

# Contents

|          |  |            |
|----------|--|------------|
| <b>1</b> | <b>A Critical Review of Adaptive Penalty Techniques<br/>in Evolutionary Computation</b> . . . . .  | <b>1</b>   |
|          | Helio J.C. Barbosa, Afonso C.C. Lemonge<br>and Heder S. Bernardino   |            |
| <b>2</b> | <b>Ruggedness Quantifying for Constrained Continuous<br/>Fitness Landscapes</b> . . . . .  | <b>29</b>  |
|          | Shayan Poursoltan and Frank Neumann  |            |
| <b>3</b> | <b>Trust Regions in Surrogate-Assisted Evolutionary<br/>Programming for Constrained Expensive Black-Box<br/>Optimization</b> . . . . .           | <b>51</b>  |
|          | Rommel G. Regis  |            |
| <b>4</b> | <b>Ephemeral Resource Constraints in Optimization.</b> . . . . .   | <b>95</b>  |
|          | Richard Allmendinger and Joshua Knowles  |            |
| <b>5</b> | <b>Incremental Approximation Models for Constrained<br/>Evolutionary Optimization</b> . . . . .  | <b>135</b> |
|          | Sanghoun Oh and Yaochu Jin   |            |
| <b>6</b> | <b>Efficient Constrained Optimization by the <math>\epsilon</math> Constrained<br/>Differential Evolution with Rough Approximation</b> . . . . . | <b>157</b> |
|          | Tetsuyuki Takahama and Setsuko Sakai   |            |
| <b>7</b> | <b>Analyzing the Behaviour of Multi-recombinative Evolution<br/>Strategies Applied to a Conically Constrained Problem</b> . . . . .              | <b>181</b> |
|          | Jeremy Porter and Dirk V. Arnold   |            |

**8 Locating Potentially Disjoint Feasible Regions of a Search Space with a Particle Swarm Optimizer . . . . . 205**  
Mohammad Reza Bonyadi and Zbigniew Michalewicz

**9 Ensemble of Constraint Handling Techniques for Single Objective Constrained Optimization . . . . . 231**  
Rammohan Mallipeddi, Swagatam Das  
and Ponnuthurai Nagaratnam Suganthan

**10 Evolutionary Constrained Optimization: A Hybrid Approach . . . . . 249**  
Rituparna Datta and Kalyanmoy Deb

**About the Book . . . . . 315**

**Index . . . . . 317**

Evolutionary Constrained Optimization

Datta, R.; Deb, K. (Eds.)

2015, XVI, 319 p. 111 illus., 39 illus. in color., Hardcover

ISBN: 978-81-322-2183-8
