano D’Ammando,
   Rosalba Gaudiuso and Lucia Daniela Pietanza
   2.1  Introduction  ........ 31
   2.2  LTE Plasmas: The Few Level Approximation
       for the Partition Function and Thermodynamic
       Properties of Atomic Species  ........ 34
   2.3  Non-LTE Plasmas: Collisional Radiative Models Coupled
       with Electron Energy Distribution Function
       and Radiation Transfer  ........ 38
   2.4  Fluid Dynamics of Laser-Plasma Expansion in Gas
       and Liquids: Modeling and Validation  .... 45
   2.5  Conclusions and Perspectives  ........ 53
   References  ........ 55
### 5.2 Double Pulse Experimental Configurations
- **5.2.1 Collinear Configuration**
- **5.2.2 Orthogonal Configuration**
- **5.2.3 Other Configurations**

### 5.3 Double Pulse LIBS with Different Wavelengths and Pulse Lengths
- **5.3.1 Double Pulse LIBS with Different Wavelengths**
- **5.3.2 Double Pulse LIBS with Different Pulse Durations**

### 5.4 Physical Principles Underlying Double Pulse LIBS Analysis

### 5.5 Multiple Pulse LIBS

### 5.6 Double Pulse Instrumentation

### 5.7 Applications of Double and Multiple Pulse LIBS
- **5.7.1 Stand-Off Detection of Hazardous Materials**
- **5.7.2 Double Pulse Analysis of Soils**
- **5.7.3 Double Pulse Analysis of Biological Tissues**
- **5.7.4 Double Pulse LIBS of Archaeological Objects**

### 5.8 Conclusion

### References

---

### 6 Femtosecond Laser Ablation: Fundamentals and Applications

Sivanandan S. Harilal, Justin R. Freeman, Prasoon K. Diwakar and Ahmed Hassanein

### 6.1 Introduction

### 6.2 Femtosecond Laser System

### 6.3 Laser–Matter Interaction

### 6.4 Femtosecond Laser Absorption: Energy Transport

### 6.5 Ablation Mechanisms

### 6.6 Ablation Threshold

### 6.7 Plasma Characterization: Comparison Between ns and fs LIBS Plumes
- **6.7.1 Plume Hydrodynamics**
- **6.7.2 Plasma Spectral Features**
- **6.7.3 Plasma Characterization**

### 6.8 Conclusions

10 Space Applications of LIBS
David A. Cremers
10.1 Introduction
10.2 Review of Prior Missions and Conventional Analysis Methods
10.2.1 Objectives of Space Exploration
10.2.2 Overview of Missions to the Moon, Mars, Venus
10.2.3 Overview of Instrumentation Used on Planetary Surfaces
10.2.4 Some LIBS Capabilities Compared to Prior Instrumentation
10.3 LIBS Deployment Scenarios for Space Missions
10.3.1 Lasers in Space for Elemental Analysis
10.3.2 Interrogation Geometries Using LIBS
10.3.3 Considerations for Instrument Design
10.4 Review of LIBS Laboratory Studies Related to Space Applications
10.4.1 Plasma Characteristics at Different Pressures
10.4.2 LIBS Studies for Mars
10.4.3 LIBS Studies for Venus
10.4.4 LIBS Studies for the Moon/Airless Bodies
10.5 ChemCam Instrument

14 Forensic Applications of LIBS ....................................... 377
Richard R. Hark and Lucille J. East
14.1 Forensic Analysis of Physical Evidence ......................... 378
  14.1.1 Purposes for Analyzing Forensic Evidence ................ 378
  14.1.2 Types of Forensic Evidence ................................. 380
  14.1.3 Rules for the Admissibility of Forensic Evidence in Court: The Frye and Daubert Standards 381
  14.1.4 Analytical Techniques for Physical Evidence ........ 382
  14.1.5 LIBS: An Emerging Tool for the Forensic Community .............................................. 384
14.2 Forensic Applications of LIBS

14.2.1 Glass

14.2.2 Paint

14.2.3 Ink and Paper (Questioned Documents)

14.2.4 Ammunition and Gunshot Residue

14.2.5 Fingerprints

14.2.6 Wood

14.2.7 Fibers

14.2.8 Biological Materials

14.2.9 Nuclear Forensics

14.2.10 Other Types of Evidence

14.2.11 Presentation of LIBS Evidence in Court

14.3 Future Development of LIBS for Analysis of Forensic Evidence
