Contents

Part I  Ecology, Design, and Social Contexts: Disciplinary Voices and History

1 Ecology of the City as a Bridge to Urban Design ................................................. 7
   S.T.A. Pickett, M.L. Cadenasso, and Brian McGrath

2 Three Tides: The Development and State of the Art of Urban Ecological Science ........................................................................................................ 29
   M.L. Cadenasso and S.T.A. Pickett

3 Social Dynamics and Sustainable Urban Design ................................................. 47
   Christopher G. Boone

4 Integral Urbanism: A Context for Urban Design ............................................ 63
   Nan Ellin

5 Landscape as Method and Medium for the Ecological Design of Cities ............. 79
   Joan Iverson Nassauer

Part II  Shared Conceptual Understanding: Four Themes for Bridging Ecology and Urban Design

Theme I Spatial Heterogeneity in Ecology and Urban Design

6 Ecological Heterogeneity in Urban Ecosystems: Reconceptualized Land Cover Models as a Bridge to Urban Design ......................................................... 107
   M.L. Cadenasso, S.T.A. Pickett, Brian McGrath, and Victoria Marshall

7 Urban Patch Dynamics and Resilience: Three London Urban Design Ecologies ......................................................................................................................... 131
   D. Grahame Shane
Theme 2 Flux of Water in the Urban Realm

8 Eco-engineering for Water: From Soft to Hard and Back ................ 163
   Kelly Shannon

9 Beyond Restoration and into Design: Hydrologic Alterations in Aridland Cities .................................................. 183
   Elisabeth K. Larson, Stevan Earl, Elizabeth M. Hagen, Rebecca Hale,
   Hilairy Hartnett, Michelle McCrackin, Melissa McHale, and Nancy B. Grimm

Theme 3 Resilience: Adaptation and Change in Urban Systems

10 Ecological Resilience as a Foundation for Urban Design and Sustainability ......................................................... 211
   Jianguo Wu and Tong Wu

11 Slow, Moderate, Fast: Urban Adaptation and Change ................. 231
   Brian McGrath

Theme 4 Social Actors and Agents of Urban Organization

12 Anchoring a Terrain: Landscape Beyond Urbanism .................. 253
   Dilip da Cunha

13 Storyline and Design: How Civic Stewardship Shapes Urban Design in New York City .............................................. 269
   Erika S. Svendsen

14 Eco-Cities Without Ecology: Constructing Ideologies, Valuing Nature .............................................................. 289
   Julie Sze and Gerardo Gambirazzio

Part III Bridging Ecology and Urban Design Practice

15 Sponge City ........................................................................ 301
   Ignacio F. Bunster-Ossa

16 Civic Space in Regional Frameworks: Resilient Approaches to Urban Design ......................................................... 307
   Jill Desimini

17 Aesthetic Resilience ................................................................ 319
   Victoria Marshall

18 Anchoring Philadelphia .......................................................... 331
   Anuradha Mathur and Dilip da Cunha

19 Shanghai Chemical Industrial Park Treatment Wetland: Integrated Strategies in Natural Treatment System Design ........ 337
   Kerry J. Rubin and Rowan Roderick-Jones
20 Just Ground: A Social Infrastructure for Urban Landscape Regeneration............................................................................................ 347
Julie Bargmann

21 Ecological and Social Linkages in Urban Design Projects: A Synthesis........................................................................................................... 355
J. Morgan Grove

Part IV Urban Design in Expanded Disciplinary and Geographical Contexts

22 The Design Process as a Framework for Collaboration Between Ecologists and Designers................................................................. 365
Alexander J. Felson

23 Remixing Messages: A Call for Collaboration Between Artists and Scientists................................................................................................ 383
Mary Miss

24 Landscape Urbanism: A North American Perspective ....................... 391
Alissa North and Charles Waldheim

25 Urbanism and Ecological Rationality ................................................... 407
Paola Viganò

26 Bangkok: The Ecology and Design of an Aqua-City .................................. 427
Danai Thaitakoo, Brian McGrath, Suebsiri Srithanyarat, and Ying Palopakon

27 Disturbanism in the South Pacific: Disturbance Ecology as a Basis for Urban Resilience in Small Island States........................ 443
Rod Barnett and Jacqueline Margetts

Part V Moving Forward

28 The Ecology of the Metacity: Shaping the Dynamic, Patchy, Networked, and Adaptive Cities of the Future................................. 463
S.T.A. Pickett, Brian McGrath, and M.L. Cadenasso

Index.................................................................................................................. 491
Resilience in Ecology and Urban Design
Linking Theory and Practice for Sustainable Cities
Pickett, S.; Cadenasso, M.L.; McGrath, B. (Eds.)
2013, XXVI, 499 p. 182 illus., 127 illus. in color.,
Hardcover
