## Contents

**Part I  Systemic Risk, Network Dynamics and Other Empirical Studies**

1 **Diffusion of Defaults Among Financial Institutions**  
   Gabrielle Demange  
   3

2 **Systemic Risk and Complex Systems: A Graph-Theory Analysis**  
   Delphine Lautier and Franck Raynaud  
   19

3 **Omori Law After Exogenous Shocks on Supplier-Customer Network**  
   Yoshi Fujiwara  
   39

4 **Aftershot Prediction for High-Frequency Financial Markets’ Dynamics**  
   Fulvio Baldovin, Francesco Camana, Michele Caraglio, Attilio L. Stella, and Marco Zamparo  
   49

5 **How Unstable Are Complex Financial Systems? Analyzing an Inter-bank Network of Credit Relations**  
   Sitabhra Sinha, Maximilian Thess, and Sheri Markose  
   59

6 **Study of Statistical Correlations in Intraday and Daily Financial Return Time Series**  
   Gayatri Tilak, Tamás Széll, Rémy Chicheportiche, and Anirban Chakraborti  
   77

7 **A Robust Measure of Investor Contrarian Behaviour**  
   Damien Challet and David Morton de Lachapelle  
   105

8 **Evolution of Zipf’s Law for Indian Urban Agglomerations Vis-à-Vis Chinese Urban Agglomerations**  
   Kausik Gangopadhyay and Banasri Basu  
   119
## Part II  Model-Based Studies

### 9 Reaction to Extreme Events in a Minimal Agent Based Model
Andrea Zaccaria, Matthieu Cristelli, and Luciano Pietronero

### 10 Predatory Trading and Risk Minimisation: How to (B)Eat the Competition
Anita Mehta

### 11 Statistical Mechanics of Labor Markets
He Chen and Jun-ichi Inoue

### 12 Kolkata Paise Restaurant Problem: An Introduction
Asim Ghosh, Soumyajyoti Biswas, Arnab Chatterjee, Anindya Sundar Chakrabarti, Tapan Naskar, Manipushpak Mitra, and Bikas K. Chakrabarti

### 13 Kolkata Paise Restaurant Problem and the Cyclically Fair Norm
Priyodorshi Banerjee, Manipushpak Mitra, and Conan Mukherjee

### 14 An Introduction to Multi-player, Multi-choice Quantum Games: Quantum Minority Games & Kolkata Restaurant Problems
Puya Sharif and Hoshang Heydari

## Part III  Miscellaneous Reports

### 15 Cluster Analysis and Gaussian Mixture Estimation of Correlated Time-Series by Means of Multi-dimensional Scaling
Takero Ibuki, Sei Suzuki, and Jun-ichi Inoue

### 16 Analyzing Crisis in Global Financial Indices
Sunil Kumar and Nivedita Deo

### 17 Study of Systemic Risk Involved in Mutual Funds
Kishore C. Dash and Monika Dash

### 18 Characterizing Price Index Behavior Through Fluctuation Dynamics
Prasanta K. Panigrahi, Sayantan Ghosh, Arjun Banerjee, Jainendra Bahadur, and P. Manimaran

## Appendix  Discussions and Comments
Econophysics of Systemic Risk and Network Dynamics
Abergel, F.; Chakrabarti, B.K.; Chakraborti, A.; Ghosh, A. (Eds.)
2013, VIII, 300 p., Hardcover
