Contents

Preface ................................................................... vii

Lectures Held at the 6th Workshop on
Operator Theory in Krein Spaces ............................... ix

A. Dijksma

After Dinner Speech on the Inventor of the Equality Sign .... 1

H. Langer

Speech on the Occasion of the Retirement of Peter Jonas .... 5

D. Alpay, A. Dijksma and H. Langer

Augmented Schur Parameters for Generalized Nevanlinna
Functions and Approximation ....................................... 9

T.Ya. Azizov, J. Behrndt, F. Philipp and C. Trunk

On Domains of Powers of Linear Operators and Finite
Rank Perturbations ...................................................... 39

A. Baranov and H. Woracek

Finite-dimensional de Branges Subspaces Generated
by Majorants .............................................................. 45

J. Behrndt, M.M. Malamud and H. Neidhardt

Trace Formulae for Dissipative and Coupled
Scattering Systems ....................................................... 57

A. Dijksma, A. Luger and Y. Shondin

Approximation of $N_k^\infty$-functions I: Models and
Regularization .............................................................. 95

K.-H. Förster and N. Hartanto

On the Block Numerical Range of Nonnegative Matrices .... 121

V. Geyler, P. Šťovíček and M. Tušek

A Quantum Dot with Impurity in the Lobachevsky Plane .... 143
Contents

S. Hassi, A. Sandovici H.S.V. de Snoo and H. Winkler
One-dimensional Perturbations, Asymptotic Expansions, and Spectral Gaps .............................................. 157

I.M. Karabash
Abstract Kinetic Equations with Positive Collision Operators ........ 183

V.A. Khatskevich and V.A. Senderov
On the Structure of Semigroups of Operators Acting in Spaces with Indefinite Metric ........................................ 205

F. Philipp and C. Trunk
G-Self-adjoint Operators in Almost Pontryagin Spaces ............... 215

A. Sandovici
On a Krein Criterion .................................................. 245

F.H. Szafraniec
Two-sided Weighted Shifts Are ‘almost Krein’ Normal ............... 253
Spectral Theory in Inner Product Spaces and Applications
6th Workshop on Operator Theory in Krein Spaces and Operator Polynomials, Berlin, December 2006
Behrndt, J.; Förster, K.-H.; Langer, H.; Trunk, C. (Eds.)
2009, XX, 250 p., Hardcover
ISBN: 978-3-7643-8910-9
A product of Birkhäuser Basel
