## 1 Introduction

1.1 Motivation 1
1.2 Problem definition and research objectives 3
1.3 Methodological approach and structure of this thesis 5

## 2 Theoretical background

2.1 Theoretical framework: New Institutional Economics 8
2.2 Environments of institutional voids 10
   2.2.1 Defining the central concepts of competitive advantage, transaction costs and the institutional environment 10
   2.2.2 Defining institutional voids 15
   2.2.3 Discussing potential institutional voids in transition economies 23
2.3 Bridging institutional voids - Review of research streams 32
   2.3.1 Multinational enterprises in environments of institutional voids 32
   2.3.2 Small and medium enterprises in environments of institutional voids 37
   2.3.3 Business groups in environments of institutional voids 39
2.4 Bridging institutional voids - Clusters as instruments 42
   2.4.1 The cluster concept 42
   2.4.2 The potential of cluster services to bridge institutional voids 46
2.5 Summarizing the theoretical considerations into research questions 48

## 3 A multi case study on clusters

3.1 Introduction - A qualitative research design 51
   3.1.1 Capturing qualitative research 51
3.1.2 The case study method
3.1.3 Methodology
3.1.4 A discussion on rigor criteria
3.1.5 Case study layout
3.2 Case studies on clusters in environments of institutional voids
   3.2.1 Introduction to the case studies: Southeast Europe and its development
   3.2.2 The Albanian ICT cluster
   3.2.3 The Serbian ICT cluster
   3.2.4 The Macedonian ICT cluster
   3.2.5 The Croatian ICT cluster
   3.2.6 The Bulgarian ICT cluster
   3.2.7 Additional observations
4. A comparative case study
   4.1 Introduction to the comparative case study method
   4.2 Comparative analysis of institutional voids
      4.2.1 The necessity to categorize the intensity of institutional voids
      4.2.2 Intensity of institutional voids
      4.2.3 Summarizing the intensity of institutional voids
   4.3 Comparative analysis of cluster services
      4.3.1 Overview of cluster services
      4.3.2 Cluster services to bridge institutional voids
      4.3.3 Proposed cluster services and their effectiveness to bridge institutional voids
5. Contribution, implications and limitations
   5.1 Contributions to the development of a theory of institutional voids
      5.1.1 A systematization of institutional voids and clusters as surrogate intermediaries
      5.1.2 Summarizing an advanced systematization of institutional voids
   5.2 Implications and limitations
      5.2.1 Implications for further research
Outline XI

5.2.2 Implications for practitioners 209
5.2.3 Limitations 211
5.3 Summary of the findings 213
  5.3.1 Summary 213
  5.3.2 Findings 214

Appendix A: Additional tables and figures to the case studies 217
  Albanian ICT cluster 217
  Serbian ICT cluster 219
  Macedonian ICT cluster 221
  Croatian ICT cluster 223
  Bulgarian ICT cluster 225

Appendix B: Interview guideline 227
