

Contents

1	Embedding Coalition Logic in the Minimal Normal Multimodal Logic with Intersection	1
	Thomas Ågotnes and Natasha Alechina	
2	Some Syntactic Interpretations in Different Systems of Full Lambek Calculus	23
	Wojciech Buszkowski	
3	Conditional Probability Logic over Conditional Probability Spaces	49
	Mauricio S.C. Hernandez	
4	Finite-Chain Graded Modal Logic	71
	Minghui Ma and Shanxia Wang	
5	Knowledge and Local Actions	87
	R. Ramanujam	
6	Avoiding Impossibility Theorems in Radical Inquisitive Semantics	107
	Katsuhiko Sano	
7	Epistemic Informativeness	121
	Yanjing Wang and Jie Fan	
8	Formalizing the IMA Language: Toward the Minimalist Program for Compositional Semantics	131
	Xuefeng Wen	
9	Similarity of States in Modal Logic	145
	Fei Zha	

10 An Explanation for the Ternary Relation R in the Relational Semantics of Relevance Logic 167
Beihai Zhou and Qing Jia

11 The Minimal System of Justification Logic with Names 179
Rui Zhu and Xinwen Liu
