

Contents

1	Concept of Bioelectronic Nose	1
	Jong Hyun Lim and Tai Hyun Park	
2	Mechanisms of Olfaction	23
	Ruchira Sharma and Hiroaki Matsunami	
3	Olfactory Receptor Proteins	47
	Guenhaël Sanz, Jean-François Gibrat and Edith Pajot-Augy	
4	Odorant-Receptor Interaction	69
	Xubo Su, Hiroaki Matsunami and Hanyi Zhuang	
5	Cell-Based System for Identification of Olfactory Receptors	83
	Peter Yi Dong, Naihua Natalie Gong and Hiroaki Matsunami	
6	Neurobiology and Cultivation of Olfactory Receptor Neurons on a Chip	97
	Cheil Moon, Samhwan Kim, Jisub Bae and Gabriele V. Ronnett	
7	Production of Olfactory Receptors Using Commercial <i>E. coli</i> Cell-free Systems	115
	Karolina Corin, Xiaoqiang Wang and Shuguang Zhang	
8	Production of Olfactory Receptors and Nanosomes Using Yeast System for Bioelectronic Nose	127
	Marie-Annick Persuy, Guenhaël Sanz, Aurélie Dewaele, Christine Baly and Edith Pajot-Augy	
9	Production of Olfactory Receptors and Nanovesicles Using Heterologous Cell Systems for Bioelectronic Nose	145
	Hyun Seok Song and Tai Hyun Park	

10 Biosensors Based on Odorant Binding Proteins	171
Krishna C. Persaud and Elena Tuccori	
11 Optical Methods in Studies of Olfactory System	191
Sang Hun Lee, Seung-min Park and Luke P. Lee	
12 Carbon Nanotube-Based Sensor Platform for Bioelectronic Nose	221
Juhun Park, Hye Jun Jin, Hyungwoo Lee, Shashank Shekhar, Daesan Kim and Seunghun Hong	
13 Conducting Polymer Nanomaterial-Based Sensor Platform for Bioelectronic Nose	243
Oh Seok Kwon and Jyongsik Jang	
14 Applications and Perspectives of Bioelectronic Nose	263
Hwi Jin Ko, Jong Hyun Lim, Eun Hae Oh and Tai Hyun Park	
Index	285

Bioelectronic Nose

Integration of Biotechnology and Nanotechnology

Park, T.H. (Ed.)

2014, XI, 290 p. 70 illus. in color., Hardcover

ISBN: 978-94-017-8612-6
