# Contents

1 Introduction ................................................  1
  1.1 Background ................................................ 1
    1.1.1 Quality Management System .......................... 1
    1.1.2 International Organisation for Standardisation 9000 ... 2
    1.1.3 Construction Quality Assessment System ............... 3
  1.2 Research Problem and Hypothesis .......................... 3
  1.3 Research Aim and Objectives ............................... 5
  1.4 Significance of Research ................................. 8
  1.5 Book Structure .......................................... 8
  References .................................................. 8

2 Construction Quality Assessment System ........................ 11
  2.1 Evolution of CONQUAS .................................. 11
    2.1.1 History and Development ............................ 11
    2.1.2 Bonus Scheme for Construction Quality ............... 12
    2.1.3 Introduction of Quality Mark Scheme ................. 14
  2.2 Assessment Approach ................................... 16
  2.3 Sampling Approach ...................................... 17
  2.4 Quality Trends .......................................... 18
    2.4.1 Mechanical and Electrical Works .................... 19
    2.4.2 Architectural Works ................................. 20
    2.4.3 Structural Works ................................... 23
  2.5 Summary of CONQUAS Findings ............................. 25
  References .................................................. 26

3 Quality Management ........................................ 29
  3.1 Evolution of Quality Management .......................... 29
  3.2 Rationale for Quality Management in the Construction Industry .... 30
  3.3 Quality Control and Quality Assurance .................... 31
  3.4 Pareto Efficiency of Quality Management ................... 31
  3.5 Barriers to Quality Management in Construction .......... 32
  3.6 Application of Quality Management to CONQUAS .......... 33
  References .................................................. 35
4 CONQUAS Critical Success Factors ........................................ 37
  4.1 Introduction ..................................................................... 37
  4.2 Human Resource Management ...................................... 38
    4.2.1 Formation of Quality Management Unit with Clear
          Guidelines of Each Member’s Roles and Responsibilities
          for Every Project: HRM1 ........................................... 38
    4.2.2 Commitment of Top Management to Advance
          the CONQUAS Management Performance: HRM2 ........... 40
    4.2.3 Getting the Support and Cooperation of
          Employees: HRM3 ................................................. 41
    4.2.4 Training Employees to Understand and Adhere
          to CONQUAS Requirements: HRM4 ......................... 42
    4.2.5 Supervision by Client or Architect to Monitor
          the CONQUAS Management Workflow of the
          Main Contractor: HRM5 ......................................... 43
    4.2.6 Comparing Company-Wide CONQUAS Performance
          Track Records: HRM6 ........................................... 44
    4.2.7 Setting a Benchmark to Gauge and Control the
          CONQUAS Performance: HRM7 .............................. 44
  4.3 Subcontract Management ........................................... 46
    4.3.1 Controlling the Number of Subcontractors Working
          on the Project: SCM1 ............................................. 46
    4.3.2 Having a Rigorous Prequalification Process
          to Select Subcontractors and Suppliers: SCM2 .............. 47
    4.3.3 Ensuring the Skill Level of Labourers: SCM3 ............... 47
    4.3.4 Collaborative Efforts Between Subcontractors
          and Main Contractor: SCM4 ................................... 48
    4.3.5 Adequacy of Contract Period and Contract Sum: SCM5 ... 48
    4.3.6 Identifying a Specific CONQUAS Score that
          the Subcontractor is Liable for Achieving: SCM6 .......... 49
    4.3.7 Awarding Incentives to Subcontractors if Their
          Targeted Score is Met: SCM7 .................................. 49
    4.3.8 Imposing a Penalty to Subcontractors if Their
          Targeted Score is not Achieved: SCM8 ...................... 49
    4.3.9 Giving Clear Instructions to Subcontractors on
          How to Adhere to the CONQUAS Requirements: SCM9 ... 49
  4.4 Schedule Management .............................................. 50
    4.4.1 Prefixing of CONQUAS Sample Locations
          (Applicable to Structural Components Only): SM1 .......... 50
    4.4.2 Adequacy of Sample Locations Prepared in the
          Event of Unforeseen Site Conditions to Serve
          as a Backup: SM2 ............................................. 51
    4.4.3 Arranging for Phased Construction to Reap Learning
          Curve on Workmanship Quality: SM3 ....................... 52
