Contents

Foreword
   B. Braunschweig  VII

Preface
   P.M. Wong, F. Aminzadeh and M. Nikravesh  XI

Intelligent Reservoir Characterization
   P.M. Wong, F. Aminzadeh and M. Nikravesh

Part 1. Seismic Characterization

Prediction of Reservoir Properties by Monte Carlo Simulation and Artificial Neural Network in the Exploration Stage
   K. Nakayama and J. Hou  15

Application of Neural Networks in Determining Petrophysical Properties from Seismic Survey
   B. Widarsono, S. Munadi and F. Saptono  35

Mapping the Gas Column in an Aquifer Gas Storage with Neural Network Techniques
   H. Trappe, C. Hellmich, J. Knudsen and H. Baartman  57

Interval and Fuzzy Kriging Techniques Applied to Geological and Geophysical Variables
   A. Consonni, R. Iantosca and P. Ruffo  73

Application of Self-Organizing Feature Maps to Reservoir Characterization
   C.A. Link and J. Conaway  105

Part 2. Well Logging

Taking One Step Forward in Reservoir Characterization Using Artificial Neural Networks
   S. Mohaghegh  129

Inverting SP Logs Using Artificial Neural Networks and the Application in Reservoir Characterization
   R. Ramberger and J. Skolnakorn  161
Predicting Petrophysical Parameters in a Fuzzy Environment
   J. Finol and X.D. Jing  183

The Application of Fuzzy Logic and Genetic Algorithms to Reservoir
Characterization and Modeling
   S.J. Cuddy and P.W.J. Glover  219

The Use of Soft Computing Techniques as Data Preprocessing and
Postprocessing in Permeability Determination from Well Log Data
   K.W. Wong, T.D. Gedeon and C.C. Fung  243

A New Technique to Estimate the Hydrocarbon Saturation in Shaly
Formations: A Field Example in the Bahariya Formation, Egypt
   A.M. Dawood, A.A. Ibrahim and S. A. El-Tayeb  273

Part 3. Numerical Geology

Automated Reconstruction of a Basin Thermal History with Integrated
Paleothermometry and Genetic Algorithm
   C.-S. Kim  313

An Automatic Geophysical Inversion Procedure Using a Genetic Algorithm
   F. Mansanné and M. Schoenauer  331

Statistical Pattern Recognition and Geostatistical Data Integration
   J. Caers and S. Srinivasan  355

How to Improve Reservoir Characterization Models Using Intelligent
Systems
   R. Soto B., F. Torres, A. Arango, G. Cobaleda, S. Holditch and C. Wu  387

Regional Upscaling: A New Method to Upscale Heterogeneous Reservoirs
for a Range of Force Regimes
   C. Coll, A. Muggeridge and X.D. Jing  419

Part 4. Advanced Algorithms

New Uncertainty Measures for Predicted Geological Properties from
Seismic Attribute Calibration
   C.-S. Kim  465

Rule Induction Algorithm for Application to Geological and Petrophysical
Data
   C.V. Deutsch, Y.L. Xie and A.S. Cullick  481
Joint Lithologic Inversion
L.-Y. Fu

Support Vector Machines for Classification and Mapping of Reservoir Data
M. Kanevski, A. Pozdnukhov, S. Canu, M. Maignan, P.M. Wong and S.A.R. Shibli

Non-parametric Covariance Modeling Using Fast Fourier Transform
T.-T. Yao

About the Editors
Soft Computing for Reservoir Characterization and Modeling
Wong, P.; Aminzadeh, F.; Nikravesh, M. (Eds.)
2002, XV, 586 p., Hardcover
ISBN: 978-3-7908-1421-7
A product of Physica-Verlag Heidelberg
