Contents

1 Introduction ........................................ 1
   Mei-Hung Chiu

Part I Overview of Science Education in Asia

2 Science Education Research in Mainland China .............. 17
   Lei Wang, Yujun Zhu, Yanxia Jiang, Rui Wei, Yao Zhou,
   Yuying Guo, Xin Wei, Wenyuan Yang and Enshan Liu

3 Science Education Research and Practice in Lebanon:
   Current Status, Challenges, and Future Prospects ............. 41
   Saouma BouJaoude and Fadi El-Hage

4 School Science Teaching and Learning in Macau: Problems
   and Challenges ........................................ 55
   Bing Wei

5 Science Education Research and Practice in Malaysia ...... 71
   Lilia Halim and T. Subahan Mohd Meerah

6 Historical Overview of Mongolian Science Education
   Development ........................................ 95
   Oyuntsetseg Nookoo

7 Commentary: Developments and Reforms in Science
   Education for Improving the Quality of Teaching
   and Research ........................................ 119
   David Treagust and Chi-Yan Tsui

8 Science Education Research in Oman: Opportunities, Trends,
   and Challenges ........................................ 129
   Sulaiman M. Al-Balushi
9 **Singapore Science Education** ............................ 155  
Kim Chwee Daniel Tan, Tang Wee Teo and Chew-Leng Poon

10 **Opportunities and Challenges for Science Education in Asia: Perspectives Based on the Taiwan Experience** ............................ 175  
Chorng-Jee Guo and Mei-Hung Chiu

11 **Science Education in Thailand: Moving Through Crisis to Opportunity** ............................ 197  
Chatree Faikhamta and Luecha Ladachart

12 **Commentary: What We Can Learn from Science Education in Asian Countries?** ............................ 215  
Jari Lavonen

### Part II Content Analysis of Science Education Research

13 **Impacts of Citations on Conceptual Change Articles Between 1982 and 2011: From International and Regional Perspectives** ............................ 225  
Mei-Hung Chiu, Jing-Wen Lin and Chin-Cheng Chou

14 **Overview of Science Education Research and Practice in Korea** ............................ 245  
Byung-Soon Choi and Aeran Choi

Sibel Erduran and Ebru Zeynep Mugaloglu

16 **Development of Chemistry Education Research (CER) in Turkey: A Comparison of CER Papers with International Research** ............................ 289  
Mustafa Sozbilir, Mustafa Akilli, M. Diyaddin Yasar and Hulya Dede

17 **Commentary: Who Sets Trends in Science Education? I Comment on Four Exemplary Book Chapters** ............................ 319  
Ilka Parchmann

### Part III Assessment and Curriculum

18 **School-Based Assessment of Science Students’ Practical Skills in Hong Kong** ............................ 325  
Derek Cheung

19 **Assessing Israeli Students’ Knowledge in Science—Policy and Practice** ............................ 347  
David Fortus
20 Didactics of Chemistry as a Science: History in Russia ................. 357
Sergey Teleshov and Denis Zhilin

21 Commentary: Assessment: The Pros and Cons
of this Necessary “Evil” .......................................................... 377
Norman G. Lederman

Part IV Innovative Technology in Science Education

22 Innovative Lesson Plans in Chemistry Education
for Broadening Sustainable Society ............................................. 385
Hiroki Fujii and Haruo Ogawa

23 Role of Open Educational Resources to Support School
Science Education in India ....................................................... 409
Sudhakar Agarkar

24 Adapting and Customizing Web-based Inquiry Science
Environments to Promote Taiwanese Students’ Learning
of Science .................................................................................. 443
Hsin-Yi Chang, Ying-Shao Hsu and Jung-Yi Hung

25 Technology-Enhanced Science Teaching and Learning:
Issues and Trends ................................................................. 461
Tzu Hua Wang and Kai Ti Yang

26 Commentary: Innovative Curriculum Materials:
Development, Pilot-Testing, and Scaling-Up ............................ 483
Xiufeng Liu

Part V Teacher Professional Development and Informal Science
Learning in Science Education

27 Professional Development of Science High School Teachers
in Israel .................................................................................... 491
Rachel Mamlok-Naaman, Dvora Katchevich and Avi Hofstein

28 How Have Japanese Rika (School Science) Teachers Traditionally
Formed Their Own Cultures and Improved Their Teaching
Competencies Through Research and Practice? ....................... 517
Tetsuo Isozaki

29 From Schools to Nature: Bridging Learning Environments
in Israel .................................................................................... 539
Tali Tal
30 Using Community Resources as Funds of Knowledge
to Promote Science Learning in Thailand .................. 553
Chanyah Dahsah and Chaninan Pruekpramool

31 Commentary: Transforming Science Education
in Cultural-Historical Context and the Role of Teacher
Professional Development ........................................ 569
Angela Calabrese Barton

Index ................................................................. 575
