3 Current International Law Relating to Site Contamination

3.1 Introduction

3.2 Terminology

3.2.1 International Law

3.2.2 Regional Law

3.2.3 Bilateral Law

3.2.4 Soft Law

3.2.5 Customary Law

3.3 Regulatory Measures

3.3.1 Soil Protection

3.3.2 Pollution and Pollutants

3.3.3 General Environmental Protection

3.4 Liability Measures

3.4.1 State Responsibility

3.4.2 Civil Liability for Environmental Harm

3.5 Summary

3.6 Conclusions and Analysis

References

4 National Site Contamination Law

4.1 Introduction

4.2 Definition of ‘National Site Contamination Law’

4.3 Categories of Site Contamination Law

4.3.1 Countries with Extensive, Specific Provisions on Site Contamination

4.3.2 Countries with Limited, Specific Provisions on Site Contamination

4.3.3 Countries with No Provisions on Site Contamination

4.4 An Overview of National Site Contamination Law

4.4.1 Countries with Extensive, Specific Site Contamination Law

4.4.2 Countries with Limited, Specific Legislation

4.4.3 Countries with No Specific Site Contamination Law

4.5 Key Trends and Issues in the Development of National Site Contamination Law

4.5.1 Concentration of Site Contamination Legislation

4.5.2 Regulatory ‘Model’ or Approach

4.5.3 Brownfields Legislation

4.5.4 Policy Versus Law and Technical/Scientific Standards

4.5.5 Key Features of Site Contamination Regimes in Specific Jurisdictions
4.5.6 Factors Influencing Developments in Site Contamination Law ......................... 124
4.5.7 Influence of ‘Models’ with Particular Countries .................. 124
4.5.8 Influence of Costs of Cleanup ........................................ 124

4.6 Conclusions .................................................. 125
References ....................................................... 191

5 Responsibility for Site Contamination ........................................ 199
5.1 Introduction ................................................................ 199
5.2 Definition of Responsible Parties ..................................... 200
5.3 Nature of Liability .................................................. 202
5.3.1 Retrospectivity ................................................. 202
5.3.2 Strict Liability ................................................ 204
5.3.3 Fault-Based Liability ......................................... 204
5.3.4 Joint and Several Liability ................................... 205
5.3.5 Proportionate Liability ....................................... 210
5.4 Mechanisms for Imposing Responsibility .............................. 211
5.4.1 The ‘Command and Control’ Approach ....................... 211
5.4.2 Non-traditional Mechanisms .................................. 211
5.4.3 Transfer of Liability ......................................... 212
5.5 Remediation of ‘Orphan’ Sites ....................................... 212
References ....................................................... 213

6 Promoting National Site Contamination Law: The Challenge of Harmonisation ........................................ 217
6.1 Introduction ................................................................ 217
6.2 Defining Harmonisation .............................................. 219
6.3 Types of Harmonisation ............................................. 224
6.3.1 Binding Protocol to an Existing Treaty, or a New/Amended Binding Treaty ............. 224
6.3.2 Loan Conditions and Bilateral Aid Agreements ................ 224
6.3.3 High-Level Declarations or Resolutions ...................... 225
6.3.4 Guidelines or Recommendations ............................... 225
6.3.5 ISO Standards ............................................... 227
6.3.6 Codes of Practice ............................................. 228
6.3.7 A Model Law or Policy ........................................ 228
6.3.8 Emulation of ‘State of the Art’ Practices in Other Jurisdictions .............................. 229
6.3.9 Emulation Due to Market Pressure ............................. 231
6.4 Justifications for Harmonisation ..................................... 232
6.5 Qualifications and Limitations Relating to Harmonisation ........ 234
6.6 Overcoming the Limitations of Harmonisation ..................... 235
6.7 Who Might Promote Harmonisation of Site Contamination Law, and How? ......................... 238
6.8 Conclusions ....................................................... 242
References ....................................................... 243
## 7 An International Response to Site Contamination

### 7.1 Introduction

### 7.2 Reasons for an International Response to Site Contamination

### 7.3 Site Contamination as a Matter of International Concern

### 7.4 Examples of Recent International Regimes on Related or Similar Matters

#### 7.4.1 Chemicals and Contaminants

#### 7.4.2 Soils/Degradation

#### 7.4.3 The Key Role of UNEP in Initiating New International Agreements

#### 7.4.4 Conclusions

### 7.5 The Appropriate Form of an International Instrument

#### 7.5.1 A Binding International Instrument

#### 7.5.2 Soft Law Options

#### 7.5.3 A Regional Approach?

### 7.6 Possible Content of an International Instrument

### 7.7 Conclusions

### References

## 8 Alternatives to International Law – Other Means of Promoting National Site Contamination Law

### 8.1 Introduction

### 8.2 Outline of Alternatives

#### 8.2.1 Global and Regional Lending Institutions

#### 8.2.2 Bilateral Aid Initiatives

#### 8.2.3 ISO Standards

#### 8.2.4 Voluntary Codes of Practice

#### 8.2.5 A ‘Model Law’ on Site Contamination

### 8.3 Comparative Evaluation of All Options

### 8.4 Conclusions

### References

## 9 Recommended Features of a Model Law on Site Contamination

### 9.1 Introduction

### 9.2 Scope of a Model Law on Site Contamination

#### 9.2.1 New Legislation Versus Amended Legislation

#### 9.2.2 A Universal Definition of Site Contamination

#### 9.2.3 Allocation of Liability for Remediation

#### 9.2.4 Role of Private Professionals

#### 9.2.5 Regulatory Process for Remediation

#### 9.2.6 Voluntary Remediation/Brownfield Measures

#### 9.2.7 Post-remediation Measures

#### 9.2.8 Public Participation
9.3 How a Model Law on Site Contamination Might Be Developed ........................................ 334
9.3.1 Achieving Legitimacy, Transparency and Sensitivity to Local Conditions – Prior Assessment and Consultation .................................................. 334
9.3.2 Securing the Uptake of Legislation Based on the Model Law ........................................ 336
9.3.3 The Mechanics of Developing and Promoting a Model Law .......................................... 337
9.3.4 Who Will Prepare and Promote the Model Law? ......................................................... 338
9.4 Conclusions .................................................................................................................. 345
References ....................................................................................................................... 346

10 Conclusions and Recommendations .............................................................................. 353
10.1 Lack of International Law and Policy on Site Contamination ........................................ 354
10.2 The Need for Specific National Regulatory Regimes on Site Contamination ................... 356
10.3 Lack of Consistent Approaches to Site Contamination Law and Policy at the National Level ....................................................................................... 357
10.4 The Case for Harmonisation of Site Contamination Law .............................................. 358
  10.4.1 Top-Down Harmonisation – The Prospects of an International Instrument on Site Contamination ................................................................. 359
  10.4.2 Bottom-Up Approaches – A Model Law on Site Contamination ............................... 361
10.5 Summary ..................................................................................................................... 363
References ....................................................................................................................... 364
