Contents

Part I  In Vitro Regeneration

1  Plant Tissue Culture: A Journey from Research to Commercialization ................................................................. 3
Mohammad Anis and Naseem Ahmad

2  Selection of Elites and In Vitro Propagation of Selected High-Value Himalayan Medicinal Herbs for Sustainable Utilization and Conservation ........................................................................ 15
Shyamal K. Nandi, Lok Man S. Palni, Hemant Pandey, Bhuwan Chandra, and Mohammad Nadeem

3  In Vitro Approaches for Conservation and Sustainable Utilization of Podophyllum hexandrum and Picrorhiza kurroa: Endangered Medicinal Herbs of Western Himalaya ........................................ 45
Nisha Dhiman, Vanita Patial, and Amita Bhattacharya

4  Effect of Plant Growth Regulators and Additives on Indirect Organogenesis of Simarouba glauca DC ................................................................. 71
A.R. Lavanya, M. Muthukumar, S. Muthukrishnan, V. Kumaresan, T. Senthil Kumar, M. Vijaya Venkatesh, and M.V. Rao

5  Biotechnological Applications for Characterisation, Mass Production and Improvement of a Nonconventional Tree Legume [Parkia timoriana (DC.) Merr.] ........................................................................ 83
Robert Thangjam

6  A to Z on Banana Micropropagation and Field Practices ..................... 101
Norzulaani Khalid and Boon Chin Tan

7  In Vitro Plant Regeneration in Dainty Spur [Rhinacanthus nasutus (L.) Kurz.] by Organogenesis ................................. 119
T. Gouthaman, T. Senthil Kumar, A.S. Rao, and M.V. Rao

8  Application of Tissue Culture for Laburnum anagyroides Medik. Propagation ................................................................. 135
S.N. Timofeeva, L.A. Elkonin, O.I. Yudakova, and V.S. Tyrnov
9 Recent Advances in Asteraceae Tissue Culture
Jyothi Abraham and T. Dennis Thomas

Part II Tree Biotechnology

10 Plant Tissue Culture Approach for Cloning and Conservation of Some Important RET Medicinal Plants

11 Biotechnological Approaches for the Improvement of Eucalyptus
Diwakar Aggarwal, M. Sudhakara Reddy, and Anil Kumar

12 Biotechnology of Tropical Tree Crops
Yan Hong, Somika Bhatnagar, and Smitha Chandrasekharan

Part III Genetic Engineering

13 In Vitro Regeneration of Salt-Tolerant Plants
Remya Mohanraj

14 Plant Tissue Culture for In Vitro Mutagenesis, Large-Scale Propagation, and Genetic Transformation
Pratibha Misra and Syed Saema

15 Genetic Engineering for Insect Resistance in Economically Important Vegetable Crops
D.K. Srivastava, P. Kumar, S. Sharma, A. Gaur, and G. Gambhir

16 RNA Interference (RNAi) and Its Role in Crop Improvement: A Review
Amanpreet Kaur, Anil Kumar, and M. Sudhakara Reddy

17 In Vitro Selection of Disease-Resistant Plants
Srinath Rao and H. Sandhya

18 Role of Rol Genes: Potential Route to Manipulate Plants for Genetic Improvement
Sana Khan, Syed Saema, Suchitra Banerjee, and Laiq ur Rahman

Part IV Crop Improvement

19 Synthesis of Silver Nanoparticles from Plants and Their Applications
Asra Parveen and Srinath Rao

20 Biotechnological Approaches for the Improvement and Conservation of Alnus glutinosa (L.) Gaertner
Mª del Carmen San José, Laura V. Janeiro, Mª Teresa Martínez, Silvia Valladares, Mª José Cernadas, Raquel Montenegro, and Elena Corredoira
