

Contents

Single Password Authentication Protocol	1
Pramote Kuacharoen	
Performance Analysis of Congestion Control for Massive MTC Networks	7
Yi-Yen Chen, Yu-Chee Tseng, and Jyh-Cheng Chen	
How to Train People to Increase Their Security Awareness in IT	12
Agata Niescieruk, Bogdan Ksiezopolski, Radoslaw Nielek, and Adam Wierzbicki	
Advanced Data Communication Framework for Cloud Computing from CDMI	18
Jae-Yun Jeong and Jae-Woong Jeong	
A Study of AI Based E-learning System and Application	24
Min-Gyu Shim and Jae-Woong Jeong	
A Study on the Serious Issues in the Practice of Information Security in IT: With a Focus on Ransomware	31
Junhak Lee and Jae-Woong Jeong	
Mobile App for Analyzing Environmental Visual Parameters with Life Logging Camera	37
Hyeonsang Hwang, Daejune Ko, Mincheol Whang, and Eui Chul Lee	
Fake Fingerprint Detection Based on Statistical Moments	43
Yosep Park, Unsoo Jang, Jiwon Im, Woohyuk Jang, Daejune Ko, and Eui Chul Lee	
Path Planning Method for Collision Avoidance of Multiple UAVs	49
Hyeok Kim, Jeonghoon Kwak, Guichang Sim, and Yunsick Sung	

3D UAV Flying Path Optimization Method Based on the Douglas-Peucker Algorithm	56
Guichang Sim, Jaehwa Chung, and Yunsick Sung	
Encrypted Network Traffic Analysis Method via Secure Socket Layer Handshake Control	61
Jihoon Yoon, Kangsik Shin, and Yoojae Won	
Property Analysis of SMS Spam Using Text Mining	67
Manki Baek, Youngkyung Lee, and Yoojae Won	
An Automatic Patch Management System with Improved Security	74
JunHee Kim, MinSeok Sohn, and YooJae Won	
An Empirical Study on the Relationship Between User Interface Design Attributes in Smartphone Applications and Intention to Use	81
Wonjin Jung and HyungRok Yim	
Thumb Biometric Using Scale Invariant Feature Transform	85
Naeun Lim, Daejune Ko, Kun Ha Suh, and Eui Chul Lee	
Image Classification Using Color and Spatial Frequency in Terms of Human Emotion	91
Min Woo Park, Daejune Ko, Hyeonsang Hwang, Jiyeon Moon, and Eui Chul Lee	
Human Robot Interaction Method by Using Hand Gesture Recognition	97
Jaehyun Han, Woohyuk Jang, Dojoon Jung, and Eui Chul Lee	
A Beacon-Based User Direction Estimating Method in Indoor Environments	103
Jeonghoon Kwak and Yunsick Sung	
User Selection Based Backpropagation for Siamese Neural Networks in Visual Filters	109
Hanju Park and Sukho Lee	
Methodological Route to Designing Optimized Bedroom Environment for Active-Aging	116
Sung Jun Park	
Grayscale and Halftone Gel Lithography as Promising Techniques for Swelling-Induced Deformation of Smart Polymer Hydrogel Films	122
Myunghwan Byun	

Methodology for Improving Usability Model of Multiple Devices 126
 Jeyoun Dong and Myunghwan Byun

Development of SMART Base Isolation Using Linear Motion Guide 130
 Chunho Chang and Sangyoung Shin

Analysis on Work Zone Characteristics in South Korean Expressways Using Text Mining Technique 134
 Oh Hoon Kwon, Je-Jin Park, and Shin Hyoung Park

Seismic Performance Evaluation of a Prestressed I-Type Girder Bridge in Daegu for ICT Based Disaster Management in Daegu Metropolitan City 140
 Chunho Chang, Sung Jig Kim, and Shin Hyoung Park

Implementation of Sitting Posture Monitoring System with Kinect 144
 Dong-Jun Shin, Min-Sang Kim, Wook Song, Se Dong Min, and Min Hong

Solving the Subgraph Isomorphism Problem Using Harmony Search. 151
 Hoyeong Yun, Yongjoon Joe, Byung-Ok Jung, Hyoguen Bang, and Dongmyung Shin

Persuading Recommendations Using Customized Content Curation. 159
 Keonsoo Lee and Yunyoung Nam

Improving the Quality of an R-Tree Using the Map-Reduce Framework 164
 Viet-Ngu Huynh Cong, Kang-Woo Lee, In-Hak Joo, Oh-Heum Kwon, and Ha-Joo Song

An Energy-Efficient and Reliable Routing Protocol for Cognitive Radio Sensor Networks 171
 Zamree Che-arón

A Novel on Automatic K Value for Efficiency Improvement of K-means Clustering 181
 Se-Hoon Jung, Kyoung-Jong Kim, Eun-Cheon Lim, and Chun-Bo Sim

Study on Integrity Verification and Compatibility-Conflict Analysis for Safe Patching. 187
 Jeongmin An, Sangmoon Jung, and Yoojae Won

OFART: OpenFlow-Switch Adaptive Random Testing 193
 Dong-Su Koo and Young B. Park

Patch Alarm and Collecting System 199
 Jaegeun Oh, Chaeho Cho, and Yoojae Won

Method of Building a Security Vulnerability Information Collection and Management System for Analyzing the Security Vulnerabilities of IoT Devices 205
Kisu Kim, Jongsoo Lee, and Wonkang Jung

A Cluster Head Selection Method by Restricting Selection Area in Wireless Sensor Networks 211
Jong Won Lee, JiSu Park, Heung-Keun Kim, and Jin Gon Shon

An Improved Pedestrian Detection System that Utilizes the HOG-UDP Algorithm 218
Pyeong-Kang Kim, Hyung-Heon Kim, and Tae-Woo Kim

An Approach to Fast Protocol Information Retrieval from IoT Systems 226
Onur Soyer, Kwan-Young Park, Nomota Hiongun Kim, and Tae-soo Kim

IoT Vulnerability Information Sharing System 233
Taeho Seo

A Study on the Service Identification of Internet-Connected Devices Using Common Platform Enumeration 237
Sarang Na, Taeun Kim, and Hwankuk Kim

A Design of IoT Protocol Fuzzer 242
Dae-il Jang, Taeun Kim, and Hwankuk Kim

A Study on the Management Structure of Vulnerability Information in IoT Environment 247
Eunhye Ko, Taeun Kim, and Hwankuk Kim

Assessing the Impact of DoS Attacks on IoT Gateway 252
Yungee Lee, Wangkwang Lee, Giwon Shin, and Kyungbaek Kim

Low-Cost Infrared Video-Oculography for Measuring Rapid Eye Movements 258
Youngsun Kong, Hyeonsoo Lee, Namik Kim, Seungyeon Lee, Jihwan Park, Taeyang Han, and Yunyoung Nam

VM Relocation Method for Increase the Resource Utilization in Cloud Computing 263
Sangwook Han, MinSoo Chae, and Hwamin Lee

Challenges and Experiment with LoRaWAN 269
Seung-Kyu Park, Kwang-il Hwang, Hyo-Seong Kim, and Byoung-Sup Shim

Consumer’s Behavioral System of Approach and Avoidance Investigating Generic Medicine Distribution and Logistics in Japan . . . 277
Takefumi Hosoda and Hongsik J. Cheon

Cross-Conforming Approaches of ICT Functionality Design for Smart City 283
 Jae-Young Ahn, Eunjun Rhee, Hyun-Woo Lee, and Dae Joon Hwang

GUI-Based Korean Font Editing System Using Font Parameterization Technique 289
 Minju Son, Gyeongjae Gwon, Geunho Jeong, and Jaeyoung Choi

Spatial Big Data Analysis System for Vehicle-Driving GPS Trajectory 296
 Wonhee Cho and Eunmi Choi

i-SHSS: An IoT Based Smart Home Security System 303
 Saurabh Singh, Pradip Kumar Sharma, Seo Yeon Moon, and Jong Hyuk Park

The VM Weighted Filter Scheduling Algorithm for OpenStack Cloud 307
 Mohan Krishna Varma Nandimandalam and Eunmi Choi

A Hierarchical Motion Estimation Based on the Properties of Motion Vectors for Low Complexity in Video Coding 314
 Hyo-Sun Yoon and Mi-Young Kim

Research on Method of Technological Evolution Analysis Based on HLDA 321
 Liang Chen, Xiaoping Lei, Guancan Yang, and Jing Zhang

A Mixture Record Linkage Approach for US Patent Inventor Disambiguation 331
 Guan-Can Yang, Cheng Liang, Zhang Jing, Dao-Ren Wang, and Hai-Chao Zhang

The LTC Framework for Competitive Analysis on Industrial Technology 339
 Hongqi Han, Changqing Yao, Maoxiang Peng, and Yongsheng Yu

Bayesian Multinomial Naïve Bayes Classifier to Text Classification 347
 Shuo Xu, Yan Li, and Zheng Wang

CERIF: A Research Information Model for Electric Vehicles Decision Support System 353
 YingJie Zhang and Na Qi

On Bypassing Page Cache for Block Devices on Storage Class Memory 361
 Jin Baek Kwon

Applying Tensorflow with Convolutional Neural Networks to Train Data and Recognize National Flags 367
Hoang Huu Duc and Keechul Jung

An Empirical Study on the Effect of the Interpretability of Metaphors in UI on the Learnability of Mobile Apps. 374
Wonjin Jung and HyungRok Yim

A Density-Aware Data Encryption Scheme with Query Auditing Index for Secure Mobile Services. 379
Moon-Hwan Kang, Min Yoon, and Jae-Woo Chang

A Kernel Density Estimation Model for Moving Object Detection 386
Yulong Qiao and Wei Xi

Detecting Bases of Maximal Cliques in a Graph 393
Fei Hao, Doo-Soon Park, and Zheng Pei

Forecasting Cultivable Region-Specific Crops Based on Future Climate Change Utilizing Public Big Data 399
Yoo-Jin Moon, Won Whee Cho, Jieun Oh, Jeong Mok Kim, Sang Yub Han, Kee Hwan Kim, and Sungkap Cho

Statistical Analysis of Determinants of Intention to Use Virtual Reality Services and Moderating Effects 405
Young-Ho Hwang and Yoo-Jin Moon

Real-Time Human Depression Diagnosis System Using Brain Wave Analysis. 412
Dongmin Shin, Yunjin Nam, Dongil Shin, and Dongkyoo Shin

Deep Belief Network Based on Double Weber Local Descriptor in Micro-expression Recognition 419
Xiao-li Hao and Miao Tian

Design for Network File Forensics System Based on Approximate Matching 426
Aonan Zhai, Fei Xu, Haiqing Pan, Junzheng Shi, and Gang Xiong

The Comparative Analysis of the Repeat Regions from the Assembled Contigs 432
Jahee Jung

Senior Tourism and Information and Communication Technologies 440
Blanka Klimova

Wearable and Portable Monitoring Devices for Older People. 446
Blanka Klimova and Petra Maresova

A Novel Anomaly Detection Method in Wireless Network Using Multi-level Classifier Ensembles 452
 Bayu Adhi Tama and Kyung-Hyune Rhee

Learning Reaction Analysis Engine for Interactive Digital Textbook Platform 459
 Kwang Sik Chung

Rule-Based Topic Trend Analysis by Using Data Mining Techniques 466
 Yunwan Jeon, Chanho Cho, Jongwoo Seo, Kyunglag Kwon, Hansaem Park, and In-Jeong Chung

A Case Study of Hierarchical Safety Analysis for Eliciting Traceable Safety Requirements 474
 Daehui Jeong, Anit Thapaliya, and Gihwon Kwon

Smart Home Technology and Energy Savings with a Special Focus on Europe 481
 Blanka Klimova, Petra Maresova, and Ondrej Krejcar

Senior Citizens’ Views of Using Medical Technologies – Case Study in Central Europe 487
 Petra Maresova and Jaroslav Kacetl

Audiences Counting in Cinema by Detecting Occupied Chairs 493
 Zhitong Su, Jun Lan, Wei Song, Simon Fong, and Yifei Tian

Efficient Distributed Index Structure and Encrypted Query Processing Scheme for Cloud Computing Environment 499
 Yeonwoo Jang, Hyunjo Lee, and Jae-Woo Chang

A Data Encryption Scheme Using Periodic Functions for Efficient Query Processing on Encrypted Data 506
 Hyunjo Lee, Youngho Song, and Jae-Woo Chang

Software Product Line Lifecycle Management-Integration Engineering and Management Process 513
 Jeong Ah Kim and Jin Seok Yang

OLSR Improvement with Link Live Time for FANETs 521
 Yan Jiao, Wenyu Li, and Inwhhee Joe

An Efficient Partition-Based Filtering for Similarity Joins on MapReduce Framework 528
 Miyoung Jang, Archana B. Lokhande, Naeun Baek, and Jae-Woo Chang

A Study of Algorithm Replacement Mechanism for Environment Adaptive Load Balancer 534
 JongMin Lee and Young B. Park

Face Recognition Based on Enhanced CSLBP 539
Chen Li, Shuai Zhao, Ke Xiao, and Yanjie Wang

**A Supporting Environment for Formal Analysis
of Cryptographic Protocols** 545
Jingchen Yan, Kazunori Wagatsuma, Hongbiao Gao, and Jingde Cheng

Modeling and Simulation of LoRa in OPNET 551
Andrew D. Jun, Seokjoon Hong, Wooyeob Lee, Kyungrak Lee,
Inwheel Joe, Kyeseon Lee, and Tae-Joon Park

**Dynamic Analysis Bypassing Malware Detection Method Utilizing
Malicious Behavior Visualization and Similarity** 560
Jihun Kim and Jonghee M. Youn

**Mongolian Internet Consumers’ Attitude Towards
Web Advertising** 566
Bulganmaa Togookhuu, Junxing Zhang, and Wuyungerile Li

**A Study on the Quantitative Design and Documentation
for the VR Based Training Contents Realism**. 573
Gyungchang Lee, Kyoil Chung, and Cheong Youn

**Progressive Motion Artifact Removal in PPG Signal for Accurate
Heart Rate Estimation** 580
Ji Hun An, Heemang Song, and Hyun-Chool Shin

**A Case Study on How to Predict Café Profit: A Dimension Reduction
via Factor Analysis** 588
Jeong-Hyeon Moon, Chae-Young Yun, Seon-Joo Park,
and Kyung-Ah Sohn

Motion Blurred Shadows Using a Hybrid Approach 594
MinhPhuoc Hong and Kyoungsu Oh

**Design of ECG Data Compression Algorithm for Efficient M2M-Based
Mass Biometric Data Transmission** 601
Jae-Sung Shim, Seung-Su Yang, Young-Hwan Jang, Yong-Wan Ju,
and Seok-Cheon Park

**Design of Clustering Algorithm for Efficient Energy Management
in Wireless Sensor Network Environments**. 607
Seung-Su Yang, Jae-Sung Shim, Young-Hwan Jang, Yong-Wan Ju,
and Seok-Cheon Park

**Design of a Framework for Security Enhancement in Telematics
Control Units (TCUs)** 613
Kiyoung Jang, Suhong Shin, and Byoungsoo Koh

Improved Data Stream Clustering Algorithm for Anomaly Detection 620
 Chunyong Yin, Sun Zhang, and Jin Wang

Application of an Improved Data Stream Clustering Algorithm in Intrusion Detection System 626
 Chunyong Yin, Lian Xia, and Jin Wang

Short Text Classification Technology Based on KNN+Hierarchy SVM 633
 Chunyong Yin, Lingfeng Shi, and Jin Wang

Spectral Response Based Regularization Parameter Selection for Total Variation Image Restoration 640
 Yuhui Zheng, Min Li, Kai Ma, Shunfeng Wang, and Jin Wang

Face Recognition for Mobile Self-authentication with Online Model Update 646
 Seon Ho Oh and Geon-Woo Kim

Prototype System Design for Large-Scale Person Re-identification 649
 Seon Ho Oh, Seung-Wan Han, Beom-Seok Choi, and Geon-Woo Kim

Topic Modeling for Learner Question and Answer Analytics 652
 Kyungrog Kim, Hye Jin Song, and Nammee Moon

A Model of Energy-Awareness Predictor to Improve the Energy Efficiency 656
 Svetlana Kim and Yong-Ik Yoon

A Novel Structure Tensor Using Nonlocal Total Variation Operator 663
 Yin Yu, Kai Ma, Yuhui Zheng, and Jin Wang

Gaussian Mixture Model Based Image Denoising Method with Local Constraints 670
 Min Li, Yuhui Zheng, Shunfeng Wang, and Jin Wang

A Study on Secure Protocol Techniques Supporting TCUs in a Telematics Environment 676
 Byoungsoo Koh and Suhong Shin

Development of Test Agents for Automated Dynamic Testing of UNIWAY 683
 Seoung-Hyeon Lee and Jung-Chan Na

Multi-step Prediction for Time Series with Factor Mining and Neural Network 689
 Mingji Zhou, Jin Liu, Fei Li, and Jin Wang

A Vision-Based Approach for Deep Web Form Extraction 696
Jiachen Pu, Jin Liu, and Jin Wang

Questions Classification with Attention Machine 703
Yunlu Liaozheng, Jin Liu, and Jin Wang

**Development of Unidirectional Security Gateway Satisfying Security
Functional Requirements** 709
Seon-Gyoung Sohn, Jungchan Na, and Kyung-Soo Lim

Context Based Multiple Players Identification in Sports Images 715
MiYoung Nam, Jun-Young Lee, Sung Youb Kim, and YoungGiu Jung

**A Study of the Factors Influencing Information Security Policy
Compliance: Focusing on the Case of ‘K’ Institute** 720
Gwang-il Ju, Jinhyung Park, Wanyoung Heo, Joon-Min Gil,
and Hark-Soo Park

Safe-Driving Aid System Using Bi-directional Cameras 729
Byoung Wook Kwon, Kyung Yeob Park, Seo Yeon Moon,
and Jong Hyuk Park

**Telling Computer and Human Apart: Image-Sound Based
CAPTCHA System** 733
Jung Hyun Ryu, Nam Yong Kim, Seo Yeon Moon, and Jong Hyuk Park

Author Index 737
