GENERAL INFORMATION

Frequency: Eight times

Established: 1973

Editorial: An international, interdisciplinary journal of full-length articles, *Archives of Environmental Contamination and Toxicology (AECT)* covers original experimental and theoretical research on this subject. Detailed reports of significant advances and discoveries in the fields of water, air, and soil contamination and pollution are published. In addition, research results from disciplines concerned with the introduction, presence and effects of deleterious substances in the total environment are documented.

Editor-in-Chief: Daniel R. Doerge, National Center for Toxicology Research, Paron, AR

Production Editor: Jack Nestor, 919-929-9401

Acceptance policy: The Publisher reserves the right to review and reject any advertising submitted to the journal which it deems as inappropriate for the editorial content.
