

Contents

Part I Radiological Safety and Quality

- 1 Radiological Safety and Quality: Paradigms in Leadership and Innovation** 3
Lawrence Lau and Kwan-Hoong Ng
- 2 How Radiation Protection Influences Quality in Radiology** 35
Eliseo Vano, Kwan-Hoong Ng, and Lawrence Lau
- 3 Dose Assessment in the Management of Patient Protection in Diagnostic and Interventional Radiology** 55
Paul C. Shrimpton and Kwan-Hoong Ng
- 4 Monitoring of Medical Radiation Exposure for Individuals** 69
Donald P. Frush, Richard Morin, and Madan M. Rehani
- 5 UNSCEAR: Analysing Population Survey Data for Collaborative Development of Evidence-Based Radiation Protection Policies** 85
F. Shannoun and M. Crick

Part II Procedure Justification, Protection Optimization, and Error Reduction

- 6 National, Regional and Global Radiology and Medical Imaging Referral Guidelines: Issues and Opportunities** 105
Lawrence Lau
- 7 Use of Imaging Appropriateness Criteria for Decision Support During Radiology Order Entry: The MGH Experience** 123
Chris L. Siström, Jeffrey B. Weilburg, Daniel I. Rosenthal, Keith J. Dreyer, and James H. Thrall

8	Use of Referral Guidelines as a Justification Tool: National Perspective	143
	Osnat Luxenburg, Esti Shelly, and Michal Margalit	
9	Team Approach to Optimize Radiology Techniques	161
	Robert George, Lawrence Lau, and Kwan-Hoong Ng	
10	Advances in Technological Design to Optimize Exposure and Improve Image Quality	177
	Daniel F. Gutierrez and Habib Zaidi	
11	System for Reporting and Analysing Incidents	203
	Catherine Mandel and William Runciman	
Part III Infrastructure Improvements		
12	Promoting Public Awareness and Communicating Radiation Safety	225
	Theocharis Berris and Madan M. Rehani	
13	Sustaining Praxis: Quality Assurance of Education and Training Programmes of the IAEA's Division of Human Health	241
	Soveacha Ros, Thomas N. B. Pascual, and Rethy K. Chhem	
14	Professional and Regulatory Collaborations to Ensure Competency	251
	Lizbeth M. Kenny	
15	Safety and Radiation Protection Culture	263
	Kelly Classic, Bernard Le Guen, Kenneth Kase, and Richard Vetter	
16	Improving Quality Through Lean Process Improvement: The Example of Clinical Decision Support	279
	Lucy Glenn and C. Craig Blackmore	
17	Clinical Audit and Practice Accreditation	291
	Hannu Järvinen and Pamela Wilcox	
18	The International Basic Safety Standards and Their Application in Medical Imaging	307
	John Le Heron and Cari Borrás	
19	International Clinical Teleradiology: Potential Risks and Safeguards	323
	Adrian K. Dixon and Arl Van Moore Jr.	

**Part IV Global, Regional and National Challenges,
Actions and Opportunities**

20 Leadership and Innovations to Improve Quality Imaging and Radiation Safety in Africa	339
Michael G. Kawooya, Azza Hammou, Hassen A. Gharbi, and Lawrence Lau	
21 Leadership and Innovations to Improve Radiology Quality and Radiation Safety in China: Regional, National and Global Perspectives	361
Bin Song, Wentao Wu, Xiaoyuan Feng, and Lawrence Lau	
22 Status of Medical Diagnostic Radiation Safety in Korea	379
Dong-Wook Sung and Byung Ihn Choi	
23 Euratom Initiatives and Perspective on Advancing Radiation Protection in Radiology	391
Georgi Simeonov, Remigiusz Baranczyk, and Augustin Janssens	
24 Bridging the Radiological Healthcare Divide with Social Entrepreneurship	403
Evelyn Lai-Ming Ho	
25 From Volume to Outcomes: The Evolution of Pay for Performance in Medical Imaging	415
Richard Duszak Jr. and Ezequiel Silva III	
26 Global System-Based Quality Improvement in Radiation Medicine and Medical Imaging	433
Lawrence Lau	
About the Editors	453
Biography	455
