# Table of Contents

List of Tables ........................................................................................................ 11  
List of Figures ....................................................................................................... 13  
List of Abbreviations ............................................................................................. 15  

1 Introduction ........................................................................................................ 17  
  1.1 Statement of Problem ..................................................................................... 17  
  1.2 Statement of Objectives .................................................................................. 19  
  1.3 Organization of the Thesis .............................................................................. 22  

2 Background to Risk Perception ........................................................................... 25  
  2.1 The Concept of Risk and Risk Perception ..................................................... 25  
    2.1.1 The Concept of Risk ................................................................................ 25  
    2.1.2 The Concept of Risk Perception .............................................................. 27  
  2.2 Cognitive and Affective Processes in Risk Perception .................................... 28  
    2.2.1 Cognitions and Affect Influencing Decision Making ......................... 29  
      2.2.1.1 Cognitive Processes and Cognitive Structures ................................. 29  
      2.2.1.2 Affective Processes ...................................................................... 32  
      2.2.1.3 The Interplay of Cognitive and Affective Processes ................. 34  
    2.2.2 Cognitive and Affective Factors in Risk Perception .............................. 35  
      2.2.2.1 Cognitive Factors Influencing Risk Perception ............................. 36  
      2.2.2.2 Affective Factors Influencing Risk Perception ............................... 40  
  2.3 Approaches to Understanding Differences in Risk Perception among Individuals ........................................................................................................ 43
2.3.1 The Psychometric Paradigm ................................................ 44
2.3.2 The Cultural Theory of Risk ................................................ 45
2.3.3 Current Approaches to Risk Perception Research ............... 47
2.4 Literature Review on Factors Determining Risk Perception....... 48
  2.4.1 Socio-Demographic Factors................................................. 49
    2.4.1.1 Gender/Sex ....................................................... 50
    2.4.1.2 Age ................................................................ 50
    2.4.1.3 Ethnicity ........................................................... 51
  2.4.2 Socio-Structural Factors ...................................................... 52
    2.4.2.1 Education and Income ...................................... 52
    2.4.2.2 Knowledge ....................................................... 53
    2.4.2.3 Presence of Children ........................................ 54
  2.4.3 Socio-Psychological Factors ................................................ 55
    2.4.3.1 Worldviews and Values ................................... 55
    2.4.3.2 Religiosity and Spiritual Beliefs ...................... 58
  2.4.4 Socio-Political Factors ......................................................... 59
    2.4.4.1 Attitudes towards Science and Technology ..... 59
    2.4.4.2 Political Views ................................................. 60
    2.4.4.3 Trust .................................................................. 60
3 Gender and Risk Perception .......................................................... 63
  3.1 The Role of Gender in Risk Research ...................................... 63
  3.2 Empirical Evidence on Gender and Risk Perception ............... 66
    3.2.1 The Impact of Gender on the Perception of Risk ............. 66
    3.2.2 Gender Differences in Food Risk Perception............... 69
  3.3 Approaches to Explaining the Gender Gap in Risk Perception ..... 71
    3.3.1 Social Roles and Gender Roles .................................... 72
    3.3.2 Familiarity Hypothesis .............................................. 74
    3.3.3 Power and Status ...................................................... 75
    3.3.3.1 Social Trust ...................................................... 75
    3.3.3.2 Benefit Perceptions and Perceived
Vulnerability to Risk ............................................................. 77
3.3.4 Values and Worldviews .................................................. 78
3.3.5 Gender Inauthenticity ..................................................... 80
3.3.6 Gender Differences in Images and Related Emotions ....... 81

4 Systematic Literature Review on Gender and Food Risk Perception ........................................... 83
4.1 Objectives ........................................................................ 83
4.2 Methodology ..................................................................... 84
4.3 Results ............................................................................ 86
4.4 Summary and Discussion ................................................. 88

5 The Means-End-Chain Theory ............................................. 91
5.1 Models for Presenting Knowledge Structures ................. 91
5.2 Historical Background of the MEC Theory ..................... 92
5.3 The MEC Model of Gutman and Reynolds (1979) and Olson and Reynolds (1983) ......................... 95
5.4 The Relationship between the Self, Situation and Involvement...... 98

6 Uncovering Women’s and Men’s Cognitive Structures: an MEC Approach ..................................... 103
6.1 Background and Objectives ............................................. 103
6.2 Methodology ..................................................................... 105
6.2.1 Sample Selection and Data Collection Procedure .......... 105
6.2.2 Choice of Stimuli and Elicitation Technique ................ 107
6.2.2.1 Choice of Stimuli ..................................................... 107
6.2.2.2 Elicitation Technique ............................................. 109
6.2.3 Laddering ................................................................. 114
6.2.3.1 Laddering Interview .............................................. 115
6.2.3.2 Data Analysis ....................................................... 121
6.3 Results ............................................................................ 130
6.3.1 Sample Description and General Product Comparisons ... 130
6.3.1.1 Socio-Demographic Characteristics and General Attitudes........................................... 130
