Contents

Part I  Climate Change in South Asia

1 Climate of South Asia and the Human Wellbeing ................................. 3
   Rattan Lal

2 Climate Change in South Asia ................................................................. 13
   Mannava V.K. Sivakumar and Robert Stefanski

3 Solar Irradiance of the Earth’s Atmosphere ............................................... 31
   Sultana N. Nahar

4 Mass Balance Approach to Study Glaciers
   Dynamics in the Himalayas...................................................................... 43
   Dagfinnur Sveinbjörnsson and Helgi Björnsson

Part II  Climate Change and Water Resources

5 Understanding Surface Water Flow and Storage Changes
   Using Satellites: Emerging Opportunities for Bangladesh ..................... 57
   Faisal Hossain and Douglas Alsdorf

6 Inter-annual Water Storage Changes in Asia
   from GRACE Data..................................................................................... 69
   C.K. Shum, Jun-Yi Guo, Faisal Hossain, Jianbin Duan,
   Douglas E. Alsdorf, Xiao-Jun Duan, Chung-Yen Kuo,
   Hyongki Lee, Michael Schmidt, and Lei Wang

7 Observation and Geophysical Causes
   of Present-Day Sea-Level Rise ................................................................ 85
   C.K. Shum and Chung-Yen Kuo
Part III  Climate Change and the Environment

8  Selenium: A Right Choice to Treat Arsenicosis in Bangladesh ........ 107
    Abdul Momin

9  Agricultural and Environmental Changes in Bangladesh in Response to Global Warming ............................ 119
    S. Ahsan, M.S. Ali, M.R. Hoque, M.S. Osman, M. Rahman,

Part IV  Climate Change and Soil Degradation

10  Soil Degradation and Food Security in South Asia.......................... 137
    Rattan Lal

11  Restoration of Degraded and Desertified Lands:
    Experience from Iceland ............................................................... 153
    Sveinn Runólfsson and Anna Maria Ágústsdóttir

12  Organic Carbon Cycling During Himalayan Erosion:
    Processes, Fluxes and Consequences for the
    Global Carbon Cycle ..................................................................... 163
    Valier Galy, Christian France-Lanord, Olivier Beyssac,
    Bruno Lartiges, and Mustafizur Rhaman

Part V  Climate Change and Food Security

13  World Food Security: The Challenges of Climate
    Change and Bioenergy...................................................................... 185
    Ramasamy Selvaraju

14  Implications of Climate Change on Agriculture
    and Food Security in South Asia ..................................................... 217
    M. Ad Spijkers

15  Climate Change and Food Security in India .................................. 229
    Nabansu Chattopadhyay

Part VI  Mitigation And Adaptation Options

16  Global Climate Change and Food Security in South Asia:
    An Adaptation and Mitigation Framework ....................................... 253
    P.K. Aggarwal and Mannava V.K. Sivakumar
17 Options on Land Management and Land Use for Coping with Climate Change in South Asia .......................................... 277
Yuji Niino

18 Challenges and Opportunities in Composting Organic Waste ........ 295
Harold M. Keener

19 Adaptation Strategies in Coping with Climate Change Impacts for Improved Crop Health and Sustainable Food Production .......... 325
Abul Kalam Samsul Huda, Raj Mehrotra, and Ashish Sharma

20 Options for Forest Management for Coping with Climate Change in South Asia .......................................................... 343
N.H. Ravindranath, Indu K. Murthy, and Shilpa Swarnim

21 Options on Fisheries and Aquaculture for Coping with Climate Change in South Asia ........................................................ 359
Elayaperumal Vivekanandan

22 Economic Impacts of Climate Change on Global Food Supply and Demand .......................................................... 377
Jun Furuya, Shintaro Kobayashi, and Seth D. Meyer

Part VII Climate Change and Agriculture in Bangladesh

23 Effect of Climatic Changes on the Incidence of Disease of Winter Pulses .......................................................... 397
M.A. Bakr, M.H. Rashid, M.S. Hossain, and A.U. Ahmed

24 Climate Change and Sustainable Irrigation Management in Bangladesh .......................................................... 407
Md. Shirazul Islam and Md. Harun-ur-Rashid

25 Cool Rice for a Warmer Environment: Concept, Progress and Prospect – Bangladesh Perspective .................................. 423
M. Sirajul Islam, Abdullah A. Mahbub, and M. Serajul Islam

26 Soil Carbon Sequestration Under Rubber Plantations in North-East India .......................................................... 433
D. Mandal and K.R. Islam

27 Incidence and Severity of Rice Diseases and Insect Pests in Relation to Climate Change ........................................ 445
Mainul Haq, M.A. Taher Mia, M.F. Rabbi, and M.A. Ali
28 Assessing Impacts of Climate Change on Cereal Production and Food Security in Bangladesh ........................................ 459
S. Ghulam Hussain

29 Climatic Variations: Farming Systems and Livelihoods in the High Barind Tract and Coastal Areas of Bangladesh ............ 477

30 Influence of Climatic Changes on the Abundance of Major Insect Pests of Sugarcane .................................................... 499
Md. Abdullah and Md. Abdul Mannan

31 Soil, Water and Climate Related Constraints for Crop Production in Bangladesh ......................................................... 515
M. Shahabuddin Khan, Ranjit Sen, Shamsun Noor, Habib Mohammad Naser, and Md. Khairul Alam

32 Phenomena Leading to Food Chain Contamination to Intensify Climate Change Effects and Adaptation in Bangladesh ........................................................ 527
A.M.M. Maruf Hossain and S.F. Elahi

Part VIII Policy Imperatives

33 Metrics for Mainstreaming Adaptation in Agriculture Sector .......... 551
Sivapuram Venkata Rama Krishna Prabhakar and Ancha Srinivasan

34 A Framework for Regional Cooperation on Integration of Disaster Risk Reduction and Climate Change Adaptation in South Asia ................................................................. 569
Sanjay K. Srivastava

Part IX Need for Action

35 Adapting to Climate Change: Research and Development Priorities ................................................................. 587
Rattan Lal

Index .............................................................................................................................................. 597
Climate Change and Food Security in South Asia
2011, XXII, 600 p., Hardcover
