Contents

1  Role of Salicylic Acid in the Control of General Plant Growth, Development, and Productivity ......................................................... 1
   Cesar J. Tucuch-Haas, Jesica V. Pérez-Balam,
   Karen B. Díaz-Magaña, José Manuel Castillo-Chuc,
   María G. Dzib-Ek, Gabriel Alcántar-González,
   Silvia Vergara-Yoisura, and Alfonso Larqué-Saavedra

2  On the Role of Salicylic Acid in Plant Responses to Environmental Stresses ................................................................. 17
   José A. Hernández, Pedro Díaz-Vivancos, Gregorio Barba-Espín,
   and María José Clemente-Moreno

3  Use of Salicylic Acid and Related Compounds to Improve the Abiotic Stress Tolerance of Plants: Practical Aspects ............... 35
   Tibor Janda, Magda Pál, Éva Darkó, and Gabriella Szalai

4  Emerging Trends in Physiological and Biochemical Responses of Salicylic Acid ............................................................. 47
   Neha Handa, Sukhmeen Kaur Kohli, Ravdeep Kaur,
   Kanika Khanna, Palak Bakshi, Ashwani Kumar Thukral,
   Saroj Arora, Puja Ohri, Bilal Ahmed Mir, and Renu Bhardwaj

5  Wheat Germ Agglutinin and Dehydrins as ABA-Regulated Components of SA-Induced Cadmium Resistance in Wheat Plants ........................................ 77
   F.M. Shakirova, M.V. Bezrukova, Ch.R. Allagulova,
   D.R. Maslennikova, and A.R. Lubyanova

6  Salicylic Acid-Mediated Defence Signalling in Respect to Its Perception, Alteration and Transduction ...................................... 97
   Kusum Verma and S.B. Agrawal

7  Role of Salicylic Acid in Heavy Metal Stress Tolerance: Insight into Underlying Mechanism ............................................... 123
   Sukhmeen Kaur Kohli, Neha Handa, Ravdeep Kaur, Vinod Kumar,
   Kanika Khanna, Palak Bakshi, Ravinder Singh, Saroj Arora,
   Rupinder Kaur, and Renu Bhardwaj
