Contents

Part I Introduction To Environmental Education

The History and Philosophy of Environmental Education ...................... 3
Robert L. Carter and Bora Simmons

Professional Preparation for Science Teachers
in Environmental Education ........................................................................ 17
James T. McDonald and Lynn A. Dominguez

Approaches to Environmental Education ..................................................... 31
Austin A. Winther, Kim Cleary Sadler, and Gerry Saunders

Environmental Education Within Early Childhood ................................. 51
Linda Plevyak and Amy Mayfield

Environmental Education Service-Learning in Science
Teacher Education .......................................................................................... 65
Teddie Phillipson-Mower and April Dean Adams

Beyond Terra firma: Bringing Ocean and Aquatic Sciences
to Environmental and Science Teacher Education .............................. 81
Diana L. Payne and Timothy D. Zimmerman

Part II Environmental Education Pedagogy

Promoting the Use of Outdoor Learning Spaces by K-12
Inservice Science Teachers Through an Outdoor Professional
Development Experience ............................................................................. 97
Mark A. Bloom, Molly Holden, April T. Sawey,
and Molly H. Weinburgh

xvii
Integrating Environmental Education Field Trip Pedagogy into Science Teacher Preparation ................................................. 111 Bryan M. Rebar and Larry G. Enochs

Name That Plant! Overcoming Plant Blindness and Developing a Sense of Place Using Science and Environmental Education ............... 143 Jennifer Kreps Frisch, Matthew M. Unwin, and Gerald W. Saunders

Place-based Inquiry: Advancing Environmental Education in Science Teacher Preparation .................................................. 159 Somnath Sarkar and Richard Frazier

Summer Methods in Summer Camps: Teaching Projects WILD, WET, and Learning Tree at an Outdoor Environmental Education Center .................................................. 173 Charles J. Eick, Sarah Carrier, Karni Perez, and Doyle E. Keasal

Teachers Connecting Urban Students to Their Environment ............. 191 Sherri L. Brown, Nikki L. Votaw, and Thomas R. Tretter

Exploring Preservice Teachers’ Mental Models of the Environment ................................................................................................. 209 Christine Moseley, Blanche Desjean-Perrotta, and Courtney Crim

Pedagogy, Environmental Education, and Context: Promoting Knowledge Through Concept Mapping ............................................. 225 Barbara Austin and Nina Schmidt

Unraveling the Scientific, Social, Political, and Economic Dimensions of Environmental Issues Through Role-Playing Simulations .................................................................................. 237 James G. MaKinster

Exploring Environmental Education Through Ecofeminism: Narratives of Embodiment of Science ............................................ 255 M.E. Spencer and Sherry E. Nichols
