# Contents

<b>1</b>	<b>Topological Preliminaries</b> . . . . .	1
1.1	Countability Properties for Topological Spaces . . . . .	1
1.2	Paracompact Spaces . . . . .	4
1.3	Normal Spaces . . . . .	7
1.4	Separated Maps . . . . .	12
1.5	Proper Maps . . . . .	14
1.6	Problems . . . . .	17
<b>2</b>	<b>Algebraic Topological Preliminaries</b> . . . . .	21
2.1	Homotopy . . . . .	21
2.2	Paths . . . . .	23
2.3	Path Connected Spaces . . . . .	24
2.4	Fundamental Group . . . . .	25
2.5	Covering Spaces . . . . .	29
2.6	Fundamental Groups and Coverings of Topological Groups . . . . .	34
2.7	Problems . . . . .	36
<b>3</b>	<b>Sheaves</b> . . . . .	41
3.1	Presheaves and Sheaves . . . . .	41
3.2	Stalks . . . . .	46
3.3	Sheaves Attached to Presheaves . . . . .	51
3.4	Sheaves and Étale Spaces . . . . .	53
3.5	Direct and Inverse Images of Sheaves . . . . .	57
3.6	Limits and Colimits of Sheaves . . . . .	63
3.7	Problems . . . . .	64
<b>4</b>	<b>Manifolds</b> . . . . .	69
4.1	Ringed Spaces . . . . .	69
4.2	Premanifolds and Manifolds . . . . .	75
4.3	Examples of Manifolds . . . . .	82
4.4	Topological Properties of (Pre)Manifolds . . . . .	84

4.5	Basic Constructions and Further Examples of Manifolds	85
4.6	Problems	87
<b>5</b>	<b>Linearization of Manifolds</b>	91
5.1	Tangent Spaces	91
5.2	Local Properties of Morphisms, Local Isomorphisms, Immersions, Submersions	99
5.3	Morphisms of Locally Constant Rank	101
5.4	Submanifolds	104
5.5	Fiber Products of Manifolds	112
5.6	Quotients of Manifolds	114
5.7	Problems	118
<b>6</b>	<b>Lie Groups</b>	123
6.1	Definition and Examples of Lie Groups	123
6.2	Lie Group Actions	126
6.3	Quotients by Lie Group Actions	128
6.4	Problems	134
<b>7</b>	<b>Torsors and Non-abelian Čech Cohomology</b>	139
7.1	Torsors	139
7.2	Non-abelian Čech Cohomology	142
7.3	First Term Sequence of Cohomology	147
7.4	Problems	149
<b>8</b>	<b>Bundles</b>	153
8.1	Twists, Fiber Bundles, and Principal Bundles	154
8.2	Vector Bundles	165
8.3	$\mathcal{O}_X$ -Modules	167
8.4	Vector Bundles and Finite Locally Free Modules	173
8.5	Tangent Bundle	177
8.6	Differential Forms and De Rham Complex	180
8.7	Problems	185
<b>9</b>	<b>Soft Sheaves</b>	193
9.1	Definition and Examples of Soft Sheaves	193
9.2	Softness of Sheaves of Differentiable Functions	198
9.3	Triviality of $H^1$ for Soft Sheaves and Applications	200
9.4	Problems	202
<b>10</b>	<b>Cohomology of Complexes of Sheaves</b>	205
10.1	Strategy for the Definition of Cohomology of Sheaves	206
10.2	Definition of Cohomology	209

10.3	Acyclic Sheaves	215
10.4	Applications: Theorems of De Rham and of Mittag-Leffler	219
10.5	Cohomology and Inverse and Direct Image	222
10.6	Proper Base Change	224
10.7	Problems	228
<b>11</b>	<b>Cohomology of Constant Sheaves</b>	<b>233</b>
11.1	Singular Cohomology	233
11.2	Cohomology and Singular Cohomology	238
11.3	Homotopy Invariance of Cohomology	240
11.4	Applications	241
11.5	Problems	242
<b>12</b>	<b>Appendix A: Basic Topology</b>	<b>245</b>
12.1	Topological Spaces	245
12.2	Continuous, Open, and Closed Maps	247
12.3	Closure and Interior	249
12.4	Construction of Topological Spaces	250
12.5	Local Properties	254
12.6	Hausdorff Spaces	256
12.7	Connected Spaces and Locally Constant Maps	257
12.8	Compact Spaces	260
12.9	Topological Groups	262
12.10	Problems	264
<b>13</b>	<b>Appendix B: The Language of Categories</b>	<b>271</b>
13.1	Categories	271
13.2	Functors	274
13.3	Digression: Ordered Sets, Transfinite Induction, and Zorn's Lemma	276
13.4	Limits and Colimits	280
13.5	Problems	286
<b>14</b>	<b>Appendix C: Basic Algebra</b>	<b>291</b>
14.1	The Category of Modules over a Ring	291
14.2	Multilinear Algebra and Tensor Products	297
14.3	Tensor Algebra, Exterior Algebra, Symmetric Algebra	303
14.4	Modules over Commutative Rings	308
14.5	Problems	311
<b>15</b>	<b>Appendix D: Homological Algebra</b>	<b>317</b>
15.1	Homotopy Category of Modules	317
15.2	Diagram Chases	321
15.3	Injective Modules and K-injective Complexes	323

---

15.4	Abelian Categories . . . . .	325
15.5	Problems . . . . .	328
<b>16</b>	<b>Appendix E: Local Analysis . . . . .</b>	<b>331</b>
16.1	Differentiable Functions . . . . .	331
16.2	Analytic Functions . . . . .	334
16.3	Higher Derivatives . . . . .	337
16.4	Problems . . . . .	340
	<b>References . . . . .</b>	<b>341</b>
	<b>Index . . . . .</b>	<b>343</b>
