## Contents

1. **p53 and Hereditary Cancer** ................................................................. 1  
   Diana Merino and David Malkin

2. **Alterations of p63 and p73 in Human Cancers** ............................ 17  
   Kazushi Inoue and Elizabeth A. Fry

3. **Cooperation of p53 Mutations with Other Oncogenic Alterations in Cancer** .......................... 41  
   Javier E. Girardini, Dawid Walerych, and Giannino Del Sal

4. **p53: Its Mutations and Their Impact on Transcription** .................. 71  
   Catherine Vaughan, Isabella Pearsall, Andrew Yeudall,  
   Swati Palit Deb, and Sumitra Deb

5. **Transcriptional Regulation by Mutant p53 and Oncogenesis** ........ 91  
   Raffaela Santoro, Sabrina Strano, and Giovanni Blandino

6. **p53 Mutation in the Genesis of Metastasis** .................................. 105  
   W.A. Yeudall

7. **Structural Studies on Mechanisms to Activate Mutant p53** ........... 119  
   Hector Viadiu, Gilberto Fronza, and Alberto Inga

8. **Mutant p53 and the Response to Chemotherapy and Radiation** ...... 133  
   Leila Tchelebi, Hani Ashamalla, and Paul R. Graves

   Yaara Levav-Cohen, Zehavit Goldberg, Kah Hin Tan,  
   Osnat Alsheich-Bartok, Valentina Zuckerman,  
   Sue Haupt, and Ygal Haupt

10. **Mechanisms of Mutant p53 Stabilization in Cancer** .................... 187  
    Rebecca A. Frum and Steven R. Grossman
11 Crosstalk Between Mdm2, p53 and HIF1-α: Distinct Responses to Oxygen Stress and Implications for Tumour Hypoxia .......................... 199
E. Douglas Robertson, Kostyantyn Semenchenko, and Bohdan Wasylyk

12 MDM2 Overexpression, Activation of Signaling Networks, and Cell Proliferation .......................................................... 215
Swati Palit Deb, Shilpa Singh, and Sumitra Deb

13 p53-Independent Effects of Mdm2 ............................................... 235
Stephen Bohlman and James J. Manfredi

14 Splice Variants of MDM2 in Oncogenesis ..................................... 247
Melissa Rosso, Danielle E. Okoro, and Jill Bargonetti

15 Mdm2 and MdmX Involvement in Human Cancer ......................... 263
Steven J. Berberich

16 Targeting p53-MDM2-MDMX Loop for Cancer Therapy ............... 281
Qi Zhang, Shelya X. Zeng, and Hua Lu

17 Involvement of p53 in the Repair of DNA Double Strand Breaks: Multifaceted Roles of p53 in Homologous Recombination Repair (HRR) and Non-Homologous End Joining (NHEJ) ............ 321
Vijay Menon and Lawrence Povirk

18 The Role of Tumor Suppressor p53 in the Antioxidant Defense and Metabolism ................................................................. 337
Andrei V. Budanov

19 Lung Cancer Stem Cells, p53 Mutations and MDM2 ....................... 359
Venkat Sundar Gadepalli, Swati Palit Deb, Sumitra Deb, and Raj R. Rao

Index .............................................................................................. 371
Mutant p53 and MDM2 in Cancer
Deb, S.P.; Deb, S. (Eds.)
2014, VIII, 373 p. 38 illus., 36 illus. in color., Hardcover
ISBN: 978-94-017-9210-3
