Foreword ................................................................. V
   Henry Sanoff

Preface ................................................................. IX
   Rotraut Walden

1 Introduction ......................................................... 1
   Rotraut Walden
   1.1 Overview ................................................................. 1
   1.2 Questions ............................................................... 12
   1.3 Significance of the Topic ............................................. 14
   1.4 Schools Claiming to Be “Schools of the Future” ........... 18
   1.5 The Architect’s Leadership Role ................................. 19

2.1 History of the Schoolhouse in the USA .................. 23
   Jeffery A. Lackney
   2.1.1 Introduction ....................................................... 23
   2.1.2 Educational Architecture in the Colonial Period .......... 24
   2.1.3 Educational Architecture of the Industrial Revolution .... 26
   2.1.4 Educational Architecture in the Information Age .......... 29

2.2 Historical Background of the Japanese School .......... 41
   Kaname Yanagisawa (Japan)
   2.2.1 A Brief History of Japanese School Planning ................. 41
2.3 The Historical Development of School Buildings in Germany .......... 51
  Simone Schalz
  2.3.1 Emerging Organized Schooling in Germany ................................... 51
  2.3.2 School Buildings in Cities and Villages ........................................... 54
  2.3.3 Reform Pedagogy (1890–1932) ......................................................... 57
  2.3.4 The “Reform Wave” (1918–1933) ..................................................... 62
  2.3.5 The National Socialist Takeover ....................................................... 64
  2.3.6 The Postwar Period ......................................................................... 65
  2.3.7 School Construction Today .............................................................. 68
  2.3.8 Perspectives for the Future ............................................................... 82
  2.3.9 Summary ......................................................................................... 83

3 The School of the Future: Conditions and Processes –
Contributions of Architectural Psychology ............................................ 89
  Rotraut Walden
  3.1 Requirements and Wish List ................................................................. 89
  3.2 Color Scheme .................................................................................... 94
  3.3 Form Design .................................................................................... 97
  3.4 Lighting in Schools ........................................................................... 98
  3.5 Heating, Cooling, and Ventilation ..................................................... 101
  3.6 Acoustics and Noise ........................................................................ 102
  3.7 Furniture and Equipment ................................................................. 106
  3.8 Density and Crowding ..................................................................... 108
  3.9 Participation and User Design ........................................................... 113
  3.10 Ecological Aspects ........................................................................ 123
  3.11 Organizational Aspects .................................................................. 130
  3.12 After-Hours Use of Schools ............................................................. 133
  3.13 Conclusion ..................................................................................... 135

4 Schools Designed with Community Participation ............................... 149
  Henry Sanoff
  4.1 Benefits of Community Participation ................................................. 149
  4.2 Davidson Elementary School as the Center of a Community .......... 151
  4.3 A Community School Designed for Accessibility ........................... 164
  4.4 Summary ......................................................................................... 168
