# Contents

<b>1</b>	<b>Berlin 1871–1897</b> . . . . .	1
1.1	Family and Youth . . . . .	1
1.2	School and University Studies . . . . .	5
1.3	Ph. D. Thesis and the Calculus of Variations . . . . .	10
1.4	The Boltzmann Controversy . . . . .	16
1.4.1	The Situation . . . . .	17
1.4.2	The First Round . . . . .	18
1.4.3	The Second Round . . . . .	22
1.4.4	After the Debate . . . . .	24
<b>2</b>	<b>Göttingen 1897–1910</b> . . . . .	29
2.1	Introduction . . . . .	29
2.2	Working in Applied Mathematics . . . . .	30
2.2.1	<i>Habilitation</i> . . . . .	31
2.2.2	Applied Mathematics After the <i>Habilitation</i> . . . . .	34
2.3	First Years as a <i>Privatdozent</i> in Göttingen . . . . .	36
2.3.1	<i>Privatdozenten</i> Grant and Titular Professorship . . . . .	36
2.3.2	Under Consideration in Breslau 1903 . . . . .	37
2.4	The Context: Hilbert’s Research on Foundations . . . . .	38
2.4.1	Mathematical Problems and Foundations . . . . .	39
2.4.2	Foundations of Geometry and Analysis . . . . .	42
2.4.3	The Paradoxes . . . . .	44
2.5	Starting Set Theory . . . . .	50
2.5.1	Zermelo’s First Period of Foundational Research . . . . .	50
2.5.2	Early Work . . . . .	51
2.5.3	The Heidelberg Congress 1904 . . . . .	53
2.6	Zermelo’s First Well-Ordering Proof . . . . .	56
2.6.1	The Proof and its Motivation . . . . .	56
2.6.2	Reactions . . . . .	63
2.7	Finite Sets . . . . .	65

2.8	The New Proof Paper . . . . .	69
2.8.1	Zermelo's Defence . . . . .	69
2.8.2	The New Proof . . . . .	72
2.8.3	Toward Acceptance of the Axiom of Choice . . . . .	74
2.8.4	Postscriptum: Zermelo and Bernstein . . . . .	75
2.9	The Axiomatization of Set Theory . . . . .	80
2.9.1	Motivations . . . . .	80
2.9.2	The Axiom System . . . . .	82
2.9.3	Dedekind's Influence . . . . .	88
2.9.4	The Axiom of Separation . . . . .	90
2.9.5	The Range of the Axioms . . . . .	93
2.9.6	Reception of the Axiom System . . . . .	96
2.10	The Institutionalization of Mathematical Logic . . . . .	98
2.10.1	Zermelo's Lectureship for Mathematical Logic . . . . .	98
2.10.2	The 1908 Course "Mathematische Logik" . . . . .	102
2.10.3	Hilbert and Zermelo . . . . .	108
2.11	Waiting for a Professorship . . . . .	110
2.11.1	Deterioration of Health . . . . .	110
2.11.2	Würzburg 1906 . . . . .	112
2.11.3	Würzburg 1909 . . . . .	113
2.11.4	An Extraordinary Professorship . . . . .	117
<b>3</b>	<b>Zurich 1910–1921</b> . . . . .	<b>119</b>
3.1	A Full Professorship . . . . .	119
3.1.1	Legends . . . . .	119
3.1.2	The Chair in Zurich . . . . .	120
3.1.3	Under Consideration at the Technical University of Breslau . . . . .	123
3.1.4	Zermelo's Medical History . . . . .	125
3.1.5	The End of Zermelo's Career . . . . .	127
3.2	Colleagues and a Friend . . . . .	132
3.3	Teaching in Zurich . . . . .	135
3.4	Scientific Work in Zurich . . . . .	136
3.4.1	Game Theory . . . . .	136
3.4.2	Algebra and Set Theory . . . . .	139
3.4.3	Ordinal Numbers . . . . .	140
3.5	The Fraenkel Correspondence of 1921 and the Axiom of Replacement . . . . .	142
<b>4</b>	<b>Freiburg 1921–1953</b> . . . . .	<b>147</b>
4.1	A New Start . . . . .	147
4.2	Research in Applied Mathematics . . . . .	157
4.2.1	The Calculation of Tournament Results . . . . .	157
4.2.2	The Zermelo Navigation Problem . . . . .	159
4.2.3	On Splitting Lines of Ovals . . . . .	161

4.3	The Return to the Foundations of Mathematics	162
4.3.1	The Return	162
4.3.2	The Logic Project	164
4.3.3	Cantor’s Collected Papers and Zermelo’s Relationship to Abraham Fraenkel	167
4.3.4	The <i>Notgemeinschaft</i> Project	173
4.4	Warsaw 1929	174
4.4.1	The Prehistory	174
4.4.2	The Warsaw Programme	176
4.4.3	The Nature of Mathematics	179
4.4.4	Intuitionism <i>versus</i> Mathematics of the Infinite	180
4.4.5	The Justification Problem	181
4.5	Foundational Controversies: An Introduction	185
4.6	Definiteness Revisited	189
4.6.1	Definiteness Until 1930	190
4.6.2	Incorporating Definiteness Into the Notion of Set	194
4.7	The Cumulative Hierarchy	197
4.7.1	Genesis	198
4.7.2	The Zermelo-Fraenkel Axiom System	199
4.7.3	Cumulative Hierarchies, Large Cardinals, and the Paradoxes	200
4.7.4	Continuation	204
4.7.5	The Reception of the <i>Grenzzahlen</i> Paper	205
4.8	The Skolem Controversy	207
4.8.1	The Löwenheim-Skolem Theorem	208
4.8.2	Skolem’s Paradox	209
4.8.3	A “War” Against Skolem	211
4.9	Infinitary Languages and Infinitary Logic	215
4.9.1	The Infinity Theses	215
4.9.2	Infinitary Languages	217
4.9.3	Infinitary Logic	219
4.9.4	Infinitary Languages and the Cumulative Hierarchy	220
4.9.5	The Failure	221
4.10	The Gödel Controversy	223
4.10.1	The Bad Elster Conference	224
4.10.2	The Gödel Correspondence	227
4.10.3	After the Controversy	229
4.11	The Loss of the Honorary Professorship	231
4.11.1	The University of Freiburg and Its Mathematical Institute After the Seizure of Power	231
4.11.2	The Zermelo Case	236
4.11.3	After the Renunciation	243
4.12	Retreat	250
4.12.1	Günterstal	250
4.12.2	Last Scientific Activities	256

4.12.3 The Time of Resignation .....	260
4.13 Twilight of Life .....	262
<b>5 A Final Word</b> .....	<b>273</b>
<b>6 Zermelo's <i>Curriculum Vitae</i></b> .....	<b>277</b>
<b>7 Appendix</b>	
<b>Selected Original Versions</b> .....	<b>287</b>
7.1 Berlin .....	287
7.2 Göttingen .....	288
7.3 Zurich .....	297
7.4 Freiburg .....	302
<b>References</b> .....	<b>327</b>
<b>Index</b> .....	<b>367</b>

Ernst Zermelo

An Approach to His Life and Work

Ebbinghaus, H.-D.; Peckhaus, V.

2015, XVI, 384 p. 43 illus., Hardcover

ISBN: 978-3-662-47996-4
