Contents

Managing an International River Basin Towards Water Quality Protection: The Danube Case ................................................................. 1
Igor Liska

Part I Chemical Pollution

Nutrient Management in the Danube River Basin ............................. 23
Mihaela Popovici

Pollution by Nutrients in the Danube Basin ....................................... 39
Carmen Hamchevici and Ion Udrea

The Danube Water Quality Model and Its Application in the Danube River Basin ................................................................. 61
Jos van Gils

Pollution by Heavy Metals in the Danube River Basin ..................... 85
Ferenc László

Identification of the Danube River Basin Specific Pollutants and Their Retrospective Risk Assessment ................................. 95
Jaroslav Slobodnik and Peter Carsten von der Ohe

EU WFD Organic Priority Substances in Water, Suspended Particulate Matter, Sediments, and Biota in the Danube ...................... 111
Alfred Rauchbühl

Semivolatile Organic Compounds in Water, Suspended Particulate Matter, Sediments and Biota in the Danube .......................... 133
Gunther Umlauf, Eugen H. Christoph, Tania Huber, Giulio Mariani, Anne Müller, Helle Skejo, and Jan Wollgast
Alkylphenolic Compounds in the Danube River ......................... 197
Vesna Micić and Thilo Hofmann

PAH and Petroleum Hydrocarbon Contamination in Water,
Suspected Particulate Matter, Sediments, and Biota in the Danube...... 217
Peter Literathy

Pollution of Groundwater in the Danube River Basin by Hazardous
Substances .............................................................................. 235
Andreas Scheidleder

Hazardous and Emerging Substances in Drinking Water Resources
in the Danube River Basin ......................................................... 251
Florian R. Storck, Frank Sacher, and Heinz-Jürgen Brauch

Radioactivity in the Danube ..................................................... 271
Franz Josef Maringer, Claudia Seidel, Andreas Baumgartner,
and Michael Stietka

Part II  Biology and Hydromorphology

Short Overview on the Benthic Macroinvertebrate Fauna
of the Danube River ............................................................... 287
Wolfram Graf, Patrick Leitner, and Florian Pletterbauer

Phytogetheros of the River Danube ............................................. 317
Jarmila Makovinska and Dasa Hlubikova

Macrophytes in the Danube River ............................................. 341
Georg A. Janauer, Brigitte Schmidt, and Udo Schmidt-Mumm

Current Status of Fish Communities in the Danube .................... 359
Vladimír Kováč

Invasive Alien Species in the Danube ........................................ 389
Momir Paunović, Béla Csányi, Predrag Simonović, and Katarina Zorić

Phytoplankton of the River Danube: Composition, Seasonality
and Long-Term Dynamics ......................................................... 411
Martin T. Dokulil

Gaps and Uncertainties in the Ecological Status Assessment in
the Danube River Basin District ............................................... 429
Franz Wagner
Microbiological Water Quality of the Danube River: Status Quo and Future Perspectives ................................. 439
Alexander K.T. Kirschner, Gerhard Kavka, Georg H. Reischer, Regina Sommer, A. Paul Blaschke, Margaret Stevenson, Julia Vierheilig, Robert L. Mach, and Andreas H. Farnleitner

Hydromorphology of the Danube ........................................ 469
Ulrich Schwarz

Danube River Sediment Transport and Morphodynamics .......... 481
Helmut Habersack, Elisabeth Jäger, and Christoph Hauer

Hydrological and Biogeochemical Characterization of the Danube River System Using Isotopes ................................. 503

Index .................................................................................... 519
The Danube River Basin
Liska, I. (Ed.)
2015, XV, 523 p. 185 illus., 125 illus. in color., Hardcover
