Contents

Big Data

Big Data Services Requirements Analysis .................................................. 3
   Affan Yasin, Lin Liu, Zhanqiang Cao, Jianmin Wang, Yingbo Liu,
   and Tan Sheau Ling

An Empirical Study of the Software Development Process, Including
Its Requirements Engineering, at Very Large Organization: How to Use
Data Mining in Such a Study ................................................................. 15
   Colin M. Werner and Daniel M. Berry

Cyber Security

Social Engineering Based Security Requirements Elicitation Model
for Advanced Persistent Threats ............................................................. 29
   Seung-Jun Kim and Seok-Won Lee

Eliciting Requirements for Improving Users’ Behavior
Using Transparency .................................................................................. 41
   Haruhiko Kaiya, Nobukazu Yoshioka, Hironori Washizaki,
   Takao Okubo, Atsuo Hazeyama, Shinpei Ogata,
   and Takafulumi Tanaka

Comparative Requirements Analysis for the Feasibility of Blockchain
for Secure Cloud ...................................................................................... 57
   Irish Singh and Seok-Won Lee

A Template for Writing Security Requirements ........................................ 73
   Massila Kamalrudin, Nuridawati Mustafa, and Safiah Sidek

A Security Requirements Library for the Development of Internet
of Things (IoT) Applications ................................................................. 87
   Massila Kamalrudin, Asma Asdayana Ibrahim, and Safiah Sidek

Crowd-Sourcing

Eliciting Activity Requirements from Crowd Using Genetic Algorithm ...... 99
   Chunhui Wang, Wei Zhang, Haiyan Zhao, and Zhi Jin

Crowd Vigilante: Detecting Sabotage in Crowdsourcing ....................... 114
   Muneera Bano and Didar Zowghi
Requirements Challenges

A Systematic Mapping Study of Empirical Research in GORE . . . . . . . . . . . . 123
   Anbreen Javed, Naveed Ikram, and Faiza Ghazanfar

Challenges in Context-Aware Requirements Modeling: A Systematic
Literature Review . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 140
   Yuanbang Li, Rong Peng, and Bangchao Wang

Issues of Using Function Point Analysis Method for Requirement
Changes During Software Development Phase . . . . . . . . . . . . . . . . . . . . . . . 156
   Jalal Shah and Nazri Kama

Understanding Uncertainty of Software Requirements Engineering:
A Systematic Literature Review Protocol . . . . . . . . . . . . . . . . . . . . . . . . . . . . 164
   Ahmad M. Salih, Mazni Omar, and Azman Yasin

Automation

Constructing a Goal Model from Requirements Descriptions Based
on Extraction Rules . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 175
   Hironori Shimada, Hiroyuki Nakagawa, and Tatsuo Tsuchiya

New Requirements Elicited from Accidents of Train Control System
Simulated by Modelica . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 189
   Wen Zhong, Yan Wang, and Xiaohong Chen

Author Index . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 205
Requirements Engineering for Internet of Things
Kamalrudin, M.; Ahmad, S.; Ikram, N. (Eds.)
2018, XIV, 205 p. 72 illus., Softcover
ISBN: 978-981-10-7795-1
