Contents

Part I  Zoonoses in Food-Chain Animals with Public Health Relevance

1  Important Public Health Zoonoses Through Cattle ................................. 3
   Mo D. Salman and Katie Steneroden

2  Zoonotic Diseases of Swine: Food-borne and Occupational
   Aspects of Infection ........................................................................... 23
   Dipendra Thapaliya, Blake M. Hanson, Ashley Kates,
   Cassandra A. Klostermann, Rajeshwari Nair, Shylo E. Wardyn
   and Tara C. Smith

3  Small Ruminants and Zoonotic Infections: Live or Dead—
   Direct or Indirect ........................................................................... 69
   Snorre Stuen

4  Zoonoses with Public Health Relevance in Poultry .............................. 103
   Hafez M. Hafez and Rüdiger Hauck

5  Bacterial Pathogens Associated with Aquaculture Products .............. 125
   Iddya Karunasagar

6  Campylobacter: Animal Reservoirs, Human Infections,
   and Options for Control .................................................................. 159
   Jaap A. Wagenaar, Diane G. Newell, Ruwani S. Kalupahana
   and Lapo Mughini-Gras

7  The zoonotic agent Salmonella ........................................................... 179
   Wolfgang Rabsch, Angelika Fruth, Sandra Simon, Istvan Szabo
   and Burkhard Malorny

8  Enteropathogenic Yersinia spp. ............................................................ 213
   Maria Fredriksson-Ahomaa
9 Enterohemorrhagic E. coli (EHEC): Environmental-Vehicle-Human Interface ................................................................. 235
   Helge Karch, Shana R. Leopold, Annelene Kossow,
   Alexander Mellmann, Robin Köck and Andreas Bauwens

10 Listeriosis: The Dark Side of Refrigeration and Ensiling .......... 249
   Franz Allerberger, Zoltán Bagó, Steliana Huhulescu
   and Ariane Pietzka

11 Brucellosis: It is not only Malta! .................................................. 287
   Mile Bosilkovski

12 Q Fever (Coxiella burnetii): A Blueprint for Outbreaks ............. 317
   Hendrik-Jan Roest and Dimitrios Frangoulidis

13 Cysticercosis: A Preventable, but Embarrassing Neglected
   Disease Still Prevalent in Non-Developed Countries ................. 335
   Agnès Fleury, Edda Sciutto, Aline S Aluja and Arturo Carpio

14 Toxoplasmosis: A Widespread Zoonosis Diversely Affecting
   Humans and Animals .................................................................. 355
   Florence Robert-Gangneux, Dominique Aubert and Isabelle Villena

Part II Zoonoses in food-chain and domestic animals: Focus
   on antibiotic resistance

15 Extended-Spectrum β-Lactamase and AmpC β-Lactamase-
   Producing Bacteria in Livestock Animals .................................... 379
   Christa Ewers

16 Zoonotic Transmission of Antimicrobial Resistant
   Enterococci: A Threat to Public Health or an
   Overemphasised Risk? ................................................................ 407
   Valeria Bortolaia and Luca Guardabassi

17 Infections With Multidrug-Resistant Bacteria—Has the
   Post-Antibiotic Era Arrived in Companion Animals? .............. 433
   Lothar H. Wieler, Birgit Walther, Szilvia Vincze, Sebastian Guenther
   and Antina Lübke-Becker

Part III Important zoonoses in non-food animals

18 Influenza from a One Health Perspective: Infection by a
   Highly Versatile Virus ................................................................ 455
   Leslie A. Reperant and Albert D.M.E. Osterhaus

30 Hantaviruses—Infections, Epidemiology and Hosts 749
   Sandra S. Essbauer and Ellen Krautkrämer

31 Human African Trypanosomiasis: The Smoldering Scourge
   of Africa 785
   August Stich

Part VI Waterborne Zoonoses

32 Waterborne Zoonoses: Cryptosporidium and
   Cryptosporidiosis: A Small Parasite that Makes a Big Splash 803
   Lucy J. Robertson

33 Giardiasis: A Zoonotic Infection or Not? 821
   Simone M. Cacciò

34 Leptospirosis and Leptospires—The Silent Assassins 849
   Scott B. Craig, Sarah J. Wynwood, Trudi A. Collet, Steven L. Weier
   and David B. McKay

35 Glanders & Melioidosis: A Zoonosis and a Sapronosis—
   “Same Same, but Different” 859
   Caoimhe Nic Fhogaertaigh and David A. B. Dance

Part VII Emerging and Re-emerging Zoonoses

36 Zoonotic Aspects of Tuberculosis: Disease of the Past or
   Re-emerging Zoonosis? 891
   Anita Luise Michel

37 Hepatitis E: The Commonest Viral Zoonosis Worldwide? 915
   Harry R Dalton, Jacques Izopet, Malcolm Banks, Richard Bendall
   and Nassim Kamar

38 West Nile Virus: From Africa to Europe, America, and Beyond 937
   Lyle R. Petersen

39 Crimean–Congo Haemorrhagic Fever Virus, an Emerging
   and Re-Emerging Pathogen 977
   Felicity Jane Burt and Dominique Goedhals

40 A Review of Hendra Virus and Nipah Virus Infections in
   Man and Other Animals 997
   Kim Halpin and Paul Rota
Part VIII  Nature is the Greatest Bioterrorist: Zoonotic Pathogens as Bioterroristic Agents

41 Dangerous Viral Pathogens of Animal Origin: Risk and Biosecurity .......................................................................................................................... 1015
Jean-Paul Gonzalez and Gavin Macgregor-Skinner

42 Bacterial Zoonotic Pathogens as Bioterroristic Agents ...................... 1063
Stefan Hörmansdorfer

Part IX  Controversial or Non-resolved Issues

43 Bovine Paratuberculosis and Human Crohn’s Disease—Is There a Zoonotic Linkage? .......................................................... 1079
Erdmute Neuendorf and Nikolaus Ackermann

44 Clostridia: Clostridium botulinum and Clostridium difficile: Ubiquitous Spore-Forming Bacteria as New Zoonotic Pathogens? .... 1097
Ute Messelhäußer

Part X  Economic and Ecological Aspects of Zoonoses

45 Economic Aspects of Zoonoses: Impact of Zoonoses on the Food Industry .................................................................................. 1107
Sara Babo Martins, Barbara Häslcr and Jonathan Rushton

46 Zoonoses of Poverty: Measuring and Managing the Multiple Burdens of Zoonoses and Poverty .................................................. 1127
Delia Grace

Index ................................................................................................................ 1139
Zoonoses - Infections Affecting Humans and Animals
Focus on Public Health Aspects
Sing, A. (Ed.)
