

Contents

1 Complexity and Emergence	1
1.1 The Issue Considered	3
1.2 A Basic Viewpoint	4
1.2.1 The Main Claim	5
1.2.2 Hierarchies	6
1.2.3 Emergence	7
1.3 Key Points of the Argument	8
1.3.1 Multiple Types of Causation	9
1.3.2 Hierarchy and Causation	10
1.3.3 Types of Top-Down Causation	11
1.3.4 The Nature of Variables	12
1.3.5 The Causal Efficacy of Non-physical Entities	13
1.3.6 Room at the Bottom	14
1.3.7 Supervenience	15
1.4 Is It Real? Testing the Proposal	16
1.4.1 Causal Effects	16
1.4.2 Experimental Tests	17
1.4.3 Kinds of Data	19
1.4.4 There Is No Other Option	20
1.5 Significant Implications	20
1.5.1 Health Care	20
1.5.2 Mental Health	21
1.5.3 Education: Learning to Read	21
1.6 An Outline of the Book	22
1.6.1 The Contents	22
1.6.2 What Is New	24
1.6.3 What Is Controversial	24
1.7 The Necessity of the Conclusion	27
1.7.1 The Conclusion	28
1.7.2 The Necessity of the Conclusion	28
References	30
