Aquaculture

A Few Examples of the Many Approaches to Salmon Resource Creation in Japan ................................................................. 3
Eiichi Hasegawa

Trials on New Methods for Seed Culture in Japanese Abalones ........................................................................................................... 13

A Multidisciplinary Approach for Anticipating the Presence of Genetically Modified Fish in France ................................................................. 19

Shrimp Aquaculture: From Extensive to Intensive Rearing the Relationship with the Environment and The Key to Sustainability ................................................................. 25
Jean-Louis Martin

Quality Control of Cultured Fish by Feed Supplements .................................................................................................................. 31
Heisuke Nakagawa

Experimental Culture of Arthrospira (Spirulina) platensis - Nordsted, 1844 ............................................................................. 35
Rija Rakotoarisoa, Alain Riva, and Nardo Vicente

Problems Associated with the Recovery on Landings of Black Sea Bream (Acanthopagrus schlegelii) Intensively Released in Hiroshima Bay, Japan .................................................................................. 37
Tetsuya Umino, Enricure Blanco Gonzalez, Hidetoshi Saito, and Heisuke Nakagawa
Effect of Wavelength of Intermittent Light on the Growth and Fatty Acid Profile of the Haptophyte *Isochrysis galbana* ................................................................. 43
Takahide Yago, Hisayuki Arakawa, Tsutomu Morinaga, Y. Yoshie-Stark, and M. Yoshioka

Artificial reefs

Profile of Payao (Floating Artificial Reef or Fish Attracting Device) Fisheries of the Philippines ................................................. 49
Ricardo P. Babaran and Muneki Ishizaki

Monitoring of the Artificial Reef Fish Assemblages of the Marine Protected Areas Along the Alpes-Maritimes Coast (France, North-Western Mediterranean) ........................................ 55
Pascaline Bodilis, E. Dombrowski, C. Seytre, and Patrice Francour

Artificial Reefs in French Law .......................................................... 61
Bertrand Cazalet and Bernard Salvat

Contribution to the Planning of the Research in Artificial Reefs Programs ................................................................. 67
Hubert Jean Cezalaldi

Artificial Reefs in the Cote Bleue Marine Park: Assessment After 25 Years of Experiments and Scientific Monitoring ...................... 73
Eric Charbonnel and Frédéric Bachet

Artificial Reefs in Marseille: From Complex Natural Habitats to Concepts of Efficient Artificial Reef Design .......................... 81
Eric Charbonnel, François Carnus, Sandrine Ruitton, Laurence Le Diréach, J.-G. Harmelin, and J. Beurois

The Dubai Underwater Observatory Projects and Turtle Rehabilitation Unit ......................................................... 83
Etienne Clamagirand

Immersion of Artificial Reef in Ohya Island: Lessons From New Experiences ......................................................... 89
Eric Delort and Didier Grosdemange

Development of Small and Lightweight Artificial Reef for *Fukutokobushi (Haliotis Diversicolor Diversicolor)* ......................... 97
Keigo Ebata, Akira Higashi, Akihiro Shiomitsu, Seiichi Saisho, and Toshimitsu Ikeda

Assessment of the Effect of Artificial Reef on Fish Distribution: The Combined Use of Acoustic Data and GIS ...................... 99
Akira Hamano
Evaluation of Artificial Reefs Impact on Artisanal Fisheries: Necessity of Complementary Approaches ................................................ 105
Philippe Lenfant, Jérémy Pastor, Nicolas Dalias, and Patrick Astruch

Operation Prado Reefs: A Model for Management of the Marseille Coast ............................................................. 115
Emilia Medioni and Jean-Charles Lardic

Swimming Behavior of Juvenile Yellowfin Tuna (Thunnus albacares) Around Fish Aggragate Devices (F.A.D.S) in the Philippines ................................................................. 121
Yasushi Mitsunaga, Ricardo Babaran, C. Endo, and Kazuhiko Anraku

Summary of French Artificial Reefs Immersions Since 1968, Sites, Volumes, Types and Costs ............................................ 125
Sylvain Pioch and Jean-Pierre Doumenge

The Artificial Habitat, an Evolutionary Strategic Tool for Integrated Coastal Area Management ................................................ 129
Sylvain Pioch, Jean-Claude Raynal, and Gérard Lasserre

Spatial and Temporal Variation of the Fish Assemblage on a Large Artificial Reef Assessed Using Multiple-Point Stationary Observations ............................................................. 135
Hideyuki Takahashi, Akihiko Matsuda, Tomonari Akamatsu, and Norimasa Takagi

Artificial Reefs: Perceptions and Impact on the Marine Environment .................................................................................. 141
Gérard Veron

Biodiversity

Characterization of Three Populations of Phallocryptus Spinosa (Branchiopoda, Crustacea) from North-East of Algeria ................................................................. 147
Mounia Amarouayache and Farid Derbal

Biological Invasion: The Thau Lagoon, a Japanese Biological Island in the Mediterranean Sea ............................................................. 151
Charles-François Boudouresque, Judith Klein, Sandrine Ruitton, and Marc Verlaque

Distribution of Giant Viruses in Marine Environments .................................................................................. 157
Hiroyuki Ogata, Adam Monier, and Jean-Michel Claverie

Catch, Bycatch of Sharks, and Incidental Catch of Sea Turtles in the Reunion-Based Longline Swordfish Fishery (Southwest Indian Ocean) Between 1997 and 2000 ............................................ 163
François Poisson
