

# Contents

<b>Assessment and Rehabilitation of Industrial Building for the Production of Ammonium Nitrate Low Density</b> . . . . .	1
Mara Regina Pagliuso Rodrigues, Raphael Mairal and Osny Pellegrino Ferreira	
<b>Building Materials Capillary Rise Coefficient: Concepts, Determination and Parameters Involved</b> . . . . .	27
Nikos Karagiannis, Maria Karoglou, Asterios Bakolas and Antonia Moropoulou	
<b>Statistical Modelling of Service Life Prediction of Exterior Painted Surfaces</b> . . . . .	45
Ana Silva, Pedro L. Gaspar and Jorge de Brito	
<b>Corrosion Propagation Phase Studies on Finnish Reinforced Concrete Facades</b> . . . . .	75
Arto Köliö, Mari Honkanen and Jukka Lahdensivu	
<b>Biocementation as Rehabilitation Technique of Porous Materials</b> . . . . .	99
Rafaela Cardoso, Rita Pedreira, Sofia Duarte, Gabriel Monteiro, Hugo Borges and Inês Flores-Colen	
<b>Study of Pozzolanic Admixtures Effects in the Concretes Under Chemical Attack</b> . . . . .	121
Henrique Catuzzo, Giovanna Patricia Gava and Camila Salvi Malacarne	
<b>Durability of ETICS and Premixed One-Coat Renders in Natural Exposure Conditions</b> . . . . .	131
Luís Silva, Inês Flores-Colen, Nuno Vieira, Ana Barros Timmons and Pedro Sequeira	

**Photocatalytic TiO<sub>2</sub> Nano-Coating for Biofouling Prevention of Clay Façades . . . . . 159**  
Lorenzo Graziani, Enrico Quagliarini and Marco D’Orazio

**Rehabilitation of Concrete Industrial Building Facades Attacked by Acids. . . . . 177**  
Agnus Rogério Rosa, Antônio Neves de Carvalho Júnior, Eduardo Chahud and Luiz Antônio Melgaço Nunes Branco

**Pathologies—Incompatibility of Materials and Human Intervention in a Historic Building of Elvas . . . . . 193**  
Soheyl Sazedj, António Morais, M<sup>a</sup> Teresa Pinheiro-Alves and Rui Silva
