## Contents

1 Overview ................................................................. 1  
   Xiaoya Chen, Xiaoquan Qi and Li-Xin Duan

2 Gas Chromatography Mass Spectrometry Coupling Techniques ....................................... 25  
   Zhen Xue, Li-Xin Duan and Xiaoquan Qi

3 LC-MS in Plant Metabolomics .......................... 45  
   Guo-dong Wang

4 Nuclear Magnetic Resonance Techniques ...................... 63  
   Fu-Hua Hao, Wen-Xin Xu and Yulan Wang

5 Multivariate Analysis of Metabolomics Data .................. 105  
   Jun-Fang Wu and Yulan Wang

6 Metabolomics Data Processing Based on Mass Spectrometry Platforms ..................................... 123  
   Tian-lu Chen and Rui Dai

7 Metabolite Qualitative Methods and the Introduction of Metabolomics Database .......................... 171  
   Li-Xin Duan and Xiaoquan Qi

8 Plant Metabolic Network ........................................ 195  
   Shan Lu

9 Applications of LC-MS in Plant Metabolomics ............... 213  
   Guo-dong Wang
10 Application of Metabolomics in the Identification of Chinese Herbal Medicine ........................................ 227
   Li-Xin Duan, Xiaoquan Qi, Min Chen and Lu-qi Huang

11 Metabolomics-Based Studies on Artemisinin Biosynthesis ............ 245
   Hong Wang, Hua-Hong Wang, Chen-Fei Ma, Ben-Ye Liu,
   Guo-Wang Xu and He-Chun Ye

12 NMR-Based Metabolomic Methods and Applications ............... 275
   Chao-Ni Xiao and Yulan Wang

13 Metabolomics Research of Quantitative Disease Resistance Against Barley Leaf Rust ......................... 303
   Li-Juan Wang and Xiaoquan Qi
Plant Metabolomics
Methods and Applications
Qi, X.; Chen, X.; Wang, Y. (Eds.)
2015, VIII, 319 p. 144 illus., 73 illus. in color., Hardcover
ISBN: 978-94-017-9290-5
