Contents – Part II

Haptic Illusion and Rehabilitation

Experimental Validation of a Rapid, Adaptive Robotic Assessment of the MCP Joint Angle Difference Threshold ............................................. 3
  Mike D. Rinderknecht, Werner L. Popp, Olivier Lambercy, and Roger Gassert

Friction Sensation Produced by Laterally Asymmetric Vibrotactile Stimulus ... 11
  Akihiro Imaizumi, Shogo Okamoto, and Yoji Yamada

Enhancing the Simulation of Boundaries by Coupling Tactile and Kinesthetic Feedback ................................................................. 19
  Yi Yang, Yuru Zhang, Betty Lemaire-Semail, and Xiaowei Dai

Find the Missing Element! Haptic Identification of Incomplete Pictures by Sighted and Visually Impaired Children ........................................... 27
  Anaïs Mazella, Jean-Michel Albaret, and Delphine Picard

The Haptic Analog of the Visual Aubert-Fleischl Phenomenon ............... 34
  Alessando Moscatelli, Meike Scheller, Gabriele Joanna Kowalski, and Marc O. Ernst

Making Gestural Interaction Accessible to Visually Impaired People .......... 41
  Anke Brock, Philippe Truillet, Bernard Oriola, and Christophe Jouffrais

Collaborative Pseudo-Haptics: Two-User Stiffness Discrimination Based on Visual Feedback ................................................................. 49
  Ferran Argelaguet, Takuya Sato, Thierry Duval, Yoshifumi Kitamura, and Anatole Lécuyer

Centralizing Bias and the Vibrotactile Funneling Illusion on the Forehead ... 55
  Hamideh Kerdegari, Yeongmi Kim, Tom Stafford, and Tony J. Prescott

Haptic Rendering for Under-Actuated 6/3-DOF Haptic Devices ................ 63
  Petr Kadlec̆ek, Petr Kmoch, and Jaroslav Křivánek

A Change in the Fingertip Contact Area Induces an Illusory Displacement of the Finger ................................................................. 72
  Alessandro Moscatelli, Matteo Bianchi, Alessandro Serio, Omar Al Atassi, Simone Fani, Alexander Terekhov, Vincent Hayward, Marc O. Ernst, and Antonio Bicchi

Author Index ............................................ 491
Contents – Part I

Fundamentals of Haptic Perception

Semantically Layered Structure of Tactile Textures . . . . . . . . . . . . . . . . . . . 3
  Hikaru Nagano, Shogo Okamoto, and Yoji Yamada

Roughness Modulation of Real Materials Using Electrotactile Augmentation . . 10
  Shunsuke Yoshimoto, Yoshihiro Kuroda, Yuki Uranishi, Masataka Imura,
  and Osamu Oshiro

Proprioceptive Biases in Different Experimental Designs . . . . . . . . . . . . . . . 18
  Irene A. Kuling, Marieke C.W. van der Graaff, Eli Brenner,
  and Jeroen B.J. Smeets

Delayed Haptic Feedback to Gaze Gestures . . . . . . . . . . . . . . . . . . . . . . . . 25
  Jari Kangas, Jussi Rantala, Deepak Akkil, Poika Isokoski,
  Päivi Majaranta, and Roope Raisamo

A System for Evaluating Tactile Feelings Expressed by Sound
Symbolic Words . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 32
  Ryuichi Doizaki, Junji Watanabe, and Maki Sakamoto

Does Just Noticeable Difference Depend on the Rate of Change
of Kinesthetic Force Stimulus? . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 40
  Amit Bhardwaj and Subhasis Chaudhuri

Subject-Specific Distortions in Haptic Perception of Force Direction . . . . 48
  Femke E. van Beek, Wouter M. Bergmann Tiest, Frank L. Gabrielse,
  Bart W.J. Lagerberg, Thomas K. Verhoogt, Bart G.A. Wolfs,
  and Astrid M.L. Kappers

Perceptual Evaluation of the Passive/Active Torque and Stiffness Asymmetry
of a Hybrid Haptic Device . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 55
  Carlos Rossa, Margarita Anastassova, Alain Micaelli, and José Lozada

Vibrotactile Frequency Discrimination Performance with Cross-Channel
Distractors . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 61
  Scinob Kuroki, Junji Watanabe, and Shin’ya Nishida

Weights in Visuo-Haptic Softness Perception are not Sticky . . . . . . . . . . . . 68
  Knut Drewing and Onno Kruse
