

Contents

Part I Introduction

1 Ocean Forecasting in the 21st Century	3
Andreas Schiller	

Part II Oceanographic Observing System

2 Satellites and Operational Oceanography	29
Pierre-Yves Le Traon	
3 In-Situ Ocean Observing System	55
Muthalagu Ravichandran	
4 Ocean Data Quality Control	91
James A. Cummings	
5 Observing System Design and Assessment	123
Peter R. Oke and Terence J. O’Kane	

Part III Atmospheric Forcing and Waves

6 Air-Sea Fluxes of Heat, Freshwater and Momentum	155
Simon A. Josey	
7 Coastal Tide Gauge Observations: Dynamic Processes Present in the Fremantle Record	185
Charitha Pattiaratchi	
8 Surface Waves	203
Diana Greenslade and Hendrik Tolman	

9 Tides and Internal Waves on the Continental Shelf	225
Gregory N. Ivey	
Part IV Modelling	
10 Eddying vs. Laminar Ocean Circulation Models and Their Applications	239
Bernard Barnier, Thierry Penduff and Clothilde Langlais	
11 Isopycnic and Hybrid Ocean Modeling in the Context of GODAE	263
Eric P. Chassignet	
12 Marine Biogeochemical Modelling and Data Assimilation	295
Richard J. Matear and E. Jones	
Part V Data Assimilation	
13 Introduction to Ocean Data Assimilation	321
Edward D. Zaron	
14 Adjoint Data Assimilation Methods	351
Andrew M. Moore	
15 Ensemble-Based Data Assimilation Methods	381
Pierre Brasseur	
Part VI Systems	
16 Overview Global Operational Oceanography Systems	397
Eric Dombrowsky	
17 Overview of Regional and Coastal Systems	413
Jiang Zhu	
18 System Design for Operational Ocean Forecasting	441
Gary B. Brassington	
19 Integrating Coastal Models and Observations for Studies of Ocean Dynamics, Observing Systems and Forecasting	487
John L. Wilkin, Weifeng G. Zhang, Bronwyn E. Cahill and Robert C. Chant	
20 Seasonal and Decadal Prediction	513
Oscar Alves, Debra Hudson, Magdalena Balmaseda and Li Shi	

Part VII Evaluation

21 Dynamical Evaluation of Ocean Models Using the Gulf Stream as an Example 545
 Harley E. Hurlburt, E. Joseph Metzger, James G. Richman,
 Eric P. Chassignet, Yann Drillet, Matthew W. Hecht,
 Olivier Le Galloudec, Jay F. Shriver, Xiaobiao Xu and Luis Zamudio

22 Ocean Forecasting Systems: Product Evaluation and Skill 611
 Matthew Martin

**23 Performance of Ocean Forecasting Systems—
 Intercomparison Projects** 633
 Fabrice Hernandez

Part VIII Applications, Policies and Legal Frameworks

24 Defence Applications of Operational Oceanography 659
 Robert Woodham

**25 Applications for Metocean Forecast Data—Maritime
 Transport, Safety and Pollution** 681
 Brian King, Ben Brushett, Trevor Gilbert and Charles Lemckert

26 Marine Energy: Resources, Technologies, Research and Policies 695
 John Huckerby

**27 Application of Ocean Observations & Analysis: The CETO
 Wave Energy Project** 721
 Laurence D. Mann

28 International Marine Environmental Law (Oil Pollution) 731
 Kathryn Barras

Index 741
