A critical review on DART-MS
Characterization of carbon aerosol particles
Nanomaterials in sample preparation for protein analysis
Biomarkers for autoimmune and carcinogenic diseases

Analytical and Bioanalytical Chemistry

- New: Follow ABC on Twitter @AnalBioanalChem
- Online publication in 20 days from acceptance
- Attractive topical paper collections
- For most downloaded articles and more information visit springer.com/abc

Upload your manuscript at mc.manuscriptcentral.com/abc
Outstanding Features

- ABC Best Paper Award
- Free Analytical Challenge
- Free educational articles
- Attractive topical paper collections

Author Benefits

- No submission fee for full-color illustrations of accepted articles
- Book discount for contributing authors
- Open Choice, offers authors to have their journal articles made available with full open access in exchange for payment of a basic fee
ABC – Your society journal for rapid publication and global visibility of analytical research

**Rapid Publication**
- Time from submission to first decision less than 30 days on average
- Online publication in 20 days from acceptance

**Global Visibility**
- Articles accessible from any electronic device – from the desktop or mobile
- Gold and Green Open Access options available
- Free online access to members of the owner societies

**Stay up-to-date**
- Free Table of Contents Alert
- New: Follow ABC on Twitter@AnalBioanalChem

**Highly Cited**
- Among the Top 10 journals in analytical chemistry by Impact Factor (3.659 for 2012)
- The most recent Immediacy Index of ABC reached its highest value ever: 0.727
- Almost 22 000 total citations in 2012, more than doubled over the past five years

**Your chance to win an iPad**

**Your favorite ABC cover of 2013**
- Go to springer.com/abc and choose your favorite cover from the issues published in 2013
- The vote is open until December 31, 2014
- The winner of the iPad will be drawn in January 2015 and will be notified by e-mail
About ABC

Analytical and Bioanalytical Chemistry’s mission is the rapid publication of excellent and high-impact research articles on fundamental and applied topics of analytical and bioanalytical science. Its scope is broad, encompassing the entire range of analytical and bioanalytical research and encouraging multidisciplinary solutions to problems in this field. The Editors encourage submissions presenting novel analytical research in instrumentation, method development, and applications.

Top Cited Articles published in 2012

- DNA-templated fluorescent silver nanoclusters by B. Han, E. Wang in Anal Bioanal Chem (2012) 402: 129-138
