## Contents

Neural Machine Translation with Phrasal Attention ............................ 1  
   *Yachao Li, Deyi Xiong, and Min Zhang*

Singleton Detection for Coreference Resolution via Multi-window and Multi-filter CNN ................................................................. 9  
   *Kenan Li, Heyan Huang, Yuhang Guo, and Ping Jian*

A Method of Unknown Words Processing for Neural Machine Translation Using HowNet ................................................................. 20  
   *Shaotong Li, JinAn Xu, Yujie Zhang, and Yufeng Chen*

Word, Subword or Character? An Empirical Study of Granularity in Chinese-English NMT ................................................................. 30  
   *Yining Wang, Long Zhou, Jiajun Zhang, and Chengqing Zong*

An Unknown Word Processing Method in NMT by Integrating Syntactic Structure and Semantic Concept .............................................. 43  
   *Guoyi Miao, Jinan Xu, Yancui Li, Shaotong Li, and Yufeng Chen*

RGraph: Generating Reference Graphs for Better Machine Translation Evaluation .................................................................................. 55  
   *Hongjie Ji, Shujian Huang, Qi Hou, Cunyan Yin, and Jiajun Chen*

ENTF: An Entropy-Based MT Evaluation Metric ...................................... 68  
   *Hui Yu, Weizhi Xu, Shouxun Lin, and Qun Liu*

Translation Oriented Sentence Level Collocation Identification and Extraction ...................................................................................... 78  
   *Xiaoxia Liu and Degen Huang*

Combining Domain Knowledge and Deep Learning Makes NMT More Adaptive .................................................................................. 90  
   *Liang Ding, Yanqing He, Lei Zhou, and Qingmin Liu*

Handling Many-To-One UNK Translation for Neural Machine Translation ................................................................. 102  
   *Fuxue Li, Du Quan, Wang Qiang, Xiao Tong, and Jingbo Zhu*

A Content-Based Neural Reordering Model for Statistical Machine Translation ................................................................................ 112  
   *Yirong Pan, Xiao Li, Yating Yang, Chenggang Mi, Rui Dong, and Wenxiao Zeng*

**Author Index** .................................................................................. 125
Machine Translation
13th China Workshop, CWMT 2017, Dalian, China,
September 27-29, 2017, Revised Selected Papers
Wong, F.D.; Xiong, D. (Eds.)
2017, XI, 125 p. 25 illus., Softcover
ISBN: 978-981-10-7133-1
