Part I Background Knowledge

1 Discriminative Learning in Biometrics	3
1.1 Biometric Recognition	3
1.1.1 Ideal and Practical Biometric Trait	5
1.1.2 Representative Biometric Recognition Techniques	5
1.1.3 Multi-biometrics	8
1.2 Discriminative Learning	9
1.2.1 Support Vector Machine	9
1.2.2 Metric Learning	12
1.2.3 Sparse Representation-Based Classification	15
1.3 Summary	18
References	18

Part II Metric Learning and Sparse Representation-Based Classification

2 Metric Learning with Biometric Applications	23
2.1 Introduction	23
2.2 Support Vector Machines for Metric Learning	24
2.2.1 Positive Semidefinite Constrained Metric Learning (PCML)	24
2.2.2 Nonnegative-Coefficient Constrained Metric Learning (NCML)	29
2.2.3 Experimental Results	35
2.3 A Kernel Classification Framework for Metric Learning	36
2.3.1 Doublets and Triplets	36
2.3.2 A Family of Degree-2 Polynomial Kernels	39
2.3.3 Metric Learning Via Kernel Methods	40
2.3.4 Connections with LMNN, ITML, and LDML	42
2.3.5 Metric Learning Via SVM	45
2.3.6 Experimental Results	46

2.4	Summary	52
	Appendix 1: The Dual of PCML	52
	Appendix 2: The Dual of NCML	54
	Appendix 3: The Dual of the Subproblem of η in NCML	55
	Appendix 4: The Dual of the Doublet-SVM	56
	Appendix 5: The Dual of the Triplet-SVM	57
	References	58
3	Sparse Representation-Based Classification for Biometric Recognition	61
3.1	Introduction	61
3.2	Frameworks of Sparse Representation with Different Norm Minimizations	63
3.2.1	Sparse Representation with l_0 -Norm Minimization	63
3.2.2	Sparse Representation with l_1 -Norm Minimization	65
3.2.3	Sparse Representation with l_p -Norm ($0 < p < 1$) Minimization	65
3.2.4	Sparse Representation with l_2 -Norm and $l_{2,1}$ -Norm Minimization	66
3.3	Representation by Dictionary Learning	67
3.3.1	Supervised Dictionary Learning Algorithms	67
3.3.2	Semi-supervised Dictionary Learning Algorithms	68
3.3.3	Unsupervised Dictionary Learning Algorithms	68
3.4	Multiple Representations for Image Classification	69
3.4.1	To Obtain Novel Representations of Images	69
3.4.2	The Algorithm to Fuse Original and Virtual Images	69
3.4.3	The Analysis of the Algorithm	70
3.4.4	Insight into the Multiple Representations Algorithm	71
3.4.5	Experiments and Results	73
3.5	Summary	76
	References	76
Part III Discriminative Feature Extraction and Matching for Palmprint Authentication		
4	Discriminative Features for Palmprint Authentication	81
4.1	Introduction	81
4.2	Conventional Coding-Based Palmprint Identification Method	83
4.2.1	Filters	83
4.2.2	Coding Schemes	85
4.2.3	Distance Measure	88

- 4.3 Fuzzy C-Means-Based Palmprint Authentication 88
 - 4.3.1 Orientations Selection Problem in Competitive Code 88
 - 4.3.2 Fuzzy C-Means-Based Orientations Selection 90
 - 4.3.3 Experimental Results 93
- 4.4 Binary Orientation Co-occurrence Vector-Based Palmprint Authentication. 100
 - 4.4.1 Binary Orientation Co-occurrence Vector 100
 - 4.4.2 Experimental Results 104
- 4.5 Summary 109
- References. 109
- 5 Orientation Features and Distance Measure of Palmprint Authentication 113**
 - 5.1 Introduction 113
 - 5.2 Multiscale Competitive Code Palmprint Authentication 114
 - 5.2.1 Multiscale Palmprint Orientation Coding. 114
 - 5.2.2 Hierarchical Matching Scheme of Palmprint Images. 117
 - 5.2.3 Experimental Results and Discussion 119
 - 5.3 Integrating Multiscale Competitive Code and Sparse Representation for Palmprint Authentication. 120
 - 5.3.1 Sparse Palmprint Representation 120
 - 5.3.2 Sparse Multiscale Competitive Code for Palmprint Verification 124
 - 5.3.3 Experimental Results 127
 - 5.4 An Improved Distance Measure for Palmprint Authentication. 131
 - 5.4.1 Steerable Filter-Based Accurate Orientation Extraction 131
 - 5.4.2 Generalized Angular Distance 134
 - 5.4.3 Experimental Results and Discussion 138
 - 5.5 Summary 143
 - References. 144
- 6 Multifeature Palmprint Authentication 147**
 - 6.1 Introduction 147
 - 6.2 Multifeature Palmprint Authentication System 148
 - 6.3 Feature Extraction. 152
 - 6.3.1 Extraction of 2D Palmprint Features 152
 - 6.3.2 Extraction of 3D Palmprint Features 152
 - 6.4 Feature Matching 155
 - 6.4.1 Matching 2D Features 155
 - 6.4.2 Matching 3D Features 155

- 6.5 Experimental Results and Discussion 156
 - 6.5.1 Verification Experiments 157
 - 6.5.2 Spoof Experiments 160
- 6.6 Summary 162
- References. 163

Part IV Sparse Representation for Face Recognition

- 7 Discriminative Learning via Encouraging Virtual Face Images. 167**
 - 7.1 Introduction 167
 - 7.2 The Representation-Based Classification Method 168
 - 7.2.1 LRC 168
 - 7.2.2 Brief Introduction to Other RBCs 169
 - 7.2.3 Two-Step CRC (TSCRC) Face Recognition Algorithm 170
 - 7.3 Face Recognition Using ‘Symmetrical Face’ 171
 - 7.3.1 Symmetrical Face 171
 - 7.3.2 Using the Original and ‘Symmetrical Face’ Training Samples to Perform TSCRC Face Recognition 173
 - 7.3.3 Experimental Results 176
 - 7.4 Face Recognition Using Face Mirror Images 181
 - 7.4.1 Mirror Face 181
 - 7.4.2 Integrating the Original Face Image and Its Mirror Image for Face Recognition. 182
 - 7.4.3 Experimental Results 185
 - 7.5 Face Recognition Using Mean Faces 187
 - 7.5.1 Mean Face. 187
 - 7.5.2 Using the Original Face Image and Mean Face for Face Recognition 189
 - 7.5.3 Experimental Results 191
 - 7.6 Summary 195
 - References. 196
- 8 Sparse Representation-Based Methods for Face Recognition. 199**
 - 8.1 Introduction 199
 - 8.2 Inverse Sparse Representation for Face Recognition. 200
 - 8.2.1 Main Steps of the Method. 201
 - 8.2.2 Analysis of the Method. 202
 - 8.2.3 Experimental Results. 204
 - 8.3 Robust Sparse Representation by Incorporating the Original Training Sample and Its Reasonable Variant for Face Recognition 208
 - 8.3.1 Main Steps of the Method. 209
 - 8.3.2 Analysis of the Method. 210
 - 8.3.3 Experimental Results. 211

8.4 Summary 213
 References..... 213

Part V Multi-biometrics

9 Fusion Methodologies of Multiple Traits 217
 9.1 Introduction 217
 9.2 Fusion of the Left and Right Palmprint 218
 9.2.1 Correlation Between the Left and Right Palmprints. 218
 9.2.2 Main Steps of the Method. 218
 9.2.3 Analysis of the Proposed Method 222
 9.2.4 Experimental Results 223
 9.3 Joint Palmprint and Palmvein Verification 231
 9.3.1 Main Steps of the Method. 231
 9.3.2 Experimental Results 240
 9.4 Summary 246
 References..... 246

Part VI Discussion

10 Discussions and Future Work 251
 10.1 Metric Learning and Sparse Representation-Based
 Classification 251
 10.1.1 Metric Learning..... 251
 10.1.2 Sparse Representation-Based Classification 252
 10.2 Discriminative Learning for Palmprint Authentication 254
 10.3 Sparse Representation for Face Recognition Problem..... 255
 10.4 Multi-biometrics Methodologies 257
 References..... 258
