1 Introduction: A Surfeit of Lampreys	1
Margaret F. Docker, John B. Hume and Benjamin J. Clemens	
1.1 Introduction	2
1.1.1 Are Lampreys the Oldest Living Group of Vertebrates or One of the Oldest Living Groups of Vertebrates?.....	3
1.1.2 Are Lampreys Fishes?	5
1.2 The Cultural, Ecological, and General Scientific Value of Lampreys	6
1.2.1 Historical and Cultural Significance of Lampreys	6
1.2.2 Ecological Significance of Lampreys.....	8
1.2.3 Scientific Significance of Lampreys	10
1.2.3.1 Research Trends.....	10
1.2.3.2 Evolutionary Significance of Lampreys	13
1.2.3.3 Use of Lampreys in Biomedical and Biomimetic Studies.....	18
1.3 Introduction to <i>Lampreys: Biology, Conservation and Control</i>	22
1.3.1 Focus of the Book.....	22
1.3.2 Nomenclatural Conventions	22
References.....	26
2 The Taxonomy, Phylogeny, and Distribution of Lampreys	35
Ian C. Potter, Howard S. Gill, Claude B. Renaud and Dalal Haoucher	
2.1 Introduction.....	36
2.2 Life Cycles and “Paired Species”	43
2.3 Taxonomic Characters.....	48
2.4 Current Taxonomic Schemes	50
2.4.1 Interrelationships Among Parasitic Taxa	53
2.4.2 Relationships of Non-Parasitic Species.....	56
2.5 Distribution	58
2.6 Conclusions and Future Directions	63

Appendix 2.1 List of Lamprey Families, Genera and Species and Their Authorities..... 65

References 66

3 The Ecology of Larval and Metamorphosing Lampreys 75
 Heather A. Dawson, Bernardo R. Quintella, Pedro R. Almeida, Andrew J. Treble and Jeffrey C. Jolley

3.1 Introduction 76

3.2 Habitat 77

 3.2.1 Microenvironmental Factors as Indicators of Ammocoete Habitat 78

 3.2.1.1 Substrate Size and Depth 78

 3.2.1.2 Water Velocity 80

 3.2.1.3 Organic Matter in the Sediment 80

 3.2.1.4 Patchiness at Small Spatial Scales 83

 3.2.2 Macroenvironmental Factors as Indicators of Ammocoete Habitat 84

 3.2.2.1 Gradient and Other Geomorphic Variables 84

 3.2.2.2 Water Depth..... 86

 3.2.2.3 Riparian Canopy 88

 3.2.2.4 Water Chemistry..... 89

 3.2.2.5 Thermal Requirements 90

 3.2.2.6 Oxygen Requirements..... 90

 3.2.2.7 Proximity to Spawning Habitat..... 91

 3.2.3 Habitat Preferences Related to Larval Size and Metamorphosis 92

 3.2.4 Macroenvironmental Statolith Signature 95

3.3 Feeding 96

3.4 Lamprey Demographics 98

 3.4.1 Density 98

 3.4.2 Abundance..... 100

 3.4.3 Sex Ratios 101

3.5 Movement 103

3.6 Mortality..... 105

 3.6.1 Mortality Factors in Different Life Stages..... 105

 3.6.2 Mortality Ascribed to Pollution and Water Quality 108

3.7 Duration of Larval Life and Growth Rates 109

 3.7.1 Duration of Larval Life 109

 3.7.2 Growth Rate of Ammocoetes..... 109

 3.7.3 Reliable Aging Methods Required to Estimate Duration of Larval Life and Growth..... 114

3.8 Onset of Metamorphosis 115

 3.8.1 Size of Metamorphosing Lampreys 116

 3.8.2 Seasonal Incidence and Duration of Metamorphosis..... 118

- 3.9 Downstream Migration 119
 - 3.9.1 Environmental Triggers and Timing
of Downstream Migration..... 119
 - 3.9.2 Salinity Tolerance..... 121
- 3.10 Potential Compensatory Effects of Sea Lamprey Control 122
- 3.11 Conclusions 124
- References 125

- 4 Lamprey Metamorphosis 139**
 - Richard G. Manzon, John H. Youson and John A. Holmes
 - 4.1 Introduction 140
 - 4.2 The Significance of Metamorphosis 140
 - 4.2.1 Life Cycle and Life History Types 141
 - 4.2.2 Significance of Metamorphosis in Relation to
Reproduction and Evolution..... 142
 - 4.3 External Morphology and Staging 144
 - 4.4 Regulation of Metamorphosis 148
 - 4.4.1 Environmental Factors in Metamorphosis..... 148
 - 4.4.1.1 Temperature..... 148
 - 4.4.1.2 Density 156
 - 4.4.1.3 Photoperiod 157
 - 4.4.2 Endogenous Factors in Metamorphosis..... 158
 - 4.4.2.1 Size, Condition Factor, and Lipid
Accumulation 158
 - 4.4.2.2 Endocrine Factors 162
 - 4.5 Internal Changes: Morphology, Physiology, Biochemistry
and Molecular Biology of Metamorphosis 175
 - 4.5.1 Endocrine Systems 175
 - 4.5.1.1 Hypothalamic-Pituitary (HP) Axis..... 175
 - 4.5.1.2 Thyroid Axis..... 176
 - 4.5.1.3 Entero-Pancreatic Endocrine System..... 177
 - 4.5.2 Digestive System 181
 - 4.5.2.1 Alimentary Canal 181
 - 4.5.2.2 Liver 184
 - 4.5.3 Renal System 186
 - 4.5.4 Respiratory System..... 187
 - 4.5.5 Skeletal System 189
 - 4.5.5.1 Axial Skeleton 189
 - 4.5.5.2 Cranial Skeleton 190
 - 4.5.6 Other Biochemical or Physiological Changes 193
 - 4.5.6.1 Blood Protein Profiles 193
 - 4.6 Conclusions 195
 - References 199

5 Lamprey Spawning Migration..... 215
 Mary L. Moser, Pedro R. Almeida, Paul S. Kemp
 and Peter W. Sorensen

5.1 Introduction..... 216

5.2 Timing and Extent of Spawning Migration..... 217

5.2.1 Timing and Migration Distance: Anadromous
 Lampreys 218

5.2.2 Timing and Migration Distance: Landlocked Sea
 Lamprey..... 222

5.2.3 Timing and Migration Distance: Potamodromous
 Lampreys 222

5.2.3.1 Freshwater Parasitic Species..... 223

5.2.3.2 Freshwater Non-Parasitic Species..... 224

5.3 Physiology of Migrants..... 225

5.3.1 Preparation for Freshwater Migration 226

5.3.2 Physiology of Freshwater Migrants..... 226

5.3.3 Swimming Performance and Energetics..... 229

5.4 Sensory Systems..... 234

5.4.1 Olfaction and its Role in Orientation..... 235

5.4.1.1 Olfaction..... 235

5.4.1.2 Orientation 236

5.5 Behavior of Upstream Migrants..... 241

5.5.1 Nocturnal Migratory Behavior 241

5.5.2 Environmental Triggers Initiating Migratory
 Behavior 243

5.5.3 Behavioral Responses to Barriers..... 245

5.5.4 Effect of Chemosterilization on Migration Behavior 247

5.6 Management Implications..... 248

5.6.1 Pheromones 248

5.6.2 Passage Performance..... 249

5.7 Conclusions..... 251

References..... 252

6 Reproductive Ecology of Lampreys 265
 Nicholas S. Johnson, Tyler J. Buchinger and Weiming Li

6.1 Introduction..... 266

6.2 Migration and Environmental Control of Spawning Behavior..... 267

6.2.1 Migration to Spawning Habitat 267

6.2.2 Environmental Control of Adult Lamprey Behavior..... 268

6.3 Spawning Habitat and Nest Construction 275

6.3.1 Size-Assorted Spawning Habitat..... 275

6.3.2 Alternative Spawning Habitats..... 278

6.3.3 Nest Construction, Size, and Function 279

6.3.3.1 Nest Construction..... 279

6.3.3.2 Nest Size 281

6.3.3.3 Utility of Nest Physical Characteristics 281

6.4	Mating Systems, Sex Ratios, and the Spawning Act	282
6.4.1	Mating Systems	282
6.4.2	Operational Sex Ratio.....	283
6.4.3	The Spawning Act	284
6.4.3.1	General Spawning Description	284
6.4.3.2	Alternative Spawning Behaviors.....	285
6.4.3.3	Heterospecific Mating Associations.....	287
6.4.3.4	Fertilization of Eggs.....	288
6.4.3.5	Potential for Hybridization of Paired Species.....	288
6.5	Secondary Sexual Characteristics	289
6.5.1	Male.....	289
6.5.2	Female	290
6.6	Sensory Modalities that Facilitate Mating	290
6.6.1	Pheromones	291
6.6.1.1	Sea Lamprey Mating Pheromones	291
6.6.1.2	Mating Pheromones in Other Lamprey Species	292
6.6.2	Additional Sensory Modalities used During Reproduction.....	293
6.6.2.1	Tactile.....	293
6.6.2.2	Electroreception	294
6.6.2.3	Vision	294
6.6.3	Acoustic	294
6.7	Senescence	295
6.8	Conclusion.....	295
