

# Preface

It is indeed a pleasure to receive overwhelming response from academicians and researchers of premier institutes and organizations of the country and abroad for participating in the 4th International Conference on Advanced Computing, Networking, and Informatics (ICACNI 2016), which makes our endeavor successful. The conference organized by Centre for Computer Vision and Pattern Recognition, National Institute of Technology Rourkela, India, during September 22–24, 2016, certainly marks a success toward bringing researchers, academicians, and practitioners in the same platform. We have received more than 550 articles and very stringently have selected through peer review 114 best articles for presentation and publication. We could not accommodate many promising works as we tried to ensure the highest quality. We are thankful to have the advice of dedicated academicians and experts from industry and the eminent academicians involved in providing technical co-sponsorship to organize the conference in good shape. We thank all people participating and submitting their works and having continued interest in our conference for the fourth year. The articles presented in the two volumes of the proceedings discuss the cutting-edge technologies and recent advances in the domain of the conference. The extended versions of selected works would be re-reviewed for publication in reputed journals.

We conclude with our heartiest thanks to everyone associated with the conference and seeking their support to organize the 5th ICACNI 2017 at National Institute of Technology Goa during June 01–03, 2017.
