Contents

Preface  The Editors  v

I THEORY

Measuring the Balance Space Sensitivity in Vector Optimization  A. Balbás and P.J. Guerra  3

On a Certain Approach to Fuzzy Goal Programming  S. Chanas and D. Kuchta  15

A Multiobjective Linear Programming Algorithm Based on the Dempster-Shafer Composition Rule  S. Csikai and M. Kovács  31

Data Envelopment Analysis by Multiobjective Linear Programming Methods  P. Fiala  39

A Fuzzy Borda Count in Multi-person Decision Making  J.L. García-Lapresta and M. Martínez-Panero  46

Multiple Criteria Choice Models for Quantitative and Qualitative Data  E. Hinloopen, P. Nijkamp and P. Rietveld  61

On the Computational Effectiveness of Multiple Objective Metaheuristics  A. Jaszkiewicz  86

On Considering Flexible Constraints of Different Importance in Goal Programming Problems  M. Jiménez, M.V. Rodríguez Uria, M. Arenas Parra and A. Bilbao Terol  101

Trade-offs – A Lost Dimension in Multiple Criteria Decision Making  I. Kaliszewski  115

Multiple Objective Path Optimization for Time Dependent Objective Functions  M.M. Kostreva and L. Lancaster  127
Multicriteria Decision Support in Bargaining, a Problem of Players' Manipulations  
L. Kruš  

Some Concepts of Solution for a Game under Uncertainty  
M. Larbani and F. Kacher  

Towards the Development of an Integrated Multi-objective Solution and Analysis System  
S.K. Mirrazavi, D.F. Jones and M. Tamiz  

Dynamic Discrete Programming with Partially Ordered Criteria Set  
T. Trzaska ki a l k a n d S. Sitarz  

Dual Approach to Generalized Data Envelopment Analysis Based on Production Possibility  
Y. Yun, H. Nakayama and T. Tanino  

I I APPLICATIONS  

Using Interactive Multiple Objective Methods to Determine the Budget Assignment to the Hospitals of a Sanitary System  

Fuzzy Multi-objective Approach to the Supply Chain Model  
Y.W. Chen and G.H. Tzeng  

Goal Programming Model for Airport Ground Support Equipment Parking  
S.C.K. Chu  

Multicriteria Decision Aid in Inventory Management  
C. Dominiak  

Solution Concepts in Multiple Criteria Linear Production Games  
F.R. Fernández, M.A. Hinojosa, A. Marmol and J. Puerto  

Identifying Important Attributes for the Siberian Forests Management Using Rough Sets Analysis  
M. Flinkman, W. Michalowski, S. Nilsson, R. Slowinski, R. Susmaga and S. Wilk
On Optimization Model Formulation Using Neural Networks
P. Gąsiorowski 282

The Design of the Physical Distribution System with the Application of the Multiple Objective Mathematical Programming. Case Study
M. Hapke, A. Jaszkiewicz and J. Żak 297

Integer Goal Programming Applications Using Modelling Systems and Excel
J. Jablonský 310

On Shaping Multi Criteria Marketing Strategy of a Pension Fund
A. Jędryka and T. Szapiro 320

Multiple Criteria Company Benchmarking using the BIPOLAR Method
E. Konarzewska-Gubała 338

Multiobjective Analysis of a Financial Plan in a Bank
J. Michnik 351

Inverse Stochastic Dominance and its Applications in Production Process Control
M. Nowak, T. Trzaskalik, G. Trzpiot and K. Zaras 362

Multi Criteria Multilevel Transshipment Problem and its Software Support
T. Šubrt and L. Domeová 377

On Ranking of Economic Educational Institutions in Poland
T. Szapiro and M. Knauff 386

Multicriterion Analysis Based on Marginal Conditional Stochastic Dominance in Financial Analysis
G. Trzpiot 400

Multicriteria Analysis Based on Stochastic and Probabilistic Dominance in Measuring Quality of Life
M. Zawisza and G. Trzpiot 412

Company Financial Multiple Attributive Evaluation under Vagueness Conditions
Z. Zmeškal 424
Multiple Objective and Goal Programming
Recent Developments
Trzaskalik, T.; Michnik, J. (Eds.)
2002, IX, 432 p., Softcover
ISBN: 978-3-7908-1409-5
A product of Physica-Verlag Heidelberg
