Contents

Demonstration of ECOnomical BRIDGE solutions based on innovative composite dowels and integrated abutments .................................................. 11
Dipl.Ing. Nicoleta Popa

The right choice of steel – according to the Eurocode .................................................... 21
Oliver Hechler, Georges Axmann & Boris Donnay

Sustainable bridges – LCA for a composite and a concrete bridge ....................... 45
AL. Hettinger, JP. Birat1, O. Hechler & M. Braun

Design of composite dowels as shear connectors according to the German technical approval .......................................................... 57
Markus Feldmann, Daniel Pak, Maik Kopp, Nicole Schillo, Josef Hegger & Joerg Gallwozus

Field measurements at a composite bridge with composite dowels as shear connectors .................................................................................. 73
Markus Feldmann, Daniel Pak, Maik Kopp & Nicole Schillo

Modern composite bridges by VFT-WIB method in Poland realized at new express road S7 at Olszynke-Nidzica sector ........................................ 93
Wojciech Lorenc & Tomasz Kolakowski

Bridges by VFT method in Poland: state-of-the-art ..................................................... 111
Tomasz Kolakowski & Wojciech Lorenc

Renewal of old existing small road bridges with modular system – CASE STUDY Mănărașu BRIDGE .......................................................... 133
Edward Petzek, Luiza Toma, Elena Meteş & Radu Bâncilă
Integral bridge using the VFT-WIB technology for a three-spanned structure .................................................................................................................................................. 143
Edward Petzek, Elena Meteş, Luiza Toma & Radu Băncilă

Innovative composite overpasses on the Romanian A1 motorway ............................................. 155
Edward Petzek, Luiza Toma, Elena Meteş & Radu Băncilă
Economical Bridge Solutions based on innovative composite dowels and integrated abutments
Ecobridge
Petzek, E.; Băncilă, R. (Eds.)
2015, X, 169 p. 120 illus., Hardcover
