## Contents

### 1 Introduction ............................................................................................. 1

1.1 The Experience of Risk and Vulnerability ........................................... 1

1.2 The Struggle Against Risk and Vulnerability ..................................... 2

1.3 Technological Risk and the Ethical Evaluation of New Technologies ................................................................. 5

1.4 Risk, Vulnerability, and Technology .................................................. 7

1.5 Transhumanism ................................................................................ 9

1.6 Outline of the Book .......................................................................... 10

References................................................................................................. 15

### Part I Descriptive Anthropology of Vulnerability

2 The Transhumanist Challenge ............................................................... 19

2.1 The Ethical Discussion About Human Enhancement and Its Assumptions About Human Being and Vulnerability ............... 19

2.1.1 Transhumanists Versus Bioconservatives and Infoconservatives: The Anthropological Issue ................. 20

2.1.2 Fighting the Dragon or Accepting What Is Given by Nature or God? The Question Concerning Human Vulnerability and Technology ........................................... 21

2.2 First Response to the Anthropological Issue ................................... 23

2.2.1 Human Nature Has Always Changed ................................. 23

2.2.2 Technology Has Always Changed Who We Are ................. 27

2.2.3 Philosophical Anthropology Has Always Been Normative ................................................................... 28

2.2.4 From Human Nature to Human Being: From Essence to Existence .................................................. 31

References................................................................................................. 35
## 3 Anthropology of Vulnerability

### 3.1 Standard Dualist Views of Risk and Vulnerability
- **3.1.1 Objectivist Views: Risk Science, Medicine, and the Psychology of Risk**
- **3.1.2 The Social Construction of Risk and Cultural Theory of Risk**

### 3.2 An Existential-Phenomenological Alternative: A Relational Anthropology of Vulnerability
- **3.2.1 Existential Vulnerability: Preliminary Phenomenology of Risk and Vulnerability**
- **3.2.2 Existential Vulnerability: Being-at-Risk, Fear, and Care (Using Heidegger 1)**
- **3.2.3 Existential Versus Existentialist (Not Using Heidegger 2)**
- **3.2.4 The Tradition of Philosophical Anthropology: Plessner**

## 4 Cultures and Transformations of Vulnerability

### 4.1 Culture(s) of Vulnerability
- **4.1.1 Experience: Imaginations of Vulnerability**
- **4.1.2 Praxis and Habitus: Imagination as Representation Versus Imagination in Action**

### 4.2 Vulnerability Transformations
- **4.2.1 Spiritual Technologies and Religious Culture**
- **4.2.2 Material Technologies and Technological, Financial, and Economic Culture**
- **4.2.3 Social Technologies and Political Culture**
- **4.2.4 Technologies of the Self and Self-Culture**

### 4.3 Conclusion: Vulnerability Transformations as Transformations of a Form of Life

## Part II Normative Anthropology of Vulnerability

## 5 Ethics of Vulnerability (i): Implications for Ethics of Technology

### 5.1 Vulnerability and Ethics
- **5.1.1 The Value of Vulnerability and the Vulnerability of Value**
- **5.1.2 Evaluating Vulnerability Transformations**

### 5.2 Ethics of Technology as an Ethics of Vulnerability
- **5.2.1 Standard View: Human Values Versus Technological Means**

8 Politics of Vulnerability: Freedom, Justice, and the Public/Private Distinction ................................................................. 147

8.1 The Idea of a Politics of Vulnerability .............................................................. 147

8.2 Freedom and Vulnerability ........................................................................... 152

8.2.1 The Hobbesian Problem of Social Order:
Neo-feudal Power Structures in Cyberspace ........................................... 152

8.2.2 Alternative: Why Cyberspace Is Already Social ................................. 154

8.3 Justice and Vulnerability: The Case of Human Enhancement .................. 157

8.3.1 Towards a Fair Distribution of Genes or Vulnerability? ......................... 158

8.3.2 Capabilities and Vulnerability Transformations:
Human Enhancement and Human Development ....................................... 168

8.3.3 Ecologies of Vulnerability and Ecological Justice ............................... 174

8.4 Transformations of the Political in the Information Age:
Public and Private .................................................................................. 177

8.4.1 Standard View: The Public Sphere as a Sphere of Invulnerability ........ 177

8.4.2 Alternative: Bio-politics and Info-politics.
Bloody Democracy and Silicon Voices ................................................. 179

References ................................................................................................. 181

9 Normative Aesthetics of Vulnerability: The Art of Coping with Vulnerability ...................................................................... 183

9.1 Introduction .............................................................................................. 183

9.2 The Idea of a Normative Aesthetics of Vulnerability:
From Representations of Vulnerability to the Art of Coping with Vulnerability .............................................................. 184

9.2.1 Fate, Technology, and Modernity:
From Greek Tragedy to Cyberpunk ......................................................... 190

9.2.2 Space and Vulnerability: Anti-vulnerability Architectures and Designs ........................................................ 192

9.2.3 Uncanny Mirrors: Animals, Cyborgs, and Robots ............................ 195

9.3 Beyond the Human: Environmental and Ecological Vulnerability .............................................................. 197
