

# Contents

<b>1 The Kingdom of Circular Processes: The Logical Foundations of Systems Thinking</b>	<b>1</b>
1.1 Looking Without “Seeing” and Seeing Without “Looking”: The Role of Models of Intelligence	2
1.2 Seeing the Trees and the Forest: Zooming in on a World of Parts and Wholes	7
1.3 Seeing the Dance of the Starry Sky: The Importance of Variables and Variations	10
1.4 The “Why” Game: Searching for the Causal Chains	12
1.5 The Serpent Bites Its Tail: Closed Causal Chains – Loops	17
1.6 Everything Comes Around Again to Itself: Systems and Their External and Internal Boundaries	22
1.7 The Memory of a Snowball: The Systems of Systems Thinking	24
1.8 “Seeing the Impossible” or “the Impossibility of Seeing”: Five Obstacles to Systems Thinking	29
1.9 The Fifth Discipline: And the Other Four?	34
1.9.1 First Discipline: Personal Mastery	34
1.9.2 Second Discipline: Mental Models	35
1.9.3 Third Discipline: Building Shared Vision	36
1.9.4 Fourth Discipline: Team-learning	36
1.9.5 Fifth Discipline: Systems Thinking	37
1.9.6 Is a Sixth Discipline Possible? Control Thinking	37
Appendix 1.1 Skills and Obstacles for the Spread of <i>Systems Thinking</i>	37
The Seven Skills of the Systems Thinker	38
The Seven Obstacles to Systems Thinking	39
The Fundamental Impediments	40
The Situational Impediments	40
Three Areas to Facilitate the Adoption of Systems Thinking	40

<b>2</b>	<b>The Arrow That Constructs the World: The Causal Loop</b>	
	<b>Diagrams Technique</b> .....	43
2.1	Give Me an Arrow and I Will Construct the World: Technique for the Construction of Systems Models of the “World” .....	44
2.2	All Things Vary: Variables and Causal Relationships .....	46
2.3	Giving a “Direction” to Change: Reinforcing [R] and Balancing [B] Loops .....	54
2.4	Let Us Chain Together the World: Constructing Causal-Loop-Diagrams for Every System .....	59
2.5	Si vis pacem para bellum: The Analysis of Processes and Analytical CLDs .....	63
2.6	Quieta non movere, mota quietare! Stability in Perpetual Motion .....	67
2.7	He Who Plants Dates Does Not Eat Them: Decision-making and Control Systems – Impulses, Responses and Delays .....	75
2.8	The Numbers Game? Attempts at Numerical Simulation .....	81
2.9	Which Came First, the Chicken or the Egg? Systems Dynamics .....	91
2.10	Stocks and Flows? How the System Alters Its States .....	92
2.11	Models of Models: Translation Examples .....	97
2.12	The Map Is Not the Territory It Represents: The Problem with Modelling in Systems Thinking .....	100
	Appendix 2.1 Causal Loop Diagrams for Everyone .....	105
	Appendix 2.2 Escalation of Arms in Richardson’s Model .....	107
	Appendix 2.3 Representation of an Economic System .....	110
	Appendix 2.4 Malthusian Dynamics .....	114
<b>3</b>	<b>Systems Thinking for the Control of Phenomena:</b>	
	<b>How to Construct a Control System</b> .....	117
3.1	The Truth Is in the Profound: The Relevance of Control Systems .....	118
3.2	The Manager’s Cake: The Structure of Control Systems .....	123
3.3	Even Firms Take Showers: The Management of the System .....	134
3.4	Old Showers and Tubs: The Control Strategy .....	140
3.5	A Car Ride: Multi-lever and Multi-level Control .....	146
3.6	Even Firms Take Car Rides: Multi-level Control Strategies .....	150
3.7	Managers Learn to Fly: Multi-objective Control and Control Policies .....	153
3.8	It Doesn’t Matter Whether You’re a Lion or Gazelle: When the Sun Comes Up, You’d Better Be Running .....	159
3.9	Control Systems in the Socio-Economic Context .....	162
3.10	Control Yourself: The Human Aspects of Control – Control Systems for Needs and Aspirations .....	168

3.11 Do Not Use a Slingshot to Sink a Ship or a Cannon  
to Kill a Fly ..... 174

Appendix 3.1 A Bit of “Unpretentious” Robotics:  
A Robot in Motion in “n” Dimensions ..... 179

Appendix 3.2 Viable Systems as Control Systems ..... 184

Appendix 3.3 Dashboards in Performance Control Systems ..... 186

Appendix 3.4 The Control of Projects with Grid  
Programming: CPM and PERT ..... 191

**4 Systems Thinking Applied to Problem Solving:**

**System Levers** ..... 197

4.1 Problems Every Day and Throughout the Day:  
Problem Solving ..... 198

4.2 As You Make Your Bed, So You Must Lie in It: Solutions  
That Fail ..... 205

4.3 Don’t Hide Your Head in the Sand: Problem Finding ..... 210

4.4 Who Left the Forceps in My Uncle’s Stomach? Ishikawa’s  
Diagrams and Procedural Analyses ..... 218

4.5 These Fishbones Are Not a Problem: From Linear Diagrams  
to Causal Loops ..... 224

4.6 Obtaining the Maximum Result with the Minimum Effort:  
How to Exploit the Leverage Effect ..... 230

4.7 A Bird in the Hand Is Worth Two in the Bush: Short-term  
and Local Preference in Evaluating Alternatives ..... 234

4.8 Errare humanum est sed perseverare diabolicum: The Erosion  
of Objectives ..... 237

4.9 The More You Have, the More You Want, But ... No One  
Is Naïve: Success to the Successful and Punishment  
for the Successful ..... 246

4.10 In the Interests of All, a Common Tragedy: The Tragedy  
of the Commons ..... 250

4.11 Nothing Grows *Ad Infinitum*: The Limits of Growth  
and the Lack of Investment ..... 255

4.12 Don’t Meddle in a Quarrel Between Husband and Wife:  
Accidental Adversaries ..... 260

4.13 Conclusion: Observing and Judging with Systems  
Thinking ..... 265

Appendix 4.1 The Laws of Systems Thinking ..... 270

Today’s Problems Come from Yesterday’s Solutions ..... 271

The Harder You Push, the Harder the System Pushes Back ..... 271

Behaviour Grows Better Before It Grows Worse ..... 271

The Easy Way Out Usually Leads Back in ..... 272

The Cure Can Be Worse Than the Disease ..... 272

Faster Is Slower ..... 272

Cause and Effect Are Not Closely Related in Time and Space .... 273

Small Changes Can Produce Big Results ..... 273

You Can Have Your Cake and Eat It Too: But Not at Once ..... 274

Dividing an Elephant in Half Does Not Produce Two Small  
Elephants ..... 274

There Is No Blame ..... 275

Appendix 4.2 The Principles of Systems Thinking Applied  
to Problem Solving ..... 275

**References** ..... 279

**Glossary** ..... 285

**Symbols (minimal)** ..... 291

**Index of Figures, Causal Loop Diagrams,  
and Stock & Flow Diagrams** ..... 293

**Index** ..... 299
