Part I Pharmacology

1 Overview of Modern Research on Danshen ............. 3
   Guanhua Du and Juntian Zhang
   1.1 General Situation of Application and Research
       of Danshen  .................................... 3
   1.2 The Research on the Chemical Components
       of Danshen  ..................................... 4
       1.2.1 Overview  .................................... 4
       1.2.2 Research on Liposoluble Components
           of Danshen  .................................... 5
       1.2.3 Research on the Hydrosoluble Chemical
           Components of Danshen  ......................... 5
       1.2.4 Research Methods for the Chemical
           Components  .................................... 6
   1.3 Research on the Active Components of Danshen
       and Their Pharmacological Actions .................. 6
       1.3.1 Pharmacological Actions
           of the Liposoluble Components of Danshen . . 6
       1.3.2 Pharmacological Actions of the Hydrosoluble
           Components of Danshen  ........................ 7
   1.4 Development of the Preparations of Danshen ........ 9
       1.4.1 Danshen Preparations Used for Research
           Purposes  ........................................ 9
       1.4.2 Clinically Used Danshen Preparations .......... 10
   1.5 Research on the Pharmacological Actions
       of Danshen  ..................................... 10
       1.5.1 Circulatory System  ........................... 10
       1.5.2 Liver Diseases  ............................... 11
       1.5.3 Kidney Diseases  .............................. 12
       1.5.4 Respiratory Diseases  ........................ 12
       1.5.5 Cancers  ..................................... 12
       1.5.6 Effects on Immunologic Functions ............ 13
       1.5.7 Others  ..................................... 13
   1.6 Clinical Applications of Danshen .................... 13
       1.6.1 Treatment of Cardiovascular
           and cerebrovascular Diseases .................... 13
       1.6.2 Treatment of Hepatic and Renal Diseases ...... 14
1.6.3 Treatment of Respiratory Diseases . . . . . . . . . . 14
1.6.4 Actions on Tumors . . . . . . . . . . . . . . . . . . . . 14
1.6.5 Others . . . . . . . . . . . . . . . . . . . . . . . . . . . 14
1.6.6 Adverse Reactions of Danshen . . . . . . . . . . . 15
1.7 Summary . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 15

References . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 15

2 The Pharmacological Actions of Danshen ThemeD
Formulas . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 19
Zhihao Jiang, Yi Wang, Xiumei Gao, Hongcai Shang
and Xiaoying Wang
2.1 Composite Danshen Dropping Pill . . . . . . . . . . . . . . 19
   2.1.1 Compatibility Studies on Compound
   Danshen Dropping Pill (CDDP) . . . . . . . . . . . 19
2.1.2 Pharmacological Research . . . . . . . . . . . . . . . 22
2.2 The Pharmacological Functions of Other
   Danshen-Containing Prescriptions . . . . . . . . . . . . . 25
   2.2.1 Composite Danshen Injection . . . . . . . . . . . . 25
   2.2.2 Dan-Qi Hemiplegia Capsules . . . . . . . . . . . . 29
   2.2.3 Compound Radix Codonopsis Tablet . . . . . . . 29
   2.2.4 Xinkening Capsules . . . . . . . . . . . . . . . . . . . 32
   2.2.5 Fufang Xueshuantong Capsule
   (Copound Xue-Shuantong Capsule) . . . . . . . . . 33
   2.2.6 Guanxinning Injection . . . . . . . . . . . . . . . . 35
   2.2.7 Bushenyishou Capsule . . . . . . . . . . . . . . . 36
   2.2.8 Huganning Tablet . . . . . . . . . . . . . . . . . . . 39
   2.2.9 Xinmaitong Tablet . . . . . . . . . . . . . . . . . . . 39
   2.2.10 Ningxinanshen Capsule . . . . . . . . . . . . . . . 41
   2.2.11 Ningshenbuxin Tablet . . . . . . . . . . . . . . . . 41
   2.2.12 Yangxinshi Tablet . . . . . . . . . . . . . . . . . . . 42
   2.2.13 Rukuaixin Tablet . . . . . . . . . . . . . . . . . . . 44

References . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 46

3 Active Constituents in Danshen and Their
Pharmacological Actions . . . . . . . . . . . . . . . . . . . . . . . . . 49
Ailin Liu, Yitao Wang, Guanhua Du, Xiuying Yang,
Juntian Zhang, Minke Tang, Ji Chen, Yonghong Chen,
Zhiwei Qu, Jie Wang, Xiaoying Wang, Yan Sun,
Ping Chen and Chuan Li
3.1 Major Constituents and Their Pharmacological
   Actions . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 49
   3.1.1 Liposoluble Constituents . . . . . . . . . . . . . . . 49
   3.1.2 Water-Soluble Constituents . . . . . . . . . . . . . 52
   3.1.3 Other Constituents . . . . . . . . . . . . . . . . . . . . 54
3.2 Pharmacological Actions of Tanshinones . . . . . . . . . . 55
   3.2.1 Overview of Studies on Tanshinones . . . . . . . 55
   3.2.2 Antibacterial Activity of Tanshinones . . . . . 57
   3.2.3 Anti-inflammatory Activity of Tanshinones . . 59
3.2.4  Estrogen-like Activity of Tanshinones ....... 59
3.2.5  Effect of Tanshinones on Diseases of Cardiovascular System. .............. 59

3.3  Effects of Salvianolic Acid on Myocardial Ischemia-Reperfusion Injury and Cardiac Muscle Cell ....................... 60
3.3.1  Protective Effect of Salvianolic Acid A in Rat Myocardial I/R Injury .............. 60
3.3.2  Effect of Salvianolic Acid A on In Vitro Cultured Myocardial Cells of Rats ........ 61

3.4  Studies on Treating Nervous Degenerative Diseases with Salvianolic Acid B. .................. 63
3.4.1  Effect of Salvianolic Acid B on Mitochondrial Injury and Nerve Cell Apoptosis Caused by Cerebral Ischemic Reperfusion .............. 64
3.4.2  Inhibitory Effect of Salvianolic Acid B on Aβ_{1-40} Fibrogenesis and Its Protective Effect on Mitochondrial Damage and Cell Apoptosis of PC12 Cells Caused by Aβ_{1-40} Self-aggregation .............. 65
3.4.3  Effect of Salvianolic Acid B on Neurogenesis in Rat Middle Cerebral Artery with Ischemic Reperfusion .............. 66
3.4.4  Prospects of the Study on Salvianolic Acid B .................. 70

3.5  Examples of the Effect of Salvianolic Acid on Focal Cerebral Ischemia .................. 72
3.5.1  Objective .................. 72
3.5.2  Experimental Materials .................. 72
3.5.3  Experimental Method .................. 72
3.5.4  Results .................. 74
3.5.5  Conclusion .................. 75

References .................. 75

4  Effects of Danshen on the Cardiovascular System .......... 79
Xiaoming Zhu, Lianhua Fang, Guanhua Du, Ran Zhang, Dongxia Wang, Jinglan Xu and Xiaoying Wang

4.1  The Protection of Danshen Over Heart .................. 79
4.1.1  Improving the Blood Supply of Ischemic Cardiac Muscle .................. 80
4.1.2  Improving the Energy Metabolism of Cardiac Muscle .................. 81
4.1.3  Inhibition of Myocardial Hypertrophy .................. 84
4.1.4  Anti-arrhythmia .................. 86
4.1.5  Treatment of Viral Myocarditis .................. 86
4.1.6  Summary .................. 87

4.2  The Effects of Danshen on Atherosclerosis .................. 87
4.2.1  Regulation of Lipid Metabolism .................. 87
4.2.2 Prevention of Lipid Peroxidation ........................................ 90
4.2.3 Improvement in Functional Disturbance of Blood Vessel Endothelium ........................................ 93
4.2.4 The Inhibition of the Expression of Adhesive Molecules and the Antagonism of the Adhesion Between Cells ........................................ 95
4.2.5 Inhibition of Vascular Smooth Muscle Cell Proliferation ........................................ 97
4.2.6 Regulation of Antithrombotic System, Inhibition of Thrombosis ........................................ 99
4.2.7 Calcium Antagonism ........................................ 102
4.2.8 Treatment of Coronary Heart Disease and Heart-Stroke ........................................ 103
4.2.9 Summary ........................................ 104

4.3 The Effects of Danshen on Hypertension and Its Risk Factors ........................................ 104

4.4 The Effects on Blood Vessel Endothelium and Smooth Muscle ........................................ 108
4.4.1 Danshen’s Protective Effect on Vascular Endothelial Cells ........................................ 108
4.4.2 The Effects of Danshen on the Proliferation and Migration of VSMC ........................................ 112
4.4.3 Summary ........................................ 115

4.5 The Molecular Mechanism of Danshen’s Protection on Myocardial Ischemia-Reperfusion Injuries ........................................ 115
4.5.1 The Scavenging of Free Radicals and Prevention of Lipid Peroxidation ........................................ 115
4.5.2 Protection of the Cell Membrane ........................................ 117
4.5.3 The Prevention of Calcium Overload in the Cells ........................................ 119
4.5.4 The Effects of Danshen on Post-ischemia-Reperfusion “No-Reflow” ........................................ 121
4.5.5 The Effects of Danshen on Myocardial Energy Metabolism ........................................ 122
4.5.6 The Effects of Danshen on the Apoptosis of Myocardial Cells and the Expression of Apoptosis Related Genes During Myocardial Ischemia-Reperfusion of Rats ........................................ 124

16.3.2 Quality Control of the Production Process of Dantonic™
16.3.3 The Application of Near-Infrared Spectroscopy in the Quality Control of Dantonic™ Production
16.4 Dantonic™ Quality Control Technique Based on Multivariant HPLC Fingerprinting
16.4.1 Acquisition of Multiple Chromatographic Fingerprints of Dantonic™
16.4.2 Authentication of Dantonic™ Multiple Chromatographic Fingerprints
16.4.3 Validation of Dantonic™ Multiple Chromatographic Fingerprints
16.4.4 Multiple Chromatographic Fingerprinting Calculation Based on Information Fusion
16.5 Method for Determining the Quality Uniformity of Compound Danshen Extract
16.5.1 Mixing Uniformity Method
16.5.2 Mixing Uniformity Method Based on Multiple Fingerprinting
16.5.3 Experiment Part
16.5.4 Results and Discussion
References

17 In Vivo Metabolism of Danshen and Its Preparations
Aihua Liu, Dean Guo, Jinlan Zhang and Jianghao Sun
17.1 Pharmacokinetics and In Vivo Metabolism of Total Salvianolic Acids
17.1.1 Pharmacokinetics Study of Total Salvianolic Acids
17.1.2 The Metabolites of Total Salvianolic Acids from Danshen in Rats
17.2 Pharmacokinetics and In Vivo Metabolism of Danshen Preparations
17.2.1 Preliminary Pharmacokinetic Study of Compound Danshen Tablet
17.2.2 Metabolic Fingerprinting of Danshen Injection
17.2.3 The Metabolites ofDanshen Injection in Rats After Intravenous Administration
17.3 The Metabolism of Monomer Tanshinone Components
17.3.1 In Vivo Pharmacokinetics of Tanshinone II_A in Rats
17.3.2 The Metabolites in Rat Bile After Intravenous Administration of 7 Tanshinones
