## Part I Medical Robotics and Instrumentation

<b>1</b>	<b>Brain Activity Analysis for the Configurational Determination of Surgical Manipulation and Endoscope . . . . .</b>	<b>3</b>
	Satoshi Miura, Yo Kobayashi, Kazuya Kawamura, Masatoshi Seki, Yasutaka Nakashima, Takehiko Noguchi, Yuki Yokoo, and Masakatsu G. Fujie	
<b>2</b>	<b>3D Tracking of Respiratory Liver Movement by a Robot Assisted Medical Ultrasound . . . . .</b>	<b>17</b>
	Ryu Nakadate, Ammar Safwan, Hiroyuki Ishii, Akiko Saito, Atsuo Takanishi, and Makoto Hashizume	
<b>3</b>	<b>Development of a Robot Assisted Intubation System and Parameter Optimization . . . . .</b>	<b>27</b>
	Chuntao Leng, Qixin Cao, Guodong Sheng, Yang Cao, and Tiewen Pan	
<b>4</b>	<b>Development of a Dexterous Manipulator for Single Port Access Surgery . . . . .</b>	<b>37</b>
	Quanquan Liu, Yo Kobayashi, Bo Zhang, Makoto Hashizume, and Masakatsu G. Fujie	
<b>5</b>	<b>Motion Control of a Master–Slave Minimally Invasive Surgical Robot Based on the Hand-Eye-Coordination . . . . .</b>	<b>57</b>
	Aolin Tang, Qixin Cao, Hongbing Tan, Masakatsu G. Fujie, and Tiewen Pan	

**Part II Medical Image Computing, Visualization and Navigation**

**6 Liver Function Region Segmentation in Nuclear Medicine Using Mean Shift and Level Set Methods . . . . . 75**  
 Fang Chen, Shu Zhu, Yizhuang Cheng, Xiaobo Yao, Weimin Huang, Etsuko Kobayashi, and Bing Nan Li

**7 A Pilot Study of the Physiological Assessment of 3D Camera Using the 128 Channel EEG . . . . . 85**  
 Hisae Aoki, Hiromasa Yamashita, Toshiyuki Mori, Akio Mori, and Toshio Chiba

**8 Self-registration of Ultrasound Imaging Device to Navigation System Using Surgical Instrument Kinematics in Minimally Invasive Procedure . . . . . 95**  
 L. Yang, J. Wang, H. Liao, H. Yamashita, I. Sakuma, T. Chiba, and E. Kobayashi

**9 An Application of Robot Arm for Dynamic Field of View Expansion During Laparoscopy . . . . . 105**  
 Atul Kumar, Yen-Yu Wang, Ching-Jen Wu, Kai-Che Liu, Anant Vemuri, Chi-Hsiang Wu, Hurng-Sheng Wu, and Jacques Marescaux

**10 Evaluation of Safety and Performance in Robots for Knee Replacement Surgery Based on Standards . . . . . 117**  
 Youngjin Moon, Dukhee Lee, Seongjun Kim, Songe Choi, and Jaesoon Choi

**11 Fast Surgical Algorithm for Cutting with Liver Standard Triangulation Language Format Using Z-Buffers in Graphics Processing Unit . . . . . 127**  
 Hiroshi Noborio, Katsuhiko Onishi, Masanao Koeda, Kiminori Mizushino, Takahiro Kunii, Masaki Kaibori, Masanori Kon, and Yen-Wei Chen

**12 Evaluation of Elapsed Times for Surgical Workflow of Deep Brain Stimulation: A Preliminary Report . . . . . 141**  
 Hyung Wook Kim, Hyoung-Joon Chun, and Young Soo Kim
