

Contents

1	History of Chinese Agriculture Before Reform and Opening	1
1.1	Three Thousand Years of Agriculture in China	1
1.1.1	The Origins of Agriculture	1
1.1.2	The Development of Agriculture	3
1.1.3	Agricultural Achievements	8
1.1.4	Characteristics of Agriculture	12
1.2	The Last 300 Years of Agriculture in China	13
1.2.1	A Stage of Continued Slow Growth in Agriculture	14
1.2.2	Why Agriculture Did Not Cause Economic Decline in China	18
1.2.3	Reasons for China's Economic Decline	19
1.3	Agriculture in China for the 30 Years Prior to Reform and Opening	23
2	Agricultural Reforms	27
2.1	Reforms to Markets for Agricultural Products	31
2.1.1	Gradually Shrinking the Scope of the Agricultural State Monopoly	31
2.1.2	Gradually Reducing the Quantity of State Monopoly Purchases	32
2.1.3	Gradually Developing a Market for Agricultural Products	32
2.1.4	Expanding Channels for Circulation of Agricultural Products	33
2.2	Agricultural Factor Market Reforms	35
2.2.1	Reforms to Agricultural Input Markets	36
2.2.2	Reforms to Agricultural Labor Markets	36
2.2.3	Reforms to Rural Capital Markets	39

2.3	Reforms to the Agricultural Land System.	51
2.3.1	Progress of Reforms to the Agricultural Land System	52
2.3.2	Developing a Rural Land Market	53
2.3.3	Scale and Pricing of the Land Market.	55
2.3.4	Establishing Land Management and Farmland Protection Systems	56
2.4	Reforms to the System and Mechanisms for Agricultural Operations	57
2.4.1	Reducing the Scope of Administrative Management, Establishing Norms for Administrative Management.	57
2.4.2	Improving Laws and Regulations, Governing in Strict Accordance with the Law	59
2.4.3	Expanding the Scope of Economic Administration, Improving Economic Management Methods	60
2.5	The Experience of China's Rural Reforms	62
2.5.1	Enormous Potential for Rural Economic Growth	62
2.5.2	Market Guidance: An Important Factor in Rural Growth	63
2.5.3	Non-agricultural Enterprises to Become Mainstay of Rural Development.	63
3	China's Agricultural Basic Operating System.	65
3.1	Changes to China's Agricultural Basic Operating System	65
3.2	Environmental Changes Facing Construction of the Basic Operating System	67
3.2.1	Sustenance Fields Less Important	67
3.2.2	Gradual Increases to Opportunity Costs of Agriculture	68
3.2.3	Using Land to Provide for Old Age Less Important	68
3.2.4	Differentiation in Production and Capital Functions of Agricultural Land	68
3.2.5	Differentiation Between Rural Citizens	70
3.2.6	Diversification of Organizational Market Entry Methods for Rural Citizens	71
3.3	The Development of New Agricultural Operators in China	71
3.3.1	Leading Farms	72
3.3.2	Specialized Households.	73
3.3.3	Specialized Farmer Cooperatives.	74
3.3.4	Agricultural Companies.	74
3.4	The Thinking Behind Fostering Leading Rural Households	75
3.5	Summarizing Comments.	78

4	The Development of Agriculture in China	81
4.1	China's Natural Agricultural Resources	81
4.1.1	Low Per Capita Quantities of Land	81
4.1.2	Big Regional Differences in Available Water	81
4.1.3	Discoordination in Water and Land Resources	82
4.2	Agricultural Inputs	82
4.2.1	Labor	82
4.2.2	Farmland	84
4.2.3	Water Resources	90
4.2.4	Capital Inputs	93
4.2.5	Adjustments to the Agricultural Structure	99
4.3	Growth of Agriculture	100
4.3.1	Material Productivity of Agriculture	100
4.3.2	Value Productivity of Agriculture	102
4.3.3	Technological Productivity of Agriculture	103
4.4	Development in Other Agricultural Sectors	106
4.4.1	Forest Protection and Construction	108
4.4.2	Grassland Protection and Construction	110
4.4.3	Wetlands Protection and Construction	113
5	Transformations to Agriculture and Agricultural Policies in China	115
5.1	Changes to the Agricultural Operations Model	115
5.1.1	Transition from Collective to Household Operations	115
5.1.2	Transition from Scattered to Scale Operations	117
5.1.3	Transition from Coercive to Inductive Administration	120
5.2	Changes to the Agricultural Structure	121
5.2.1	Transition from Reliance on Rainwater to Irrigation	121
5.2.2	Transition from Planting-Based to Husbandry-Based Agriculture	122
5.2.3	Transition from Dispersed to Concentrated Husbandry	123
5.2.4	Transition from Wild Catching to Farming in Fisheries	124
5.2.5	Transition from Net Exports to Net Imports of Agricultural Products	124
5.3	Changes to Agricultural Policies	127
5.3.1	Transition from Concentrating Agricultural Surpluses to Supporting Agricultural Development	127
5.3.2	Transition from Comprehensive Support to Focus Support	128
5.3.3	Transition from Quantity Security to Quality Security	129
5.3.4	Transition from Expanding Production to Protecting the Environment	129
5.3.5	Transition from Economic Development to Social Development	134

6	Grain Production and Food Security in China	141
6.1	Grain Production	141
6.1.1	Changes to Grain Yields and Per Capita Grain Shares	141
6.1.2	Per Capita Grain Yields in China	150
6.2	Analysis of Factors Affecting Grain Production	152
6.2.1	Technological Advances	152
6.2.2	Impact of Climate Change	154
6.2.3	Agricultural Policies	154
6.2.4	Reductions of Farmland	156
6.3	Changes and Trends to Grain Production Distribution	156
6.3.1	North Outstrips South in Grain Production	156
6.3.2	Grain Production Concentrating in Central Region	157
6.3.3	Expansion of Northeastern Superior Round-Grain Rice, Stable Advantages of Southern Rice	157
6.3.4	Wheat Production Concentrating in Huang and Huai River Basins	157
6.3.5	Corn Production Concentrating in Northeastern and Central Regions	158
6.3.6	Overall Shrinking of Soybean Production	158
6.4	China's Food Security Strategy	159
6.4.1	Enactment of the Prime Farmland Protection Policy	159
6.4.2	Strengthening Construction of Prime Farmland Infrastructure	159
6.4.3	Optimizing the Distribution of Grain Production	159
6.4.4	Promoting International Trade of Agricultural Products	160
6.5	The Implications of Food Security	162
6.5.1	Food Security at the Product Level	163
6.5.2	Food Security at the Resource Level	164
6.5.3	Food Security at the Environmental Level	166
6.5.4	Food Security at the Consumption Level	166
	References	169
7	Challenges Facing Agricultural Development	171
7.1	Challenges Facing Agricultural Production	171
7.1.1	The Challenge of Non-agricultural Usage of Farmland	171
7.1.2	The Challenge of Uses of Farmland Other Than Grain Production	175
7.1.3	The Challenge of Low Efficiency Usage of Farmland	176
7.1.4	The Challenge of Decreasing Cultivation Intensiveness	176
7.1.5	The Challenge of Decreasing Agricultural Competitiveness	178
7.2	Challenges in Other Areas	179
7.2.1	The Challenge of Promoting Cooperation Among Rural Citizens	179

7.2.2	The Challenge of Rural Citizens Unwilling to Abandon the Land	179
7.2.3	The Challenge of Rural Citizens Retaining Land Rights	180
7.2.4	The Challenge of Agriculture Transitioning to Scale Operations.	181
7.2.5	The Challenge of Protecting Rural Citizen Land Rights . . .	182
7.2.6	The Challenge of the Rural Community Administration System	183
7.2.7	The Challenge of Rural Differentiation and Stability.	183
8	Outlook and Vision for Agriculture in China	185
8.1	Objectives for Agricultural Development	185
8.1.1	Objectives of Agricultural Reforms.	185
8.1.2	Tasks of Rural Development.	187
8.1.3	The Course of Agricultural Development	189
8.1.4	Policies for Agricultural Development	196
8.2	Outlook for Agricultural Development in China.	201
8.2.1	Full Citizen Treatment for Rural Citizens	201
8.2.2	International Competitiveness in Agriculture.	204
8.2.3	Comprehensive Development of Rural Society	209
