## Contents

1 Principles and Mechanism of MALDI-ToF-MS Analysis .......................... 1
   1.1 Background of MALDI-ToF-MS ................................ 1
   1.2 Applications of MALDI-ToF-MS .................................. 2
      1.2.1 Biochemistry ................................... 3
      1.2.2 Organic Chemistry .................................. 3
      1.2.3 Polymer Chemistry .............................. 3
      1.2.4 Microbiology .................................... 4
      1.2.5 Medicine ....................................... 4
      1.2.6 Nanotechnology ................................. 4
   1.3 Ionization Mechanism ...................................... 5
   1.4 Time of Flight Mass Spectrometry Mechanism ............................ 6
   1.5 Detection Modes ....................................... 6
      1.5.1 Linear Mode ................................... 6
      1.5.2 Reflection Mode ............................... 8
   1.6 Laser Range in MALDI .................................. 8
   1.7 Matrix Selection ....................................... 8
      1.7.1 Limitations of Matrices ........................... 9
   1.8 Ionizing Agent Selection ................................ 9
   1.9 Fundamentals of Sample Preparation for MALDI Analysis ............. 10
      1.9.1 Analyzable and Non-analyzable Polymers ............. 11
      1.9.2 Sample Preparation Techniques ..................... 11
   1.10 Mass Discrimination .................................... 13
      1.10.1 Alternative Solutions for Overcoming Mass Discrimination ................... 14
   1.11 MALDI Coupling ...................................... 14
      1.11.1 Ion-Mobility Time of Flight Mass Spectrometry (IMS-ToF-MS) .......... 14
      1.11.2 Fourier Transform Ion Cyclotron Resonance Mass Spectrometry (FT-ICR-MS) .... 15
2 Fundamentals of Biosensors and Application of MALDI-ToF-MS in Bio-diagnostic Domain

2.1 Biosensors

2.2 Synthesis of Poly Methyl Methacrylate-Co-Methacrylic Acid P(MMA-Co-MAA) and Preparation of the Biochips

2.3 Sample Preparation for MALDI Analysis

2.4 MALDI Data Interpretation

2.4.1 Different Species as the Possible Products of Soft Ionization

2.4.2 General Structure of P(MMA-Co-MAA)

2.4.3 MALDI Analysis of PMMA

2.4.4 MALDI Analysis of P(MMA-Co-MAA)

2.4.5 End-Group Analysis

2.5 Role of MALDI Analysis in Bio-sensing Application of P(MMA-Co-MAA)

References

3 Fundamentals of Tissue Engineering and Application of MALDI-ToF-MS in Analysis of the Scaffold Materials

3.1 Tissue Engineering

3.2 Synthesis of Poly Octanediol Citrate Acid-Sebacate Acid P(OCS) and Preparation of the Scaffold

3.3 MALDI Analysis of P(OCS) and Sample Preparation

3.4 MALDI Data Interpretation

3.5 Role of MALDI Analysis in Tissue Engineering Application of P(OCS)

References

4 Fundamentals of Drug Delivery Systems and Application of MALDI-ToF-MS in Drug Delivery

4.1 Drug Delivery

4.2 Synthesis of PCLT-CA and Preparation of Elastomeric Films and Coatings

4.3 Sample Preparation for MALDI Analysis

4.4 MALDI Data Interpretation
Fundamentals of MALDI-ToF-MS Analysis
Applications in Bio-diagnosis, Tissue Engineering and Drug Delivery
