## Contents

1. Workforce management based on forecasted demand ........................... 1  
   Bernardetta Addis, Roberto Aringhieri, Giuliana Carello, Andrea Grosso, and Francesco Maffioli

2. Operating rooms scheduling under uncertainty ................................. 13  
   Isabelle Beaulieu, Michel Gendreau, and Patrick Soriano

3. Idealised design and modelling of alternatives to hospital care .............. 33  
   Tom Bowen and Paul Forte

4. A coordination model for enhancing research on rare diseases ................. 51  
   Michela Chessa, Vito Fragnelli, and Stefano Gagliardo

5. Integrating simulation and risk-based sensitivity analysis methods in hospital emergency department design ........................................... 67  
   Fatah Chetouane and Kash Barker

6. Technical and scale efficiencies of Catholic hospitals: Does a system value of stewardship matter? .......................................................... 83  
   Tiang-Hong Chou, Yasar A. Ozcan, and Kenneth R. White

7. Optimal allocation of urban nuclei to hospital birth centres in a geographical region ................................................................. 103  
   Paola Facchin, Anna Ferrante, Elena Rizzato, Giorgio Romanin-Jacur, and Laura Salmaso

8. The nurse-to-patient assignment problem in Home Care services ............ 121  
   Ettore Lanzarone and Andrea Matta
9 Prioritizing health care interventions: A multicriteria resource allocation model to inform the choice of community care programmes .......................................................... 141
Mónica D. Oliveira, Teresa C. Rodrigues, Carlos A. Bana e Costa, and Armando Brito de Sá

10 An analysis of the financial statements of Italian health care providers through correlation-based networks .......................................................... 155
Marina Resta

11 Using data envelopment analysis for formative evaluation of radiotherapy services: An exploratory study............................................. 173
Sérgio P. Santos and Carla A.F. Amado

12 A simulation-based decision support tool to analyze clinical pathways in hospital .......................................................... 191
Elena Tànfani and Angela Testi

13 Patient mix optimisation for inpatient planning with multiple resources .......................................................... 213
Jan Vissers, Ivo Adan, Nico Dellaert, Jully Jeunet, and Jos Bekkers
Advanced Decision Making Methods Applied to Health Care
Tanfani, E.; Testi, A. (Eds.)
2012, VIII, 236 p., Hardcover
ISBN: 978-88-470-2320-8
